SAFETY FIRST SPECIAL

An advance notice has been received at this office stating that the splendid United States Government Safety First Special will at some date in the future make a stop at this station, and give the people a chance to see and get acquainted with the various methods adopted by the federal government to further personal safety. The special is made possible through the co-operation of the great B. & O. railway system, and will consist of twelve steel cars so arranged that the displays by the various departments can be easily examined. The exhibits will be from the treasury, war, navy, interior and agricultural departments, and the interstate commerce commission, and the Red Cross Society. It started from Washington on May 1st, and is working its way west. When the complete itinerary for the coast states is arranged, notice will be given by the press and The News is assured that Roseburg will be one of the places where the special will be scheduled to stop. Inasmuch as the itinerary for June comprised such important places only as Chicago, Toledo, Cleveland, Columbus and other cities from 25,000 inhabitants up, the distinction for Roseburg can be easily seen.

JUNE WEATHER.

The month of June has been an almost normal one, as regards weather conditions, as shown by the compilation of the official Weather Bureau at this station in charge of Wm. Bell. The temperature shows a mean of 61.4, against the normal of 60.9, indicating the slight excess of 0.5 degree over the average normal for 39 years. The highest temperature was 95, on the 16th, and the lowest, 37 on the 10th, with the greatest daily range 45, on the 12th, and the least 13, on the 25th. The highest on record is 101, and the lowest 36. For the first time since the official station was established here 39 years ago, there were four consecutive days when the thermometer registered above 90, these being on the 13th, 14th, 15th and 16th, when the record shows 92, 92, 94, 95. There were 14 clear days, 12 partly cloudy, and 4 cloudy. On 19 days there were 12 or more hours of sunshine, and 7 days with 14 or more. During June there were 8 days showing .01 or over precipitation, the total for the month being .91 inch, against the normal of 1.07, a deficiency of .16 inch. The greatest precipitation for any 24 hours was .26 inch, on the 25th and 26th. The total from September 1st to July 1st is 37.19, against the normal of 33.78, an excess of 3.42. The normal for 39 wet seasons is 32.12. There were no thunder storms during the month. The month has been excellent for making hay, and all growing crops, and all fruits have advanced, and while the rains of the last few days caused some splitting of cherries, there has been an enormous yield of all varieties and of a most excellent quality.

THREE THOUSAND GET INCREASE

SAN FRANCISCO, July 6.—The Southern Pacific Company yesterday ordered the wages of 3000 section laborers on the Pacific division raised from \$1.75 to \$2 per day. The increase is dated back to July 1.

The increase amounts to about \$200,000 annually. Five hundred men are given the raise on the Shasta division of the road alone.

Mexican and Chinese laborers are not included in the increase. The higher cost of living for the laborers is believed to be the cause of the increase.

ADVANCE MAN FOR THE CHAUTAUQUA ARRIVES IN CITY

Fred E. Keast, advance man and publicity manager of the Ellison-White Chautauqua system, arrived in the city this afternoon and will spend several days conferring with the local committee and getting things in shape for the opening of the program next Tuesday.

CASE IS DISMISSED

The case against Chas. Rees, accused of hitting Jack Decker in the head with a cup and saucer, was dismissed this afternoon by Recorder Whipple, by the mutual consent of the parties involved. Upon being forced to furnish bond, a cross complaint was filed against Decker, charging him with disorderly conduct. The case occurred Tuesday night when Decker came into George's restaurant on Cass street and called Rees names at which the latter took offense and believing that Decker intended bodily harm,

Rees threw a cup and saucer at him, inflicting two deep scalp wounds.

CHAUTAQUA TENT MONDAY

The chautauqua tent and paraphernalia is expected to arrive in this city early Monday morning together with a force of workmen, who will superintend its erection. The tent will be pitched in the same place as last year on the court house lawn, as near a central location as can be obtained.

CITY NEWS.

BORN—To the wife of R. B. Perkins, at Mercy hospital on Thursday, July 6, 1916, a son.

Sheriff George Quine returned this afternoon from Gardiner where he attended the Fourth of July celebration.

Dr. F. W. Haynes and wife returned this afternoon from Ashland where they attended the Roundup. The trip was made by auto and they report a delightful time.

Pat Patterson reports the loss or theft of a pocket book from his hip pocket this afternoon. The book contained only a number of bills and receipts of no value to any one but the owner whose name is inside, and he will be obliged to the finder, if it was lost, to return to him.

Mr. Beas and family, old acquaintances of B. L. Eddy, were in the city on their way south touring the country. They are great advocates of the Chautauqua and thought they might stay over here and take the course, unless they could find one on this week in one of the cities south.

FOREST NOTES.

Experiments with jack pine have shown that it is well suited for making kraft paper. On some of the national forests this tree is used to plant land which is too poor to grow other timber.

A new fire-fighting tool has been invented by a forest ranger in California which consists of an interchangeable hoe and rake. It is said to be the best tool of the sort yet devised.

Does Your Stomach Trouble You.

Rex Beach by Walt Mason

Among the world's great story tellers, those gifted, entertaining tellers, Rex Beach is stacking high; and I am always in my glory when I have got a new Beach story; it suits me more than pie. Red blood in all his yarns is seething; his characters are living, breathing, not dummies made of wood; strong men admire his kind of writing, of heroism, peril, fighting—it's always to the good. And Rex, when he is busy working, his trusty old typewriter jerking, until it busts a spoke, to have his inspiration quickened keeps all the air around him thickened with rich Tuxedo smoke. Say, have you noticed, gentle readers, how many famous men and leaders explain Tuxedo's worth? As man's great solace they expound it, and that's because they all have found it the best there is on earth.

REX BEACH Famous Author, says "I have smoked Tuxedo to sub-Arctic Alaska, at Panama and everywhere—would not smoke another kind."
