

In Club and Society Circles

BY MISS VERA BUICK.

Calls! This word holds much in the activities of this week. Indeed it seems that all the ladies have at one time decided to grasp the opportunity of the glorious clear days of the first of the week and return the calls of the year. Everyone seems bent on calling and the week has passed by with only a few dinner parties and the usual club meetings to detract from the new avocation.

This week is marked by the organization of another dancing club which will enliven the evenings of the members for the coming months, and last but far from the least, comes the organizing of the new Civic club that will aim to make Roseburg a city beautiful.

Whispers of something interesting for the devotee of Terpsichore were heard this week that might eventually lead to a happy event in the near future.

Mental Culture Club.

On Tuesday afternoon the Mental Culture Club met in the old club rooms of the Commercial club and after the usual business routine and the Current Events, led by Mrs. Hoover and Mrs. Falbe one of the most delightful of the programs for the year was given. Mrs. Washington Hughes, Mrs. Smlek and Miss Anna Bryan all adding in making it a pleasurable afternoon. The enchanting legends of the Indian people of Oregon and California were the ones chosen for the day and the pretty nature stories of the birds and the animals of the forest made the hour fly by. Mrs. Hughes read Joaquin Miller's Legend of the Creation of Mt. Shasta, how the Great Spirit came to earth and created the great mountain, of the creation of the bear people and of the Indians. Mrs. Virkie Batoy Skillman, sister of Mrs. Hughes, wrote the legend of the Modoc Indians and this was read, as well as several other short tales of the red-skins by Mrs. Hughes. Mrs. Smlek told the story of the Wasco Indians, written by Mrs. Millican, who was a visitor in this city and an ardent friend of the Indian people. The pretty little legend of the Clackamas tribes was given by Miss Anna Bryan and was the Legend of the Frog and the Will-o-the-Wisp.

Still other delightful programs are to come. For next week a Shakespeare program will be given, and on Tuesday, January 23, Mrs. Marsters' home will be opened for Scholarship Loan Fund Day. Already we have something of the program for this occasion which is as follows: Piano selection.

Readings by Miss Viola Willett.
(a) The Dago American.
(b) Mia Carlotta.

Vocal Selections.
Readings by Miss Willett
(a) New Years Eve.
(b) Comfort.

(c) Only a Man, musical reading.
Ukelele duet—Misses Anna and Mabel Bryan.

Readings by Miss Willett
(a) At the Fresh Air Camp.
(b) Scene from the Lost Paradise.
As this is one of the red letter days for the club very special plans are being arranged to make it a great success this year.

To bid Miss Marie Martens farewell a number of friends were invited by Miss Irma Martens to spend Friday evening at their home. The whole evening was very merrily spent by the group of young ladies. The special stunt for the evening was a trip to New York. Everything in the way of travelling accessories was given the travelers and after securing tickets, attending to

the necessary checking of baggage, etc., the journey began and brought them home again after "doing" New York City. In a fortnight the club will be entertained by Mrs. Washington Hughes.

The departure of Mr. and Mrs. S. S. Josephson and small son, Max, who left this week will leave a vacancy in the social circles of the city. Their many friends regret that they are leaving Roseburg but wish them the best of luck in their new home.

DODGE BROTHERS MOTOR CAR

You must have noticed what ardent enthusiasts its owners are.

This does not happen here and there—it is a universal condition.

People believe in the car, admire it, and say so, frankly.

Owners will tell you that gasoline oil, and tires are the only expense.

This is not merely an advertising expression. It is a fact.

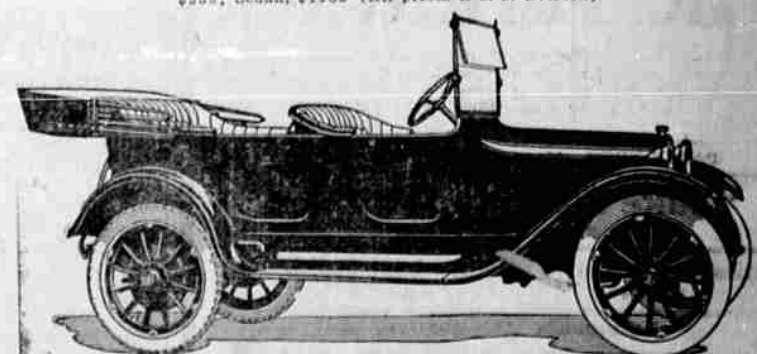

The parts rarely have to be renewed.

The car was fundamentally right from the first and it has simply been passing ever since through a period of progressive—and probably endless evolution.

It will pay you to visit us and examine this car.

The gasoline consumption is unusually low.
The tire mileage is unusually high.
