ROSEBURG WILL PLAY ASHLAND

Arrangements have been made whereby the Roseburg high school basketball team will meet the Ashland high school team at the local armory Saturday night. Each team has now won a game and the coming contest promises to be a hard fought one. The teams average close to the same weight and are equally fast. Another game will be played with the same team Monday. These games will decide the championship of southern Oregon.

The Roseburg boys are after the state championship and it looks as if nothing could stop them from winning. As long as conditions have adjusted themselves and school is re-established an effort will be made to induce the team of the Salem high school to come to this city and the deciding games will be played.

As the high school team is assuming all responsibility in regard to the finances of the coming games they deserve the support of the people of the city. And to those unflinching in the game of basketball the coming contests afford a good chance to become familiar with what is rapidly becoming one of America's most popular games.

Tickets were placed on sale last night and the results obtained in a few short hours evidenced the fact that the Roseburg people are taking a great deal more interest in the high school activities than ever before. Tickets are going fast and although the expense of bringing the Ashland team to Roseburg is very heavy it begins to appear as if the support now being shown will extend until the games are played that the amount can be easily met.

The juvenile band has offered their services and will be present to support the team besides giving a concert before the game. The contest Saturday night will not start before nine o'clock, giving all those who are employed in the various business houses a chance to attend. A preliminary between the Junior and Sophomore teams for the inter-class championship will be played before Saturday's game starting at 7:30. A girls preliminary will probably be held Monday night.

Arrangements have been made whereby tickets may be reserved at the Rose confectionery after tonight.

U. S. MUST DEPEND ON PRIVATE ARMS MAKERS - CROZIER

Gen. William Crozier

General William Crozier, chief of ordnance of the U. S. army, in his testimony before the house committee on military affairs recently, dealt a hard blow to the plan of many congressmen for exclusive government manufacture of munitions. It was hoped in this way to defeat the war god and the munition manufacturers at the same time. Gen. Crozier says that to build factories that could supply the arms needed under the new army plan would cost the United States \$50,000,000 and for the amount now used by England \$400,000,000.

At a late hour when refreshments were served.

Mrs. Carl Lehman left this afternoon for a visit with friends at Wilbur.

BRANDEIS WINS POINT.

WASHINGTON, Feb. 9.—Brandeis won the first skirmish over his appointment to the supreme bench when the senate defeated Senator Clarke's motion to hold the investigation before the full judiciary committee instead of a sub-committee.

"I charge Brandeis with being guilty of breach of faith," charged Clifford Throne railroad commissioner of Iowa. Throne testified before the sub-committee which is discussing Brandeis' fitness for a supreme court justice. He declared that Brandeis favored a railroad rate increase when it was not needed, and committed himself to the proposition that a 7 1/2 per cent return on a railroad investment was inadequate and negligible.

NEW CANDIDATE FOR TREASURER

The many friends of Mrs. Marie Flint-Riter have been urging her to enter the race for the position of county treasurer at the republican primary to be held May 12. Mrs. Riter needs no introduction to the people of Douglas county as this has been her home for the past 40 years. She is especially qualified for this position by many years' experience as bookkeeper in her former husband's mercantile establishment, that of S. C. Flint.

Mrs. Riter has always been identified with the educational and social interests of Douglas county and for many years has worked untiringly for success along this line. She is a charter member of the '95 Mental Culture club and has devoted much of her time to civic improvements. She is a woman of unquestioned integrity, as well as excellent business ability, filling many positions of responsibility and trust. At the present time she is worthy matron of Roseburg Chapter No. 8 Order of Eastern Star.

BRITISH LINER MAY BE SUNK.

NEW YORK, Feb. 9.—The British liner Orissa is believed to have been sunk. A Wall street firm has received a cable from London saying that a large passenger had met with a terrible accident in the North Atlantic. The Orissa has not been heard from in nearly a month and it is thought that it may have met a German commerce raider.

CONFESSED CROOK ACCUSES POLICE

"Eddie" Mack.

Fifteen members of the Chicago police department are accused of connivance with crooks in the confession of "Eddie" Mack, who admits that he was the leader of the gang which recently robbed the Washington Park bank in Chicago. Four gunmen, members of the "Gyp the Blood" contingent of New York's underworld, were indicted following Mack's confession and are now held in bonds of \$1,200,000.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, enthusiastic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of lime-iron phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of lime-iron phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.
