

HUGHES MAKES KNOWN HIS POLICIES

Assails Administration For Mexican Policy.

FIRMNESS AND CONSISTENCY ADVOCATED

Present Prosperity is Described as "Fool's Paradise" Brought on By Abnormal Conditions of War.

NEW YORK, Aug. 1.—Charles E. Hughes last night outlined in his speech of acceptance the issues upon which he will conduct his campaign for the presidency.

Mr. Hughes assailed the administration for the course it has pursued with reference to Mexico, maintenance of American rights during the European war, preparedness and other great questions of the day. He declared for a new policy of "firmness and consistency" toward Mexico, for "the unflinching maintenance of all American rights on land and seas," and for adequate national defense; adequate protection on both our western and eastern coasts.

Of the present prosperity, Mr. Hughes said: "We are living in a fool's paradise."

"It is," he said, "a prosperity brought about by the abnormal conditions of war. For the protection of the industries and workmen of the United States against the competition of 'an energized Europe'."

Protective Policy Needed.
Mr. Hughes said it was plain that we must have protection, up-building policies. Other measures, too, should be applied, he said, notably the upbuilding of a merchant marine.

Hall Crowded to Capacity.
The large audience which crowded Carnegie hall to capacity cheered for several minutes when Mr. Hughes appeared shortly after 8 o'clock.

The nominee recognized Theodore Roosevelt in one of the boxes, waved to him and Mr. Roosevelt clapped his hands in acknowledgment.

Senator Harding, of Ohio, chairman of the notification committee, was cheered at every reference to the name of the nominee and a republican victory in November.

When he had finished the band played and the crowd arose and cheered again.

Mr. Hughes was frequently interrupted by laughter and applause.

After delivering his speech, he was host at a reception to the notification committee and the invited guests to the notification ceremony.

NEWS TRAVELS VERY SLOWLY

When does news become a matter of history? is a question which might well be asked one of the news sleuths of the local democratic organ. Yesterday while on his rounds for news he spied upon the desk of the sheriff of the county a telegram to the effect that a certain gentleman, by the supposed name of Charles Stewart, who is in Hornbrook, Calif., had passed worthless checks to the amount of \$400 and had thus far eluded all the efforts of the officers to capture him.

The sheriff and his deputies happened to be absent and all further source of information was lacking—but of what news was detail? The source of inspiration was present and the remainder of the story could be easily supplied by deduction. The criminal must be headed this way or a telegram would not have been sent to Roseburg. If such was the case the sheriff must be looking for him. Neither that high officer nor his

deputies were present, so they must be searching the trains. There was the story, with the exception of the glaring headlines which completed its makeup on its appearance.

One thing however was overlooked. The reporter in his excitement had failed to observe the date line. The message was sent from Hornbrook two months ago and was left by the sheriff at his home until yesterday when he brought it to the office to be placed on file.

RUSSIAN ADVANCE SLOW BUT STEADY

Czar's Forces Move With Startling Rapidity—Turks and Austrians Unable To Check Them.

LONDON, Aug. 1.—A wireless message from Rome made the assertion that the Germans are withdrawing their heavy artillery and munitions of war from the city of Kovel before the steady Russian advance. They have already evacuated the villages of Vladimir and Vilhynskoy.

General Haig reported that the situation was unchanged on the west front. German attacks north of Balentin La Petit were repulsed by the British forces. A dispatch from Paris stated that two surprise attacks made by the Germans were repulsed near Lihous.

Russian Bear Pursues Turk.

PETROGRAD, Aug. 1.—It is announced that the Russian forces are continuing in hot pursuit of the Turkish forces in the direction of the city of Mossul. Despite the flooded marshes and the barbed wire entanglements the Russians are steadily advancing across the Stockhod river north of Kovel. Strong positions of the Teutons are succumbing to the Russians nearly every day. The enveloping movement of the Russians is developing rapidly. The latest dispatches indicated that the Dniester river has subsided considerably which enables the troops under General Lelchitsky to advance more rapidly.

