# Carborundum

The most wonderful of sharpening agents. Next hardest to the diamond, it sharpens by cutting and not rubbing an edge on. Made possible by the great electrical power of Niagara. Such simple ingredients as sand, coke, salt, sawdust, subjected to a heat of 7000 degrees, forms the crystals.

We have in stock a good variety of wheels, grinders, stones, powder, cloth and valve grinding compound.

Take a good stone with you on that camping trip. It will come in useful many times.

Then in the kitchen you should have one of the special kitchen stones. It is a great deal better than the stove pipe or edge of the stove to sharpen with.

Call and examine our stock, you will be sure to find something that you can not only use, but that you need.

Call and sharpen your pocket knife on our counter stone and see if it does not do the work.

### CITY COUNCIL HOLDS SESSION

(Continued from page 1.)

confined to the yards and which damaged her lawn and garden by scratching up the grass and flowers. The council took no action.

Councilman Hamilton stated that he had investigated the charges made by the water and light company for water used for the purpose of sprinkling the streets and had found that the charge was almost double what it should have been. He said that he had taken the matter up with Manager Gall, who had made a refund of the amount for the last month.

The committee on electric lights reported \$5 returns for permits issued.

The committee which had been appointed to inquire into the advisability of rounding off the corner of Orcutt and South Jackson street by cutting part of the property of H. J. Dean, reported adversely and recommended that Mr. Dean be ordered to construct his sidewalk to the original length.

#### Will Build Sidewalks.

A very heated argument occurred in regard to the sidewalks which the council will order in. The street committee reported that the side walks on the south end of Jackson street, East Lane street, East from Chadwick street, all walks on the east side of Fullerton street south of the Rhoades block, and the south end of Mill street were in bad condition and should be repaired at once. It was held that the property owners had been put to heavy expense this year on account of taxes and improvements and should not be forced to build new sidewalks unless absolutely necessary.

It was finally decided that walks would be ordered built on the west side of South Jackson street, on the east side of Fullerton street and from the end of the pavement on Mill street to the city limits.

#### Will Buy Traffic Signs.

A report was read from the committee appointed to investigate the cost of traffic signs such as have been in use at the corner of Cass and Jackson streets. The committee reported that they did not believe it advisable to purchase the signs at this time, but as the records show that the signs were ordered it was deemed advisable by the other members of the council to make the purchase at once. Six signs will be bought and placed at the intersections on the main streets.

#### Will Equip Fire Hall.

A report was read from the fire chief and commissioners recommending that the council instruct the city engineer to prepare plans and specifications for the improvement of the fire hall so that five or six sleeping rooms, bath rooms and sliding pole could be installed providing a place where the fire boys could stay at nights and be near the apparatus. The report was adopted.

The reports of the electrical inspector and street superintendent were read and adopted.

Al Creason stated that he had heard a number of complaints in regard to the camping grounds and it was ordered that the street cleaning department be instructed to keep the grounds clean.

A bill for \$5.00 for the traffic sign now in use was laid on the table until next meeting.

Three bids were received for the sewer bonds, series Q, which were issued the first of August, by the city. The bids of the First State & Savings Bank and of A. B. Bailey were for par and accrued interest while the Roseburg National Bank offered \$1 premium and was given the bonds. The bonds run ten years and are optional after the first year.

The recorder, treasurer and city attorney were granted vacations of one week each.

### NEWS EDITOR INJURED AT CRATER

Struck by Bounding Rock as Party Began Ascent of Train.

The only accident which marred the pleasure of the meeting of the Oregon state editors which met at Medford, occurred on last Sunday afternoon while the party was at Crater lake.

M. J. Shoemaker, editor of The News, and Mr. W. H. Gore, of Medford, had made the trip to the water's edge of Crater lake, a distance of nearly a mile by way of the trail. Shortly after the return trip was started three good-sized boulders were either dislodged by their own weight or were started by some one in a thoughtless manner to see them jump. One of these stones, which had gained terrific impetus, struck Mr. Shoemaker on the left leg about midway of the knee and ankle, making a gash about four inches long. It became necessary for Mr.

### ISN'T THIS TRUE?

If you had the value of your residence and other buildings in cash, you would take extreme care that you did not lose it. You would not rest until you had it deposited in a safe place. And yet, perhaps your home, the accumulation of years of saving is not secure from loss by fire. Did you ever think of it in that light before? Old-line fire insurance is the same protector of your home that the bank vault is to your money. We write policies that give you the protection you need. Call and talk it over with us.

## Waldemar Vest Chains

The Waldemar is the most popular watch chain worn today. Its lightness gives it preference over the heavier chain and the neat appearance of the smaller links is attractive. This chain is made in several different patterns, and may be worn as a vest chain or a lapel coat chain. A knife, pocket comb or cigar cutter may be attached to one end of the chain. Our assortment includes the well known Simmons quality, gold filled and the solid gold. When you purchase a chain, get a Waldemar. We are always pleased to show them.

Gore to assist his companion to the top of the trail and the trip required an hour and a quarter. Medical aid was procured at the hotel and six stitches were required to close the wound. Aside from a slight stiffness which will handicap the editor in walking for a few days no other trouble is anticipated.

As they have been engaged for the Hughes welcome and the Southern Oregon wholesalers day the Roseburg Concert band is planning to hold several extra rehearsals. They will meet tonight for their regular rehearsal and an effort is being made to have all members present.

A force of about fifteen men passed through this city today on their way to Glendale where they will spend several weeks cutting wood. They are from Portland and are making the trip in a large auto truck. They are being sent by a company which holds large interests in the Glendale vicinity.
