ILLINOIS' MOST REPRIEVED MURDERER SENTENCED TO BE HANGED TODAY.

MURPHYSBORO, Ill., July 14.—Unless Ellston Scott, Illinois' most reprimed murderer, is again reprimed today he stands no chance to make good his brag that he will never hang for the murder of his sister-in-law at Carbondale last summer. Scott has been reprimed five times. He is sentenced to die on the gallows here this morning.

The reprimed were caused by a twiddle-dum, twiddle-dee performance between Governor Dunning and Sheriff White of Jackson county.

The Governor, not wishing undue publicity given the hanging, asks White how many witnesses he is going to have to see Scott swing.

White replies that he will comply with the law and have enough witnesses to preserve order. Then the Governor reprimed Scott and the performance is repeated.

TO SCOTTSBURG AND RETURN BY AUTO IN RECORD TIME

George Neuner, Jr., made a record run to Scottsburg and return yesterday in his auto. Mr. Neuner left this city in the morning at 7:30 with his wife and son, Mrs. Earl Strong and daughter and Mrs. Campbell and daughter and arrived in town again last evening at seven o'clock. On the way over they encountered a tourist who had become stuck in fresh gravel which had been recently placed on the road for repairs and an hour was lost in helping the party out of their difficulties. Mr. Neuner stated that as a whole the roads were in good shape the entire distance.

MINNESOTA FROWNS NOT ON BIRTH CONTROL LECTURES

ST. PAUL, July 14.—Without the police interference that has marked meetings of birth control advocates in other cities, Mrs. Robert Laggett, of Duluth today lectured here on birth control, before several hundred Minnesota women and girls.

Mrs. Margaret Sanger, of New York, assisted in distributing literature on birth control. The Minnesota law does not prohibit the dissemination of information on this subject. But a clinic at which the subject was to have been discussed more generally, with maps, charts and wax figures, was declared contrary to law. The exhibit was abandoned.

Mrs. Liggett recently got her name in the papers by advocating at Seattle that women of the lower classes be reprimanded as breeders, that no high strung woman of the upper classes should be subjected to motherhood and that no child in the world be worth the pain it takes to bring it into existence.

Mrs. Sanger recently went free from a federal indictment in New York charging her with sending obscene matter through the mails in her birth control magazine, "The Woman Rebel". New York society men and women, Miss Fola La Follette among them, publicly supported what Mrs. Sanger had done.

CARRANZA'S "COLONEL HOUSE" TELLS HOW MEXICANS SEEK TO REGAIN LAND

Three-quarters of the privately owned land of Mexico is owned by persons outside of Mexico. Absentee landlordism, as with Ireland, has been the great cause of Mexican unrest.

This is the statement of Luis Bossero, a Mexican citizen now in the United States, who is sometimes called the mouthpiece of Carranza, but who denies that he has any official connection with the de facto government of his country.

"The great source of Carranza's strength is his program for restoring Mexican land to the Mexicans," says Bossero. "Ask any revolutionary soldier what he is fighting for and he will answer, 'For my land.'"

"While large tracts of Mexican land have always been held in feudal ownership by political favorites, it was only under Diaz that alien ownership became a source of oppression and it was then that the so-called community lands, held by each village for the use of all, were broken up and expropriated.

"These lands were generally seized by judicial chicanery, aided by Diaz soldiers. Left without land of his own to cultivate, the Mexican was

forced to work for the foreign corporation for a few cents a day or to starve or turn hand.

"Carranza's land program, announced a year ago, is as follows: There will be no confiscation, but an equitable distribution of the lands which the government still possesses, a restoration of tracts of which communities have been illegally dispossessed. As the constitution permits no special privileges, all lands whether in use or not and whoever may be the owner, will be subject to a proportional tax upon a just revaluation.

"Mexicans have learned their best lessons from the United States. We have closely copied your constitution and we revere Lincoln, who completed the freedom of your country and who saved Mexico from the threat of Austrian intervention. Your slogan is 'America for the Americans.' Ours is 'Mexico for the Mexicans.'"

TO OFFER HETTY GREEN'S WILL FOR PROBATE JULY 22

NEW YORK, July 14.—Col. E. H. R. Green, son of Mrs. Hetty Green, announced here that his mother's will probably would be offered for probate in New York county on July 22.

Col. Green declared that he and his sister, Mrs. Matthew Astor Wilks, were not interested in any way in the contest which is likely to develop over the trust fund of \$1,500,000, the income of which was enjoyed by Mrs. Green, but which, upon her death, reverted to heirs of Gideon Howland, who has been dead three quarters of a century. He declared there now were nearly 17,000 of these heirs, and predicted a bitter legal contest over the disposition of the fund.

Col. Green explained that his mother had left no bequests to charitable institutions because during her life-

time she gave liberally to charity, but always with the strict understanding that nothing was to be said about it.

"In the mill strike at New Bedford some years ago," he said, "my mother was asked to give \$50,000 to aid the starving mill hands. She refused to do so, but said, 'I will build a mill for you and give you work, and she did. She built the mill and ran it until she lost \$100,000, but she gave all those people work.'"

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, and stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and lungs the previous day's poisonous waste, sour bile and poisons, restore this cleansing, refreshing and puri-

fying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the four fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach troubles, rheumatism; others who have yellow skins, blood disorders and sticky complications are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a reasonable work on the subject of internal sanitation.
