

**HATTER'S PLUSH USED IN POIRET MODEL**

The Brusloff gown.

Paul Poiret, the famous French designer, has used hatter's plush to good advantage in fashioning the Brusloff gown. The skirt of hatter's plush is really one of the most extreme that has come from this fashion creator this season. It exploits the irregular skirt, which, however graceful its lines may be, is not a thing of beauty. The flounce of the skirt is exceedingly full and is fastened over the irregularly draped yoke by means of double stitched cartridge plaits, the line of the hem approximating in its irregularity that of the yoke. The coat of green broadcloth is cut with a fitted skirt and has a fancy fastening at the waist line. The hat of brown velvet has a touch of green in the ribbon banding which encircles the straight crown and also in the tiny row of velvet balls suspended from the rim of the brim. A fancy ruff of the ribbon finishes the hat at the side front.

**QUIT MEAT WHEN KIDNEYS BOTHER**

Take a glass of Salts before breakfast if your back hurts or bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Ouch ! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain. He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

To look for the first time upon a train other than a miniature logging train, was the experience last night of Sam Wilson, of Crescent City, says the Rogue River Courier. Mr. Wilson has lived all his life in Crescent City, never having a chance to get near a railroad, and he is now well along in years. While coming over in the stage, yesterday, he confided to another passenger that, as this was his first opportunity, he intended to have a good time. He can neither read nor write, so one of the occupants of the stage bought a ticket to Toledo, Ore., for him. The train was marked up two hours late, but Mr. Wilson could not be induced to get any supper for fear that the train might leave while he was away.
