

TO BROCCOLI GROWERS!

We Want Your Broccoli!

Supplying 34 wholesale houses we must have a large quantity of Broccoli, therefore we offer:

75c cash advanced per crate, on No. 1 goods,
50c cash advanced per crate, on No. 2 goods,
and all over received on sale of goods, less transportation charges, and 15 per cent out commission, promptly remitted to you.

"A bird in the hand is worth two in the bush."
You have the Broccoli, we have the money. See us.

ROSEBURG FRUIT COMPANY

A. F. FINGER, Manager

Announcement

We feel confident that you will agree with our action after you have carefully considered our explanation.

The weight of the present 5-cent loaf has necessarily been cut down until the quality of the loaf is lost. We cannot make a lasting, good tasting loaf of bread from so little dough and we cannot increase the weight enough, because the cost of flour and other ingredients will not permit a living profit.

We feel that our reputation will not permit us to put upon the market a loaf of bread that is not up to our standard. It is not our intention to give you a 5-cent loaf and charge you a dime for it. We are going to give you a much better quality in a ten-cent loaf than you are now getting in two 5-cent loaves.

Effective April 1st

By eliminating the labor of baking the small loaves, we shall be able to spend more time on the larger loaf, and will expect to improve the quality.

TIMELY HINTS FOR THE HOME GARDENER.

WASHINGTON, D. C., March 21.—Onions, like potatoes, are a staple crop that is grown commercially on a very extensive scale. The home gardener, however, may like to have a few early homegrown onions for his table, or, if space permits, he may wish to grow enough of later varieties to last his family through the winter. The onion will thrive under a wide range of climates and soil conditions, but a rich sandy loam containing plenty of humus is best suited to it. As the crop requires shallow cultivation and it may be necessary to resort to hand work in order to keep it free from weeds, it is very desirable that the land should be in such condition that it is easily worked. As a general rule, it is well to have the crop follow some other one that has been kept under the hoe and free from weeds the previous season.

In the north, seed is sown as early in the spring as the soil can be brought to the proper condition. There are three methods of propagating onions: the first, by sowing the seed in rows where the crop is to grow; second, by sowing the seed in specially prepared beds and transplanting the seedlings to the open ground; and third, by planting sets which have been kept through the winter.

Onions planted from sets will ripen earlier than those from seed sown in the fields. When the transplanting method is used, the seed is sown in greenhouses, hotbeds, cold frames, or specially prepared beds at the rate of 3 1/2 to 4 pounds for each acre to be planted. The seedlings are transplanted when they are somewhat smaller than a lead pencil and rather stocky. The root end of the seedling is pushed into the soil with one finger and the soil is then firmed about the plant.

The seed is sown thickly in drills about 12 to 14 inches apart. After the plants become established, they are thinned to 2 or 3 inches apart. The maturity of the bulbs may be hastened by preventing the continued growth of the tops. This is sometimes accomplished by rolling an empty barrel over the rows and breaking down the tops. After these are practically dead, the onion bulbs may be pulled up by hand from the soil and spread in a dry, well-ventilated place to cure.

INTERNED VESSELS WATCHED.

SAN DIEGO, Cal., March 20.—Indications are that Japanese and British patrol vessels in the Pacific are taking every precaution to prevent the escape of the fleet of German steamers and sailing vessels interned at Santa Rosalia, Lower California.

Reports that these vessels were ready at any moment to take to sea, should America become involved in war with Germany, have reached British and French consular representatives and had been transmitted to the representatives of this country.

As the ships are in Mexican waters the United States has no jurisdiction over them, but should steamers of the ore-carrying fleet make sea and be captured by allied warships lurking in wait, they will prove valuable prizes.

There are 11 German vessels in the harbor at Santa Rosalia, with crews aggregating about 400 men. A number of these sailors have managed to desert and have made their way into this country on coasting steamers.

GLIDE GLIDINGS.

John Alexander went to Roseburg on business last Friday.

Rev. W. H. Eaton preached at Glide Sunday and a basket dinner was given. There was also a baptismal service.

V. J. Daniels had the misfortune of cutting his foot while chopping wood.

There is to be preaching at Glide next Sunday and everybody is invited to attend.

The Glide Rifle Association is waiting the arrival of their guns. They should arrive some time next week.

Glide has a new stenographer now as E. T. Shrum will receive a new Oliver typewriter this week.

The regular meeting of the Glide Grange will be held Saturday night of this week.

The cattlemen's friend, the buzzard, is returning for his summer outing.

verage precipitation for 39 wet seasons, (sept. to May inclusive) 32.12

WILLIAM BELL,

THURSDAY AND FRI DAY AT THE MAJESTIC

FARM LOAN BOARD RATES.

WASHINGTON, March 20.—The federal farm loan board adopted a resolution fixing a rate of 4 1/2 per cent to be paid on farm loan bonds to be issued as a means of raising money to lend to farmers. At the same time the board fixed a rate of 5 per cent to be paid by farmers on farm mortgages for the use of funds. The difference of one-half of one per cent is to be used to pay the expenses of operating the system. The board hopes ultimately to bring this margin down to one-eighth of one per cent.

A Well Known Woman Speaks.

In Every Town in Oregon Neighbors Say the Same.

Portland, Oregon.—"I have used Dr. Pierce's Favorite Prescription for my nerves and a general break-down and after using only three bottles I was completely cured. I also used Doctor Pierce's Golden Medical Discovery for the blood and it proved very beneficial."

"I can heartily recommend Doctor Pierce's medicines."—Mrs. J. B. HAZEN, 645 Deann Ave.

The mighty restorative power of Dr. Pierce's Favorite Prescription speedily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

It is a wonderful prescription, prepared only from nature's roots and herbs, with no alcohol to falsely stimulate and no narcotics to weaken the nerves. It banishes pain, headaches, dragging-down sensation, worry and sleeplessness surely and without loss of time.

Why should any woman continue to worry, to lead a miserable existence, when certain help is at hand?

What Doctor Pierce's Favorite Prescription has done for thousands it will do for you. It's not a secret remedy for its ingredients are printed on wrapper. Get it this very day from any medicine dealer in either liquid or tablet form.
