

Where will you find the equal of this car at its price?

Take the item of room. The new Mitchell Jr. Five passenger light six is a car of 130-inch wheel base. This is five inches longer than most other light sixes. This extra wheel base is put into extra leg room in front and rear. It also enables us to make wider seats without disturbing the harmony of appearance.

SIXES

JUNIOR 2 and 5 Passenger

120 inch wheel base; 40 h.p. motor 3 1/2 x 5; 52 inch cantilever springs.

\$1150

Factory

Seven Passenger

127 inch wheel base; 48 h.p. motor 3 1/2 x 5; 52 inch cantilever springs.

\$1460

Factory

Also built in 2 and 3-passenger Roadsters, Sedan Models. This car carries 21 extra features.

Repair Stock carried in Portland by

Mitchell-Lewis & Staver Co.

FINISH FIXED BY HEAT. The Mitchell body is not only a double coat pure steam line lower than questioned beauty but we are adding to its attractiveness by fixing the finish by heat in large ovens constructed for that purpose.

LONG SPRINGS MAKE EASY RIDING. Our long wheel base enables us to give you an extra long cantilever spring, 19 inch in the Mitchell Jr. and 24 inch in the seven-passenger Mitchell.

EXTRA DRIVING COMFORT. The new Mitchell is the acme of easy driving. The gear shifting is accomplished with little effort. The change is made with but a movement of a few inches of the shifting lever. Our steering gear is full worm type and irreversible. Our steering knuckles are carried on ball bearings.

A REMARKABLE POWER PLANT. In the Mitchell we are giving you an economical, efficient power plant. The Mitchell engine is an L head engine with all parts enclosed and running in oil. The electric equipment is two unit type and gear driven.

UNUSUAL EQUIPMENT. Mitchell cars are not only equipped with one-man top, clear view windshield, but they carry reversible hand lamps, power tire pumps and the like. The Mitchell is really completely equipped.

REGARDING PERFORMANCE. This is our high card. If you wish to know how the Mitchell will pull, and how it will pull on high gear, and let us put it through its paces.

J. F. Barker & Company ROSEBURG, OREGON.

OLD TIMER IS VERY ACTIVE AT AGE OF 99

Thomas Russell of Dole Attends Trial Here Yesterday Talks of Experiences.

CHOPS WOOD EVERY DAY

Son Says It Is Impossible to Keep Out of Centenarian's Hands—He Fought in Two Wars and Is Anxious to Go Again.

The members of congress who are wrestling with the age limit of the conscription bill did not look towards Oregon when they set the eligible age at 21 to 30. Douglas county has a resident that is near the centenary age, who is as spry and active as many people who are much younger. His name is Thomas Russell, and he was in this city yesterday from Dole, his present home, to testify in the case of S. E. Tallman vs. the State of Oregon. On the witness stand when questioned by both the attorneys for the state and defense, he testified that on February 21 next he would be of the age of 100 years. As he made this statement a ripple of surprise swept through the spectators and many of them who had judged him to be much younger sat up in their seats to get a better view of this aged resident. He seemed to be the star witness for the defense and stated on examination that his hearing was perfect, although his eyesight was very poor. His story was told in a very straightforward manner and it was very easy for him to comprehend the legal terms used by the attorneys who examined him.

He was accompanied to this city by his son, Ed. Russell, who keeps his father at his home in Dole. Mr. Russell stated when interviewed by a News representative that his father is very active and allows no one to assist him in anything. "I can't keep an ax out of his hands," said the centenary's son. "He is continually in the yard chopping wood and the first thing that is done in the morning is to chop enough wood to keep the fires going throughout the day. He is usually at the chopping block the greater part of the day and takes short rests at intervals. Yes, he is sure active and never complains about being under the weather."

