## THE OREGON FARMER

Offers Unusual Opportunity To Its Readers

**A**MONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying, and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with *THE OREGON FARMER* whereby any farmer or fruit-grower, who is one of our regular subscribers and who is not now a subscriber of *THE OREGON FARMER*, will be entitled to receive *THE OREGON FARMER* in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity but send your order in now.

*THE OREGON FARMER* is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.

### BUGGY IS STRUCK BY AUTOMOBILE

The buggy belonging to Carlos Page was badly smashed last night when it was struck by an auto driven by a California tourist. The rig was occupied by Mr. and Mrs. Page, Mr. Page's mother and two small children. Fortunately none of the occupants were injured.

Mr. Page was driving south on Stephens street and was at the corner of Stephens and Flood streets when the accident occurred. The driver of the auto had his attention attracted by a passing motorcycle and struck the front wheel of the buggy, tearing the wheel off and carrying it for a short distance on the fender before the car was stopped. The horse started to run, but

Mr. Page jumped over the dash board and stopped it before it had gone far.

The tourist was very profuse in his apologies and stated that his name was Gardiner and that he was registered at the Umpqua hotel where any bill for damages could be sent. This morning he went to the office of the Page Lumber Co. and made settlement.

### BULLETIN ISSUED FOR RECRUITING WEEK

"Enlist now! Your president calls you! The army wants you! The country needs you! Come on your loyal Americans and let's help force the world that our children may live in peace."

The above bulletin was received yesterday by Recruiting Officer C. G. Hall, as a part of the campaign for recruits which is being waged this week in compliance with the proclamation of the president. It will probably be the last week of recruiting and all those who wish to avoid the draft should enlist now.

### AUTO TOURISTS PASS THROUGH CITY

A. E. Jones, Mrs. A. E. Jones and Miss Darby, who passed through Roseburg yesterday, left New Rochelle, N. Y. June 22, 1916, and since that time they have been touring the United States, having travelled a distance of 20,000 miles. They went first to Chicago and from there took the route of the old Santa Fe trail, stopping in California long enough to see all points of interest in that state. They will go to Seattle from here and on their way back home will go through the Yellowstone park, and by a different route, back to Rochelle, than the one taken when they started out.

They informed a News reporter that they were taking their time, there sole object being to see the country, and that they were surely seeing it. They were travelling in a Studebaker car, which was standing up well under the trip.

### DROUGHTS AFFECT CROPS IN OREGON

(By Associated Press.)  
 PORTLAND, Or., June 27.—Drought conditions continue to affect crops in southern and eastern Oregon, according to the summary of state crop conditions for the week ending June 26, issued here today by the weather bureau. The summary follows:

"The weather of the past week was generally favorable, although showers are now badly needed in localities of southern and eastern counties where the ground is becoming too dry for cultivation and crops on shallow soil are suffering.

"Barley, oats, pastures, meadows and winter wheat are about the average; wheat is heading, clover cutting has begun and the second crop of alfalfa is growing nicely.

"Corn, beans, rye, spring wheat, sugar beets and hops are in fair condition.

"Potatoes and truck crops are still late, but looking well where not affected by drought conditions.

"Fruit prospects, as a rule, are promising; the heavy drop in apples is marked in some districts, but saves considerable labor in thinning. A fair yield of strawberries is being marketed. High winds of the 23rd blew off considerable fruit, particularly peaches, in Josephine county.

"Farm work and vegetation continue backward."
