ISSUED DAILY EXCEPT SUNDAY

Subscription Rates—Daily. Per year, by mail, \$3.00. Per month, \$1.00. Semi-Weekly \$2.00. Six month, \$1.00.

Entered as second-class matter, November 5, 1909, at Roseburg, Ore., under act of March 3, 1879.

FRIDAY, JULY 13, 1917.

DON'T "KNOCK" RUSSIA.

Charles Edward Russell, one of the American envoys to Russia, has made a public appeal for justice to that distracted country. He asks for "a more sympathetic attitude toward the struggling democracy of Russia."

"Every phase of the present situation is a logical and normal outcome of natural causes. The substance is sound and hopeful. If only other democracies will give help wholeheartedly instead of standing by to prophesy destruction."

The advice is timely. And the praise for Russia is richly merited. The great revolution has really been accomplished with amazing self-restraint. The excesses that marked the French revolution have been wholly lacking.

There is much talk, but little violence. The talk is really settling somewhere. The restoration of military discipline and the launching of the revolutionary fighting were hurried, 500,000 people marched in funeral procession without the slightest disorder, through a city absolutely unpoliced.

Senator Lewis, of Illinois is opposed to any kind of a federal investigation of the recent deplorable race riots at East St. Louis. Any procedure of that sort, he avers, would cause the negroes to think the government is behind them.

Through this means I desire to express my sincere gratitude to the chief and the worthy boys of the local fire department, who responded so quickly to the alarm of fire which threatened my home June 23, and whose efficient work saved me from heavy loss.

Report has it that in Germany the cabbage leaf cigar is no longer a dread possibility but a sad reality.

We may need a needless day in the home, but a fool-less day in congress would help even more.

The South Umpqua river claimed two victims yesterday and the bathing season has only practically opened. The recreation enjoyed by many bathers in the waters of the Umpqua is a popular one, but the disastrous accident which occurred almost within a stone's throw of the business center of the city Thursday wherein Johnnie McGee lost his life, will have a tendency among many to check this healthy and invigorating sport.

An exchange comments upon the profound silence maintained by Secretary Tumulty ever since the "hook" scandal, when Tumulty denied a close acquaintance with Barney Baruch, the Wall Street bear who made a fortune out of the break in stocks.

The munitions makers should have been the last, of all others, to dodge a tax, the returns of which would go to the war needs of the government.

Another pleasant probability is that the contemplated British-French operations in Serbia will lead to the finding of King Peter's army.

Let it not be forgotten that already as many Russians have died for their country in this war as have soldiers of any other land.

PROMOTIONS MADE IN FOURTH COMPANY

Pending the call of the 4th company, into active service, a large number of the men are being given examinations for various positions and are being advanced as fast as they are qualified. The returns were received yesterday from the headquarters at Eugene on the recent examination for first and second class gunners, the following being announced as having been successful: First class gunners, First Sergeant James H. Wolford, Corporals Edwin P. Jewett, and Victor J. Mitchell, Private First Class Lester H. Baker and Edgar N. Roser, Privates Edward J. Alken, Allen J. Brown, Charles H. Gurney, Glenn N. Riddle, Avery L. Rosor and Charles V. Stanton. Second class gunners, Private First Class Harry L. Mead, and Private Millard H. Meredith.

Private Edward L. Atkins, Allen J. Brown, Charles V. Stanton, Richard O. Fay, Charles H. Gurney, Raymond L. Lahey, Glenn N. Riddle and Avery L. Roser were promoted to private first class.

Richard Fay was appointed company mechanic and Charles Stanton company clerk.

Dean Neas, formerly a member of the company, has been dropped, as he has enlisted in a Washington company.

THANKS FIRE BOYS.

Through this means I desire to express my sincere gratitude to the chief and the worthy boys of the local fire department, who responded so quickly to the alarm of fire which threatened my home June 23, and whose efficient work saved me from heavy loss.

(Signed.) E. RHODAS.

Don't overlook our abundance club adv. Churchill. 117

Live-wire Doings of City

Pass Through This Morning. Hon. R. A. Booth and wife, of Eugene, passed through this city this morning on their way to Grants Pass, where Mr. Booth's father, Rev. Robert A. Booth, will be buried.

Purchases Ranch. Oscar Knill, of Glide, left last evening for Roseme where he has purchased the Rock Creek way station ranch which has been occupied for several years by the Williams family.