Thomas Russell, when approached by a News reporter, told the story of his life in a very brief and concise manner, omitting details that were of no interest to anyone and relating nothing but the interesting facts. He stated that he was born in Jackson county, Missouri, and moved to this country, Oregon, in 1877, going at that time to Myrtle Creek, where he resided for a number of years. He later moved to the vicinity of Dole. He stayed there for some time and then removed to Medford where he visited, returning to Dole about seven months ago. When asked if he had a wife living, he stated that his wife died four years ago and at the time of her death was exactly four years younger than him. To their union 17 children were born, 9 of whom are living at the present time. He fought through two wars, the Mexican and the Civil, and yesterday he told of a number of incidents of an exciting nature that were connected with his fighting days. He is well versed with the conditions of the present war and stated that it was his earnest desire to again serve his country. He is a very interesting talker and is very proud to have attained the age of 99 years. He returned to his home last evening, saying, "I ought to have stayed home today and chopped up some wood. Well, I'll have to work a little harder tomorrow to make up for the day I've lost."

NOTICE OF ANNUAL MEETING.

The annual meeting of the stockholders of the Umpqua Valley Fruit Union will be held in Roseburg, Oregon, on Saturday, May 19, at 2 p. m., at which time a resolution will be offered to amend the by-laws to increase the number of directors from seven to nine, and a report of the year's business will be submitted. Other important business will be transacted and a full attendance of all fruit growers is requested. UMPQUA VALLEY FRUIT UNION, 178-n18 By S. D. Cooley, Sec.

BOY SCOUTS ARE HELPING FOOD SUPPLY

NEW YORK, May 11.—The response of American boys to the plea by the national council of the Boy Scouts of America that "every scout feed a soldier" has been so widespread that today thousands of acres of land where flowers or no vegetation at all grew are under cultivation to produce food. Reports received at the organization's national headquarters here, it is made of Olympic Spores which is almost identical with the Spore of the Tyrol Alps used in Italian violin making. Hence the rich, pure, ringing tone for which Cable-Nelson is famous. The price is right, too. The only pianos that can be bought at a saving without a corresponding sacrifice of service. Come in and try a

approval from Herbert C. Hoover, head of the nation's food board, Theodore Roosevelt and others, the national council today made public letters from Major-General Leonard Wood and Lieutenant-General Robert S. S. Baden-Powell, founder of the Boy Scout movement in Great Britain.

MELROSE ITEMS.

Busy is the word from the farmers at this time. Grain seeding is about finished and some farmers have their corn planted.

Our road supervisor, Virgil Woodruff, has distributed the material for new road culverts at various places along the highway. We are getting in line for permanent roads.

Kenneth Conn has been appointed deputy sheriff for the military registration in this precinct and is posting notices of this call for registration. The date to be announced later.

LeNoir Kruse has returned from an extended absence. We are glad to welcome him back.

Much lumber is being hauled from the Carson saw mill at present, industries of all kinds are on the jump.

We hear stated that the farmers "are reaping a great harvest on account of the exorbitant prices of food products. This is simply a statement made through ignorance. There is not one farmer in one hundred who is receiving exorbitant prices for his grain, potatoes, or other crops of this nature. The farmers practically to a man sold their crops at what they considered a fair price last fall. Now that the bulk of the food products are in the hands of the speculators, prices are boosted out of sight and the farmer is blamed for the high cost of living. As was stated by some of our senators, the remedy is the rightful station to which the speculator in food products should be sent. With the extra acreage to be planted this year, the speculator is in the first ranks to encourage this work, for he is anxious that the greater portion of the crops may fall into his hands. We are certainly glad that Uncle Sam is to be on the job and do the distributing of the food crops himself this year.

A new department in up-to-date housekeeping: Feed the cows the dish rag so that the milk will wash the pans.—C. J. It is "apparently" dangerous to drive an auto on the streets of Melrose after eight o'clock on Sunday evenings. A young man was held up last Sunday evening and forced to deliver the goods for a mile or so. The closing program of the Melrose school will be held at the Grange hall Saturday evening, May 12, beginning at 8 o'clock p. m. Everybody cordially invited.

Melrose will be represented at the strawberry carnival by the Melrose Grange with a float and parade of members. The Melrose school will also compete for the rural school prize. X. Y. Z.
