(By Associated Press.)  
WASHINGTON, June 11.—The agricultural committee today passed a second administration control bill, granting the president broad powers in controlling prices and distribution of food supplies. It is expected that the measure will pass within a fortnight, and it authorizes the limiting, resuming and prohibiting the use of food stuffs for the manufacture of liquor.

large quantities of fine Oregon fir and are receiving all the empty cars they need. The mills are running full blast, and more men could be used at good wages if they could be obtained, it is said.

The large shipbuilders' contracts in Portland and other places on the coast are taking large lumber requirements, and the industry was never better than at this time. The Portland mills are able to supply the contracts in that city.

Prospects for an exceedingly bright future in the lumber and timber business are at hand and holders of timber will no doubt realize a good profit on their investment within the next few years.

Mrs. John L. McClanahan, left this morning for her home at Oakland after visiting at the home of A. J. Wulf for several days.

### BRITISH START DRIVE ALONG 70 MILE LINE

(By Associated Press.)  
ASSOCIATED PRESS WAR LEAD.  
June 11.—Wiping out of German resistance at Messines now appears to have merely been a prelude to the projected battle of far mightier consequence that has been undertaken. British troops have resumed their trench raids from north of a strip to Ebehy, a distance of over 70 miles. Announcement of the raids north of Ypres are interesting in view of the recent artillery fire along the Belgian front. This advance would threaten German submarine bases on the Belgian coast at Ostend and Zeebrugge.

### SAYS SPIES ARE AT WORK

Secretary Daniels Alleges that Secrets Have Been Taken From Confidential Letter Files of Ordnance Bureau.

(By Associated Press.)  
WASHINGTON, June 11.—The liberty loan today enters the last lap in the race to reach the two billion dollar mark by Friday, when the subscriptions end. Two days ago \$709,000,000 remained to be raised, but no doubt that amount has been greatly decreased by today. San Francisco federal district is the farthest of all other sections in reaching its minimum allotment of funds to be raised in meeting this loan. To remind the people thereof the four days remaining in which to subscribe to the loan, bells on all churches, public buildings and schools will ring four times tonight. Tomorrow night they will ring three times, twice on Thursday night.

### Ten More Miners Found

BUTTE, Mont., June 11.—This morning ten more miners were found alive in the 2200-foot level of the Speculator mine, where an explosion occurred Saturday. By quick work in using cement sacks and mine water the entrapped men succeeded in building a bulkhead that not only shut out the deadly gases but so thoroughly sealed them into a living tomb that tools were necessary in the hands of rescuers to break through the obstruction, but the makeshift saved the lives of the men. Martin Garrity, the first man brought up, was in excellent condition, but the second man died shortly after being rescued. The coroner reported 63 bodies recovered so far, and it is believed seventy more are in the mine. A total death list of 135 is expected will result from the accident.

### Spy Divulges Information

WASHINGTON, June 11.—During a conference with the naval affairs ordnance committee today, Secretary Daniels told the members that a spy or traitor was divulging confidential information from the bureau of ordnance for the benefit of the enemy.

This matter was brought out at an investigation into the cause leading up to the death of two Red Cross nurses aboard the armed ship *Marcolla* a few weeks ago by the explosion of a defective shell. On resuming the investigation this afternoon Senator Frelinghuysen produced letters which Secretary Daniels said could only have come from the confidential files of the ordnance bureau. One of the letters was postmarked Detroit.

### Contracts for Ships

WASHINGTON, June 11.—Col. Goethals today let contracts for the construction of 16 wooden ships for trans-Atlantic trade with the allies. Ten of the new fleet will be built by Sanderson and Porter, of New York, the other six going to the Maryland Shipbuilding Company, of Baltimore.

### PLEASE NOTE

Mrs. Anderson, principal of the Roseburg Practical Business College, wishes to announce that she has received a number of inquiries from students of the city schools and others who are interested in our stenographic course, and who have expressed themselves as having decided to take up this work at a later period. For the information of those who contemplate joining the NIGHT class, we wish to advise that on account of the limited amount of time devoted to the NIGHT school, we will only be able to have two classes in stenography until these two are graduated which will require several months.

We accordingly urge those interested to join when school opens.

This announcement, of course, has no connection with the DAY school where students may enroll at any time.

School opens June 18, 1917. 11
