## COMPLIMENT PAID UMPQUA HOTEL

Miss Lina Ballis James, general secretary of the Y. W. C. A., who has been spending a short vacation in this city, before leaving today paid a very high tribute to the Umpqua hotel. Miss James left Portland about a week ago and has been in this city resting from the work of the winter. She left this morning for Ashland where she will again take up her work.

In speaking of the hotel at which she was a guest, Miss James said: "For attractiveness of rooms, efficiency of service, and for true comfort, I have never seen its equal. The courtesy shown by the employes and the consideration shown for the comfort of the guests is something that cannot be found even in the hotels in the largest cities

which it has been my privilege to visit."

It is such statements as these that prove the greatest advertisements for the city, and Mr. Weaver, the manager of the popular hotel has proven himself to be a man who can accomplish results for the betterment of Roseburg. His policy of keeping a huge and beautiful bouquet of roses on the hotel desk has resulted in comments which reach all parts of the United States, and in this way the Roseburg rose is becoming known as one of America's most beautiful flowers.

## WE SELL MORE ICE FOR THE SAME MONEY

In these Days of Dollars and Cents it is constantly a question of where can I buy my supplies the cheapest, because if I can not buy as cheap as my neighbor he gets ahead of me; that holds good for the manufacturer also.

### The Day of Slab-Wood Firing is Gone

Handling slab wood into the boilers day and night is an expensive way. It costs a large amount of labor and money, it takes two hours to fire up a 75-horse boiler, it takes 20 seconds to start a 75-horsepower motor. My good boiler can you see why our Ice Plant is ahead of old style ones.

## RESTORE AMERICAN FLAG TO PACIFIC

NEW YORK, May 16.—At a special meeting of the stockholders of the resuscitated Pacific Mail Steamship Company here today, it was expected that an increase in the capital stock will be authorized, making the amount \$4,000,000 instead of \$1,000,000. New money is to be provided to pay for three vessels recently purchased. This insures the restoration of the American flag to the trans-Pacific service. The offer has been underwritten, without a commission, by the American International Corporation and W. R. Grace & Co.

The old Pacific Mail Steamship Company was in the process of liquidation, following the enactment of the La Follette Seamen's law, when the Southern Pacific's controlling interest was acquired by the American International Corporation and W. R. Grace & Co.

The five largest vessels had already been sold to the International Mercantile Marine Company, but seven coastwise vessels, the largest of 7,500 tons displacement, were transferred to the new interests. They own much Pacific Mail stock bought in the open market after the reduction in capitalization from twenty million to one million dollars and are understood to own now about 75 per cent of the stock. Three new vessels, the Venezuela, Columbia and Ecuador, built in Holland last year, have recently been purchased from the Royal Dutch West India mail line, to be put into service on the Pacific, running from San Francisco to Japan, China, and the Philippines, thus restoring the American flag to trans-Pacific service.

For the 12 months ended with February the total earning of the Pacific Mail were \$1,664,936, and profits \$371,488, against \$271,264 earned last year. G. J. Baldwin, president, says revenues from the Panama line during the ensuing 12 months should exceed the earnings of last year and that the net revenue from the three new steamers should exceed the total net revenue from the balance of the fleet in the current fiscal year.

The American International Corporation is thought to own what amounts to a controlling interest in the International Mercantile Marine, having acquired, according to report, 30 per cent of the stock in the open market in the last few weeks.

### CHANGE IN VOTING PRECINCT.

The voting place for Caro precinct has been changed from the Bellon rooming house to the Christian church, corner of Pine and Woodward streets. Voters in this precinct will take notice of this change. mlS

## GREAT GROWTH DUE TO LUMBER MILLS

That the example illustrating the growth of the city of Raymond, Wash., which appears in another column, is not an isolated one, we give a brief history of what the lumber industry has contributed to the upbuilding of the city of Hoquiam, Wash. Here is a letter received by the Roseburg Commercial club from the secretary of the Hoquiam Commercial club:

Hoquiam, Wash., May 11, 1916.  
San S. Josephson,  
Roseburg, Oregon.  
Dear Sir:

