- For Co. School Supt.....O. C. Brown
- For Coroner.....Dr. C. B. Wade
- For Justice of Peace.....C. F. Hopkins
- For Constable.....H. B. Church

**THE STATE FAIR.**

The Oregon State Fair opens next Monday. This is a project in which the entire state is interested. Every effort is being made by the management to bring together the splendid and magnificent resources of our state. It is a very essential and helpful conference—one in which all our citizens are interested. State fairs where properly conducted has always proved of inestimable value to the commercial, as well as the farming and producing people of our state. Here are exhibited at first hand the very best in modern methods and equipment that are so essential for success in this age of rapid and swift development that no one interested in this development of our wonderful resources can afford to miss.

A few days can be profitably spent at these gatherings, where the progress of success and thrift is so splendidly displayed and the methods of their attainment are carefully explained and exemplified and all should avail themselves of the opportunity of seeing and gaining valuable information that is given so gratuitously by those interested. It is a fair by the people and for the people. Its good has been many fold and its benefits hardly appreciated except by those who annually avail themselves of the opportunity of investigating and learning the newer and better methods of commercial and agricultural pursuits.

One can hardly realize that there are still some thickly populated parts of this country which have never been reached by a real live circus with all its attending joys and pleasures, but it seems to be a fact that such a state of affairs has existed over at Coos Bay, and there were gray headed men there who have never seen an elephant in all his titanic majesty, or gazed with delight and wonder on the cages of festive monkeys. But by the advent of the railway the means of transportation is opened and the citizens of Marshfield, North Bend and Gardner will now have the opportunity of doing what we more fortunate ones have been doing for years, buy peanuts for the elephant, and laugh at the moss covered jokes of the painted clowns. Thus does civilization encroach on the wilderness through the medium of the railways.

The further east one goes, the harder it is for an honest republican to get a soft snap and lay up some money for the proverbial rainy day.

Out here in Oregon, yes even here in Roseburg, it has been intimated that some even money has been wagered on the results of the presidential election, but the dispatches from New York today state that Hughes backers must offer odds of two to one to get takers. This should be a pretty good indication of the way the political wind is blowing.

**GERMAN AIRMAN WINGS TWENTY-TWO PLANES OF ALLIES**

Captain Beelke.

Captain Beelke, best of the kaiser's flyers, has just achieved the honor of bringing down his twenty-second aeroplane. During his battles in the air, the captain has had five machines smashed under him. One feature of his flights is that he always goes up alone, acting as pilot of the machine and also operating the mounted guns.

**DEATH OF FORMER RESIDENT.**

Word has been received here of the death of R. G. Round, in Los Angeles, on the 15th of September. Mr. Round was at one time car inspector at this division and left the employ of the company at the time of the strike some years ago. He had many friends and acquaintances in this city, who will be sorry to hear of his death. Mr. Round was a member of the Maccabees while here, and still kept his membership carrying a \$3,000 life insurance, the papers for which were made out today and forwarded to headquarters, and the money will be forthcoming in a few days. He is survived by a widow and several children.

**NEW POLK CO. BRIDGE FALLS**

DALLAS, Sept. 21.—The first street bridge in Independence, a concrete structure, just being completed by Tobin & Stevens, contractors, for Polk county, collapsed yesterday when the braces were removed. One workman was showered with pieces of concrete but suffered only slight bruises.

The collapse as caused by failure of the concrete to drop to the bottom of the forms, leaving spaces at the bottom weak. The county has already paid about \$12,000 to the contractors for the bridge and still the bridge costing \$63,000. The sum of \$7,000 is yet due from the county. The bridge is a complete loss, it is believed.

**A New Riding Habit.**

Kathryn Williams, Morocco-Pallas Star in Paramount Pictures.

Kathryn Williams, who designs all of her own clothing, has decided that this season's riding habit shall be made of black broadcloth, cut distinctly masculine.

**HUGHES WINS IN STRAW VOTE**

Republican Candidate is Given 46 Votes Against 18 for Wilson.

After making a small wager on the outcome, W. H. Fisher and E. L. Parrott last night took a straw vote of the members of the party on board the special train which went from this city to Riddle where a dance was held. The vote was in regard to the preference for presidential candidates and needless to say Mr. Fisher, who is a strong Wilson supporter, is today minus 59 cents. Although it is alleged by staunch republicans who were on the train, that R. R. Turner stuffed the ballot box with Wilson votes, Charles E. Hughes, the republican candidate won by a total of 46 to 18 and still had another vote which could have been added, as Mrs. Agos was busy selling peanuts and did not have an opportunity to mark her ballot.

Contrary to the expectations of the takers of the vote the women were the strongest supporters of Hughes and showed their true republican spirit by openly declaring their cause. The vote created no little amusement and while it was in progress many unique and comical bets were made which in their carrying out furnished a great deal of fun for the other members of the party.

