IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and thickness to hair when faded, streaked or gray.

That beautiful, even, shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mares the face. When it fades, turns gray, streaked and looks dry, wispy and scraggy, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's Sage and Sulphur" because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

ADELINA PATTI; THE QUEEN OF SINGERS

There was a time, and it is not entirely passed, when to mention prima donnas you would instantly think of Adelina Patti. She was born in Madrid, Spain, and her parents were operatic singers of Italian ancestry. She first sang at an early age in New York, but her fame was secure after her first appearance in London, and from that time she held high rank as one of the first singers of the day. The rich bell-like quality of her voice and remarkable evenness of tone had a range as high as soprano never surpassed, and her cadenzas and trills were the delight of her admirers. Adelina Patti will owe much of her fame to the way and manner in which she sang. "Comin' Thro' the Rye," although her greatest success was "Marguerite" in Gounod's "Faust". She never underestimated the voice of the songs that touched the heart. "The Last Rose of Summer" is a song that will always be identified with Patti.

"Comin' Thro' the Rye" and "When to Thy Vision," from Gounod's "Faust," both are to be found in "Heart Songs," the book now being offered to the readers of this paper, at cost of distribution and six coupons. "The Last Rose of Summer" is to be found on page 146 of the volume, and is only one of the many favorites of Patti that render the book a possession that should be one of the treasures to be found in every home.

Tone==Timbre==Tempo

Their tone is the true reproductions of the sounds of all voices and instruments, from the soaring high notes of a great soprano to the crashing finale of a full orchestra.

Their timbre is the delicate, clear reflection of all the fleeting colors of sound; the differences between voice and voice, between the touch of the artist and artist, that carry the message of personality.

Their tempo is the rhythm, beat for beat, that accentuated the melody of the original rendering, returned with brilliant, fine precision.