German Line is Dented.

The Russian troops charged through water which was waist deep and drove the German troops from Dneister to Korpietz. Heavy counter attacks made in the Kovel-Lutsk district were repulsed. One thousand Austrians are said to have been taken prisoners during the past few days. The German line has been dented in the Velicki district.

died instantly.

Reports of the accident do not place the blame entirely upon O'Connell, who it is said, had not intended the results that ensued from a blow aimed at Otto. According to the story of fellow employes, the pair had been exchanging words over a money matter, when O'Connell struck at Otto. It was not determined that the blow actually sent Otto into the vat of glue since he may have lost his balance and fallen in by attempting to dodge.

Bewildered by the accident, O'Connell ran and summoned other employes who succeeded after 15 minutes of effort in rescuing the body of Otto from the vat.

The flesh had been cooked from the bones by the immersion, the temperature of glue being estimated at 180 degrees. O'Connell was taken into custody last night by Sheriff Hurlburt.

Otto was a man of about 45, and has a wife and two children living in Kenton.

DOUGLAS CO. SCHOOLS WILL GET MONEY

Eleven Thousand Dollars Will be Received From Fund.

WILL BE DISTRIBUTED BY COUNTY SUPT.

Money is Apportioned From Interest Collected From the Irredeemable School Fund Raised By Sale of Land.

Over \$11,000 is the amount which Douglas county will realize this year from the interest on the irredeemable school fund which is now being apportioned by State Treasurer Kay, according to work received this afternoon from the treasurer's office at Salem. Other counties to which the apportionment has been made are Coos County, \$12,000; Linn, \$14,000; Benton, \$7,300; Clatsop, \$9,400; Union, \$9,400.

This money is the interest which has accumulated during the past 12 months from the amount invested by the state land board, the money first being raised from the sale of school lands. The money is apportioned each year by the state treasurer and is sent to the county school superintendents of the various counties for distribution among the different districts under his charge.

The distribution in both the state and county is made according to the census of the pupils in the schools. The state census this year showed a total of about 208,000 school children in Oregon, while the county census is in the neighborhood of 7,000.

As soon as he receives the money from the state, County School Superintendent O. C. Brown will immediately begin the task of apportioning it among the various districts of Douglas county. District No. 4, which is the largest, will receive between \$2,500 and \$3,000 as its share, while the others will be given amounts varying in proportion to the pupils in attendance at their schools.

There has been a great increase this year in the number of pupils in both the state and county the state showing a gain of nearly 3,000 while the gain in the county has been proportionately great.

GRAND STREET PARADE IS PLANNED

Hosts Have Arranged Many Pleasant Side Trips for the Entertainment of Their Guests.

PORTLAND, Aug. 1.—Delegates to the supreme lodge and temple of the Knights of Pythias were welcomed to Portland today by Governor James R. Withycombe and Mayor R. R. Albee. Their addresses were responded to by Brig. S. Young, supreme chancellor, and Cora M. Davis, supreme chief.

After these ceremonies at the Masonic temple here, the supreme lodge opened its session in the temple, while the supreme lodge of the Pythian Sisters opened their proceedings at the Elys temple, and the grand lodge, Knights of Pythias, started proceedings at the K. of P. temple.

All the first meetings were brief, knights and sisters adjourning as soon as possible to prepare for the grand street parade, starting at two p. m. In this procession, scores of delegates, including the picturesque attired members of the Dramatic Order, Knights of Khorrassan, from every big city of the United States, passed in review. The city was resplendent with Pythian colors and banners. Passing the reviewing stand, the uniformed orders halted a moment to execute intricate drill maneuvers with the snap and precision of trained troops.

After the parade the delegates attended banquets and went on short pleasure jaunts until 8 p. m., when Hon. Walter B. Ritchie, past supreme chancellor, was scheduled to deliver an address at the Baker theatre on "The Pythian Lesson of Friendship."

Following a short session of all lodges in their headquarters tomorrow morning, a number of pleasure trips are on the program.