**MORE CHICAGO BANKS CLOSE**

CHICAGO, Sept. 21.—The three private banks of W. H. Paisley & Son were closed yesterday. They are the North Shore Savings, the Summerdale Savings and the Broadway and Grace Street bank.

These make seven banks, privately owned, that have closed their doors in this city during the past fortnight.

Police reserves were called out to prevent rioting.

Depositors were given their money, but this failed to allay the panicky situation. It is believed that the banks are solvent.

**OREGON INDUSTRIAL REVIEW.**

Marshfield—S. P. Co. awards contract for 10 depots on the new line. North jetty at Siuslaw completed and work starts on south jetty.

Portland—Copenhagen ship owners have spent more than \$1,000,000 here building new vessels since May 1, and contemplate expending further large sums.

Baker—Oregon Lumber Co. will rebuild at once mill destroyed by fire.

Albany—Linn county has two busy growing cheese factories, one in this city and one at Crabtree.

And now 22 western railroad receive a demand from machinists, sheet metal workers and blacksmiths for an eight-hour day and a five cent an hour increase in pay.

Marshfield—The Gray logging camp on South Coos river will be in operation soon, employing 55 men.

Portland—Portland Cordage Co. receives order for 5 carloads of rope for Panama Canal. This company has previously sent several million pounds of rope to the same place.

St. Helens—Shipyard here adds sixth set of ways to plant.

Broadman—New town in eastern Oregon opened its first school.

**BEST SECTIONS OF COUNTY ARE HID**

(Continued from page 1.)

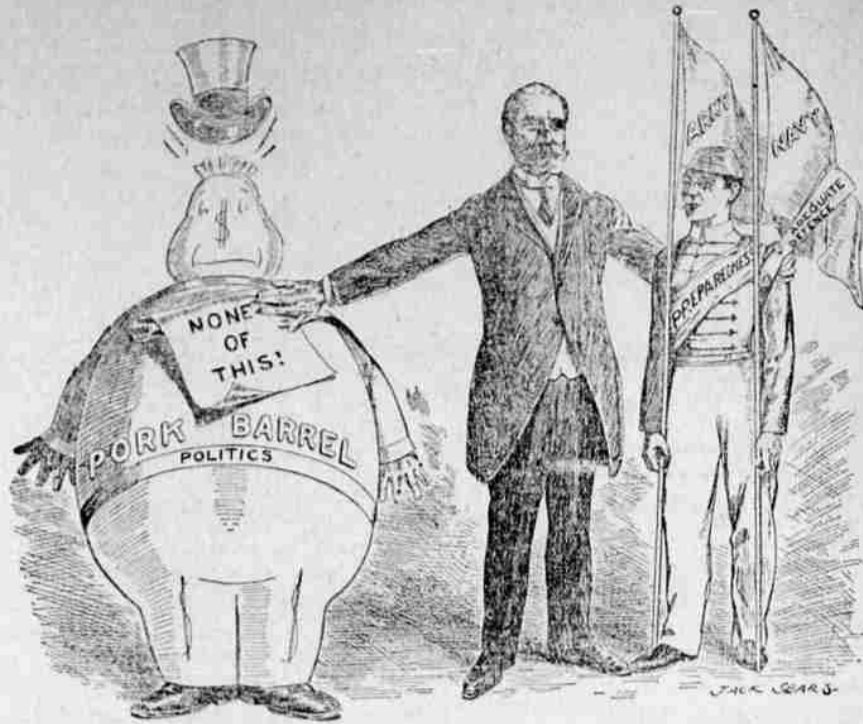

Standing on the outside of the fence Mr. Calkins began calling "Maudie," "Queenie," "Jennie" and other pet names, and as each was called there came grunting and lumbering out of their respective enclosures a prize winner Red Duroc, some of them with litters of cunning little red bodied sucklings each one worth as much as an average 200-pound common porker.

Probably the writer did not get all the names just right, but each one had a name that was recognized as belonging to herself.

It is the homes and farms like this that can not be seen by the tourist along the Pacific highway, and of which there are hundreds scattered over the county, that are the real backbone of this section of the country, and when the countless scores of other places equally as fertile as this section is settled by actual workers, no other part of the nation will excel this state in real agricultural prosperity.

**SPIRELLA CORSETS**

Measurement taken. Corsets made to order. Also Slip on Banders for those who have been operated on. HELLIE CASE, Corsetiere, 4011 Sisters Bldg. Phone 320-J.

"We demand adequate national defence; adequate protection on both our western and eastern coasts."—CHARLES E. HUGHES.

**DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING**

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the-time, feeling nervous, despondent, worried; some days headache, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-checked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing sweetening and freshening effect upon the system.
