A TRIBUTE TO JUDGE UPTON

The passing away of Judge Upton almost over night, came as a distinct shock to the many friends he had made during his all too brief stay among us here. A man of superior attainments, expanded and broadened by reading and research, his ver satile mind delved into the most abstruse subjects, and he was a veritable mine of information on cults and creeds and dogmas. He was a lover of nature, of its sturdy forests and sloping hills, its spreading fields and winding streams, and to him, the flowers and buds and ripening grain were emblems of an immortality continuous and uncessing through all the ages of time.

At times a dreamer, with his head above the clouds, he viewed the actions of his fellow men from the heights, and passed judgment on their frailties with tender mercy. Hating all forms of hypocrisy and deceit and subterfuge, he was a soul of honor, and regarded truth as the foundation of all morals. A gentleman ever, in all his dealings with the world and man, he leaves behind him a pang of regret in all with whom he came in contact, while to there of us whose privilege it was chants and private citizens. The to be numbered among his intimate Commercial club is strongly behind Triends, the personal loss is keenly This gentle man had such a store of virtues, such a love for humanity and hatred of wrong, that these will cover and hids the frailties from which none of us are im mune, and the memory of his kindly deeds will ever remain fresh with those who loved him. Pears to his unhen.

WE POOR AMERICANS.

From Mexico comes the report to day that the proposal was made there to have all Americans in that country placed in concentration camps while it is said Berlin will demand an apology from our state department for the arrest of several reputed members of the embassy in Washington, or the consulate in New York, and the confiscation of cer tain incriminating documents. to be hoped that this news will not reach any of the members of any of the old soldier associations, as it might have an andnly exciting effect on them.

Query in algebra for some of the Thigh school students: If a contractor contracts to build a wall twelve Inches thick, and uses two layers of brick four inches wide, laying them lengthwise, how much does he make extra by this operation, and would it come under the head of graft if the building was a municipal one

In order that the bands of the city may have a place to give their con certs with good light and comfort able seating arrangement, it is proposed to erect, a band stand on the court house lawn. for the proposed building are now in the hands of Geo. Kohlhagen and the county court has given permis sion for the structure to be erected at the place desired,

The ballding will not be expensive but will be something substantia and attractive. The money will be rulsed by subscriptions from the Commercial club, county court, mer the movement and will make a large propriation.

At the present time the bands arompelled to play in the street where the lighting is very poor and where they are compelled to stand or git in folding chairs which makes it difficult for the musicians to hanlle their instruments in the best manner.