Referring to your letter of the 8th, I will say: By all means vote the bonds and thereby secure a saw mill of 250,000 daily capacity. It will make your city. The city of Hoquiam has practically no other industry which would contribute to city support, except its lumber industry. It is a clean business and a mill of that capacity should add greatly to the earning capacity of your town. The mills are the life of Hoquiam, and at this time they are running all of them to their capacity limit. Then aside from this, the population of the lumber camps would for the most part do their trading in Roseburg. It would pay you to vote the bonds, even though the railroad did nothing more than to open up your timber lands, and make them tributary to your city. In this town we have a monthly pay roll of something like \$400,000, and I dare say that four-fifths of this

amount is contributed by the lumber industry. Yet we have no single mill here with the capacity of the one you propose. Hoquiam is a city 25 years old, and has a population of over 12,000. It began in the lumber industry, and is still in it. I would advise you to vote the bonds, for the industry will double your population in four years and maybe less time than that.

Wishing you success, I am  
Yours truly,  
MILTON H. H. LEE,  
Executive Secretary, Hoquiam Commercial Club.

According to the United States census reports, Hoquiam had in 1890 a population of 1302, in 1900 2,608, and in 1910 8,171. In 1916 it has 12,000. Compare this with the growth of Roseburg, over 60 years old and has only half the population, and one tenth the pay roll. And this in spite of the fact that Roseburg has hundreds of thousands of acres of fine agricultural land around it and tributary to it. This one industry of cutting our timber will do more in five years for Roseburg than all of our other advantages have accomplished in 60 years. Will you go to the polls next Monday and vote yes? We think so.

### For the Girl Graduate

No gift is more appropriate than a ring. It puts your good wishes into a permanent remembrance. Other presents may come and go—but rings have always led as graduation gifts.

For graduation time comes when young people desire rings most. In later years they proudly show these cherished gifts—and look back happily at school-day memories.

Who not please the girl or boy graduate most by giving a ring? Such as a W-W-W guaranteed ring—in which the stones are \$5. They cost as little as \$3—but \$5, \$7, \$8 or \$10 will buy an ideal graduation gift. Look at them now.

## SUGGESTIONS

This is the time of year you are guessing what this and that graduate would appreciate for a present. Let us help you think. A Waterman or Conklin self-filling non-leakable fountain pen is an every day companion and much appreciated by all. A fine watch or watch bracelet, signet or stone set ring, tie pins, tie holders, cuff links, Waldemar chains and fobs, knives, beads, brooches, ear rings, and many other useful articles we can show you and help you to decide just what is appropriate. We are pleased to help you select and our prices are always reasonable.

## WILL BUY MORE STREET SIGNS

Before closing their session last night the city council empowered the street committee to purchase as many of the street signs such as the one which has been in use for some time, as they deem necessary to control the traffic. This move was believed essential in controlling the heavy traffic during the carnival week at which time there will be hundreds of autos and teams on the streets. They will probably be of more substantial material and will be placed at all the intersections on Cass and Jackson streets.

The one which was designed by Henry Harth and made by Kisner & Marsh has proved very effective. Instead of the usual cutting of corners at the intersections, the autos are forced to keep to the right and in doing so lessen materially the danger of accident. When first installed the sign was the means of causing several arrests of violators and the money realized from fines was much more than the cost which is very small considering the effectiveness.

## MRS. BARGAR LEADS CARNIVAL QUEEN

Mrs. Bargar was still found to be the leading candidate in the race for Carnival Queen, with Miss Pickens still in second place at the count which was made this afternoon. Miss Pickens, however, has cut the lead almost in half as at the former count she was 790 votes behind.

while at the present time she needs only 490 to be on a par with Mrs. Bargar.

Lois Brand still leads for Children's Queen, but has only 375 votes more than Verus Houser. The contest will close tomorrow, the first count to be held at 10 a. m., and the last at 8 p. m.

The exact count was as follows:  
Mrs. C. L. Bargar.....2100  
Jessie Pickens.....1610  
Katherine Merrill.....850  
Children's Queen.

Lois Brands.....1985  
Verus Houser.....1610  
A number of young ladies this afternoon began selling the carnival hats on the streets and within a few hours over two hundred were disposed of.

What's the difference between storytelling traveling men and sheep?

Traveling men bring their tales to the fore, sheep keep theirs behind.

Little Bo-Peep she lost her sheep and didn't know where to find them! So she left them alone and soon they came home, a hustling! Their tails behind them! Mutton or Lamb Chops are nice for a change, TRY THEM!
