INTERESTING LETTER RECEIVED TODAY

The local postoffice this moraing received a letter for Lieutenant-Commander J. H. Blackburn, in charge of the recruiting of the Linited States navy at Portland, telling of the splendid work that Oregon is doing in meeting the demand for its share of seamen. He states that by today Oregon will have recruited its allutment and will probably use the first state to enroll its quota.

The letter is interesting and parts of it are published as written.

"We are receiving spl-mid young men for the may, from the cities and towns of Oregon, and the may department has its eyes on Oregon, particularly at this time, because the state is responding so splendidly to the president's appeal for qualified young men. It is believed that on Pridsy night, April 20, Oregon will have been the only state in the unica to farmish its quota for the case-gency complement of the navy.

"However, the needs of the nation seem to point toward a minimum of 150,000 men for our first line of defense, and it is very probable that Oregon will against be called upon to

150,000 men for our first line of defense, and it is very probable that Oregon will against be called upon to furnish at least 1,000 more men to the navy next month. If the first line of defense is quickly and sufficiently strengthened, the unation will have time to train an army of millions, with the probability that that army will never be called upon to expend blood and money in the defense of the nation. Therefore, the urgent need of the navy should be heeded first, and I believe, if the people of the country thoroughly underple of the country thoroughly under-stand, we will get quickly enough young men for the navy and thereby save countless thousands of lives."

THE ROSEBURG SANITARIUM

For years scientists have known that the sun's light was the most potent agent of destruction that could be employed in the war against tuberculosis. Germs exposed to the rays of the sun were instantly killed;

ed to the sun's rays, the application of which causes no discomfiture to

of which causes no discomfiture to the patient.

The cabinets are made of metal, absolutdly sir tight with a "dead air" space between the inner cylin-der and the outside shall, the inner partition is lined with very bright metal and illuminated by scores of incandescent lamps, the light reflect-ed against the arcs of the circle mul-ticilies the power of penetration. ea against the arcs of the circle mu-tiplies the power of penetration many times, the interior of the cab-inet is to bright that it renders the body transparent, tubercular germs can find no place to secrete them-selves from the strong rays of light, are killed, flushed into the utood and carried away by an increased circulation stimulated by the heat. The broken down tissue rebuilds, the facerated parts soon heat, nature reasserts herself and with proper carand nourishment the patient rapidly

recovers.

What this wonderful discovery does for interculosis it can also do for chronic disorders of the kidneys, liver and bladder. Rheumatism in its many malignant forms—succumbed to its seemingly magic power.

My offices, turkish bath, massage and treatment rooms are now located in the Perkins building. Roseburg, and I have leased the Herrington house, West Douglas street, as temporary quarters for my sanitarium.

INDUSTRIAL CLUB WQRK IN THE WILBUR SCHOOL

N. C. Naris, field worker for the N. C. Naris, field worker for the boys and girls industrial fairs for Oregon, talke. to ... Wilbur schools Wednesday afternoon for more than an hour, taking for his subject 'Industrial Clubs.' He stated that in the present crisis of the food situation all luxuries should be eliminated. He also stated that as much money was spent annually in the United States for chewing gum as for educational work. Mr. Maris expressed the opinion that it was just educational work. Mr. Maris ex-pressed the opinion that it was just sa important for the high school student who leaves his studier to take up agricultural work to receive credits as it is for those who join the armsy. County Supt. Brown then spoke for a few minutes, saying that since the president had set an ple of working in his garden instead of playing golf, that every boy and

cease from the date of this notice. Dated this 19th day of April, 1917. ROSCOE N. GREEN, Clerk of School District No. 4, Douglas County, Oregon.

WOMAN FINANCIER AIDS IN SUPPLYING FUNDS

LONDON, April 26.—The largest woman subscriber to the war loan in England is Miss Emily Talbot, of Galwoman subscriber to the war loan in but to apply this wonderful power in a practical way has been the "atambiling block". The extreme light the the X-ray has been used without success, for while it succeeded in dearroying some of the "germs" the intense heat burned the tissue, and thereby furnished "virus" or new food for the remaining "germs" to thrive and multiply upon, really making the second condition worse than the first.

After years of experimenting and a careful study of tuberculesis. I have succeeded in perfecting an apparatus in the form of an electric cabinet that will do all that has been creditived to the sun's rays, the application who is a power of the war loan in the second content.

Woman subscriber to the war loan in England is Miss Emily Talbot, of Galland Subscriber to the war loan in the family Talbot, of Galland Subscriber to the war loan in the family Talbot, of Galland Subscriber to the war loan in the family Talbot, of Galland Subscriber to the war loan in the family Talbot, of Galland Subscriber to the war loan in the family Talbot, of Galland Subscriber to the war loan in the family Talbot, of Galland Subscriber to the war loan in the family Talbot, who is seventy-seven years old, is the daughter of C. R. M. Talbot, who sat in the loves of commons for sixty years and died in 1890 leaving a fortune estimated at 8,000,000 pounds to his daughter. Her land holdings of over 40,00 acres include several thousand acres of valuable coal deposits, and nearly the whole of Port Talbot and the Port Talbot raisway and docks.

Miss Talbot, who sate in the found to find the subscriber to the war loan is seventy-seven years old, is the daughter of C. R. M. Talbot, who sat in the loves of commons for sixty years and died in 1890 leaving a fortune estimated at 8,000,000 pounds to his daughter. Her land holdings of over 40,00 acres include several thousand acres of valuable coal deposits, and nearly the whole of Port Talbot and the Port Talbot raisway and docks.

of the woman, who has been known to go to great lengths to avoid publicity in connection with her philanthropies. Her favorite device to avoid publicity is to contribute a comparatively small sum to a charity in her own name and then add two or three much larger donations anonymously. Thus, her open subscription to the war loan was for 89,000 pounds, although in roundabout ways it has become known that she ways it has become known that she is the holder of about fifty times that

is the holder of about fifty times that amount.

Miss Talbot, despite her age, keeps her hand on her own business affairs and her property greatly increased in value during her twenty-seven years' stewardship. She has a London house on Cavendish square, but spends a considerable part of her time in Wales.
