

Financial Preparedness!

In the United States really began two years ago when the Federal Reserve System was organized. It will be complete when every citizen is doing his share towards the maintenance of the system. By depositing your money with us you can help directly in developing and strengthening it, as we are required to keep on deposit with our Federal Reserve Bank in San Francisco a portion of your balance with us.

At the same time, and without cost, you benefit directly from the protection the system affords us.

The Douglas National Bank

Member Federal Reserve System. CAPITAL AND SURPLUS \$130,000.

Save Waste In preparing Food

The saving in meat shrinkage by electric cooking is indicated at the left. Translated into money this means that on an eight pound roast costing 35c a pound, electricity will save you from 35c to 45c.

APPLY FOR YOUR FARM LOAN NOW

TO PROSPECTIVE FARM BORROWERS:

We have received the following letter from the Agricultural Cooperative Company, whom we represent in Douglas county. The letter should be of interest to every farmer who expects to make a farm loan.

"Recent developments with reference to the war and the offering for sale by our government of unprecedented amounts of bonds, has no doubt caused you to think quite seriously about the possibility of an advance in farm loan rates in the near future. There is and can be no question as to the success of the present and future government bond issues. It is our privilege and patriotic duty to absorb these issues as fast as offered. Patriotic impulses should not, however, entirely blind us to our own conditions and the effect of that issuance and sale of such enormous quantities of bonds will have on interest rates. It will undoubtedly create a shortage, and a very large one, in funds which would otherwise seek investment in farm loans.

"Money is the only commodity today that is cheap. A substantial rise in interest rates sooner or later is as inevitable as that the sun will rise and set tomorrow."

So it behooves you then to have your arrangements made to take care of your loan on your farm if it is about to mature. We have made arrangements whereby we can take your application now and give you the advantage of the present low rate on our twenty year plan of lending money.

NOW IS THE TIME

for you to finance your farm loan and get it on a long time basis. Our twenty year plan will tide you over any period of high interest rates likely to occur.

WRITE US TODAY.

For information concerning our twenty year plan of lending money. We will take your application now and agree to furnish you the money any time within the next six months at present rates of interest. Write today. Don't postpone it.