Leaves for Home. Miss Blanche Turner, who has been visiting at the home of Mr. and Mrs. Wm. Bell, departed this morning for her home at San Antonio, Texas. She will stop at Medford and Grants Pass on her way.

New Enlistments. The Smith brothers of Sutherlin, enlisted last evening in the infantry band and will leave tonight for Vancouver. The recruits are well known in this section and are excellent musicians.

Talk of Pulmotor. As an after-effect of yesterday's drownings, there has been much talk on the streets of the city today agitating that a pulmotor be secured for this county. It is very probable had a pulmotor been used yesterday that a life might have been saved.

Instruction is Given. Max Meyers, who was in this city last evening making a medical inspection of the I company boys located here, gave the members of the hospital corps some practical instruction on the clerical work that will be necessary when the boys are called. The work is very complicated and requires a great deal of study.

To Demonstrate Caponizing. Dr. C. H. Bailey will go to Drain tomorrow to meet with the local Grange there. During the session he will demonstrate the science of caponizing fowls. This method insures a quick growth of cockerels, and they fatten much easier than in their natural state. Poultry raisers find caponized birds worth twice as much as they would otherwise bring.

A Ford This Time. A California tourist party in a Ford car met with a minor accident on Roberts hill, last evening, when the car backed down the grade for a short distance and upset. For some reason the engine was killed on the way up from the south side of the hill, and the brakes not holding the machine started back. No particular damage was sustained in the mishap.

Joins Engineer Corps. Harry Fiske, who is employed at the Grand restaurant, yesterday received word from his brother, Delbert Fiske, who formerly resided in this city, to the effect that he has enlisted in the engineer corps company and is at present at Palo Alto. He expects to soon be sent to France. He is well known in this city and was employed during his stay here at a lower Cass street restaurant.

Is in Hospital. Mrs. Douglas Dyer is in the hospital here suffering from injuries, including a broken arm, as the result of an auto accident on the Wolf creek hill, not far from Glendale. The accident occurred when the engine stopped and the car, backing into the bank, overturned. Mrs. Dyer's home is in Myrtle Creek. Many accidents have occurred on the Wolf creek hill during the last two weeks.

Final Exams. The final examinations of Douglas county applicants for the second reserve officers' training camp to be held at Presidio, Calif., August 15 to November 15, will in all probability be held in Roseburg, between July 25 and July 30, and probably at a much earlier date, according to word received here. This examination will be conducted by an officer of the United States army.

Fourth Company Drill. The fourth company coast artillery corps held their weekly drill last evening at the armory and received much practical instruction in their work. The boys are all anxious to be called out and are preparing themselves for actual service. It is very probable that they will be taken to Fort Stevens until August 5, at which time they will be drafted into federal service. From that time on they will be under the jurisdiction of the United States government as no intimation is given where they will be stationed.

KOVERALLS Keep Kids Kleen. The most practical, healthful, pleasurable garments ever invented for children. 1 to 5 years of age. Made in one piece with draw back. I assure them I appreciate and will long remember their services.

Moved to Roseburg. Mr. and Mrs. Harry Wheeler, formerly owners of the New Era drug store in Cottage Grove, will make their future home in this city.

Elkton Ranch Here. W. W. Bunch, of Elkton, was a business visitor in Roseburg today. He came up in his auto, making the drive in less than three hours. Himself and father, James Bunch, are engaged in dairying and stock raising, living about four miles west of Elkton.

Will Issue Bonds. Complying with the request of the highway commission, the state board of control today decided to issue bonds totaling \$400,000 to procure funds to match the federal appropriations for highway work in this state. Bids will be opened August 3 and the bonds will be in denominations of \$500 and \$1000, half to be redeemable in 10 years and the balance in 20. The interest rate will be 4 per cent.

Dodge Brothers Sedan Car. J. O. Newland, dealer in Dodge Brothers cars, has on display in his sales rooms on Cass street about the handsomest thing in the automobile line that has so far struck the town. "Jim" says that this car has everything else "backed clear off the map," and looks as if he were about right. It is a sedan car, and is built with a view to luxurious travel. The wheels are of the bike order, the upholstery is in grey colored cloth, and the glass door panels are removable at will, they being packed away in a compartment for them when not in use.
