## DOG SHOW FEATURE OF 1917 CARNIVAL

New Departure For Festival Will Greatly Add to the Entertainment.

### NO ENTRY FEE ASKED

Sheep Herding Contest for Collies—All Standard Breeds to be Exhibited—Good Care For Canines.

The carnival this year is to have a full-fledged bench show. Roseburg and Douglas county have some very fine thorough-bred dogs and on the second and third days of the carnival the dog show in one of the vacant stores on Jackson street will be one of the great attractions. Certificates of registration are not to be required for many of the best dogs in the county, while eligible to register, have not taken certificates.

This is an event in which the dog owners are very much interested. There will be no cash prizes offered but it is the beginning of what may become one of the main events of future carnivals. The best of care and attention will be given the dogs during the two days that they are taking part in the show. Charles A. Brand has agreed to take charge and Dr. R. E. Hunt, the veterinary surgeon, will give his services during the entire time without charge and will see that all sanitary conditions are as they should be.

Dog owners are asked to co-operate with the carnival committee in making this show a success, and especially in seeing that all owners of fine dogs are notified of the event and are urged to take part in it. Notify the committee as soon as possible so that places may be ready for all dogs before the entering day. Directions for the benefit of exhibitors will appear in the papers from day to day. It is thought that no entry fee will be required and that the slight expenses may be met in other ways. What is wanted is a real, live dog show, and Roseburg can have one.

There will be much interest in the hunting dogs, and also in the shepherds. The plan is to have a sheep-herding exhibition as a means of judging the sheep dogs. A flock of sheep will be handled by the dogs in turn, under the direction of their masters. The trout will take place at some easily accessible place in town.

Notice that dogs do not have to be thoroughbred though they should be fine specimens and thorough bred preferred. All standard breeds are to be represented, spaniels, setters, collies, bulldogs, Boston terriers, airdales, Danes, St. Bernards, greyhounds, dachshunds, poodles and as many others as possible. The time for preparation is short and owners are asked to notify the committee of their entries at once to allow all the time possible. Make a success of the carnival dog show. Some of the ladies have asked for a cat show, too, stating that there are a large number of fine Persian and other cats in Roseburg. All who have such cats and would exhibit them are asked to communicate with the committee at once. If there is sufficient interest in this feature it will probably be added to the present plans. Letters may be addressed to The Dog Show, care of the carnival committee, Roseburg.

## ANOTHER ANTI-BOND ISSUE EXPLODED

Opponents Maliciously Allege That Only a Few Counties Will Benefit.

In an attempt to array different counties against the \$6,000,000 road bond bill, opponents of the measure are maliciously alleging that few counties will be able to avail themselves of the bond measure for the reason that the cost of preparing roads for hard-surfacing under the terms of the bond bill will exceed the actual cost of hard-surfacing and, therefore, be greater than those counties can afford.

Meeting this misrepresentation, the State Highway Commission at its recent meeting in Salem reiterated its previously announced policy on this subject. All that will be required of the counties under this policy will be the preparation of grade of the roads to be hard-surfaced. This means that a county will merely need to bring a road to grade and drain it before the state applies the hard-surfacing. The rock base is considered a part of the hard-surfacing and will be built by the state, assures the Highway Commission.

### POLK COUNTY IS FOR GOOD ROADS

"The people of my county are just about ready to adopt the good roads slogan of the Clatsop County enthusiasts—'Make It Unanimous'—so far as the \$6,000,000 road bond bill is concerned," reports C. L. Hawley, a farmer and stockgrower of McCoy, Polk County. "Of course, the voters of my home county are not a unit for the measure, but I find very little opposition to it.

"I think I am safe in saying that under the present system of road construction in this state and considering the amount of money we have expended on them, the roads of Polk County compare favorably with those of any other county in the state. But we are not satisfied. We want more and better roads and believe the proposed bond measure offers a practical plan for inaugurating an era of permanent road construction from which every section of the state will benefit without increasing direct taxes.

"When it comes to a choice between being in mud up to our knees or being in debt up to our knees my people are willing to assume something of a financial obligation if it will insure getting us out of the mire."

Harvey G. Starkweather, of Milwaukie, Clatsop County, for 23 years a member of the Grange and who assisted in drafting the rural credits legislation in this state, has the following to say in approval of the pending \$6,000,000 road bond bill:

"I am not prepared to say whether this bill is as good as the one proposed by the State Grange committee or not, but the question now up to the Oregon voter is upon the bond issue, and speaking from the standpoint of a farmer and Granger since 1894 I feel that the state's interest will be best served by an affirmative vote on the measure next June, and I sincerely hope when the whole question has been carefully studied that the Grangers of the State, including the State Master, will be found on the side of progress, assisting to pull Oregon out of the mud.

"A good road is a thing that will last forever, when properly kept in repair," remarks an exchange. "The next generation has no right to be enjoying an improvement that their fathers sweat to pay cash for. The children of today can use the improved roads in going to school so why shouldn't they help pay for them. Under a bonding system the cost is distributed over a long period of years and is more just than a pay-as-you-go system which means a heavy tax up on the farmers of today if roads are really made good, or it means a continual tinkering with the roads and eventually getting no real improvement."

In an editorial endorsing the good roads bond bill, the Portland Journal said in part: Shall we go on wasting tax money in the filling of mud holes or shall we concentrate our expenditures on the most important roads and when they are made efficient pass on to the next in importance and so on? Shall we continue to spend forty or fifty million dollars during the next ten years without system, as at present, or shall we spend that amount in a business-like way on some definite plan? We can not get away from the fact that we must spend for good roads whether we have them or not.

The state bonding act (good roads) does not mean that an indebtedness will be incurred. It means that the state will use its credit to build a hard surface road in different parts of the state which the revenue from automobile licenses will pay for in years to come. It does not mean an increased taxation. It ought to mean a reduction of taxes for has not the old system of filling up mud holes been an extravagant and useless expenditure of the taxpayers' money.—Silverton Tribune.
