

Financial Preparedness!

In the United States really began two years ago when the Federal Reserve System was organized. It will be complete when every citizen is doing his share towards the maintenance of the system. By depositing your money with us you can help directly in developing and strengthening it, as we are required to keep on deposit with our Federal Reserve Bank in San Francisco a portion of your balance with us.

At the same time, and without cost, you benefit directly from the protection the system affords us.

The Douglas National Bank

Member Federal Reserve System.
CAPITAL AND SURPLUS \$130,000.

Send for Booklet, "How Does It Benefit Me?"

Save Waste In preparing Food

The saving in meat shrinkage by electric cooking is indicated at the left. Translated into money this means that on an eight pound roast costing 35c a pound, electricity will save you from 35c to 45c.

Also electricity is a cheaper fuel than coal at present prices.

Won't It Pay You to Cook With Electricity?

ELIAS DAY GIVES DELIGHTFUL PROGRAM

Elias Day, world famous impersonator, appeared last evening at the chautauqua and presented an entertainment that to say the least was highly pleasing. His characters were true to life and with the aid of "makeup" was able to present them more forcibly. His work was different from the ordinary run of entertainment and for that reason held the audience at close attention.

His performance was preceded by that of the Ongawas, the Japanese troupe, who presented the delightful fantasy, "Along the Road to Tokyo."

LIGHT CAR AND HUGE TRUCK ALIKE USEFUL TO U. S. IN WAR TIME.

Great Divisions of Motor Vehicles to Play Important Part in Mobilizations and Actual Fighting. Dodge Brothers Car Is Already in Line.

United States' entrance into the European war has given a new phase to the discussion among army officers of the part played by American made motor cars in the struggle being waged in northern France.

It is a well-known fact that the huge armies on both fronts are almost entirely dependent upon motor trucks for their supplies of food and ammunition. A large number of these trucks were manufactured in the United States and it is highly probable that the American overseas forces will be accompanied by the most completely equipped truck division which has ever left American ports.

According to the most recent available information, the government has approximately 2,500 heavy duty trucks ready for service. A majority of these were used on the Mexican border last fall to supply the troops of General Pershing's expedition with food, ammunition and water.

This precious freight had to be carried by truck trains from Columbus, N. M., to Nainiquopa, 284 miles south of the border. And in order that the officers in command of the various fleets of trucks might accompany them, approximately 300 Dodge Brothers cars carried them back and forth over what is known as "the worst road in the world."

It was at the latter point that General Pershing received his supplies by truck trains, each of which was accompanied by a Dodge Brothers car.

South of Columbus, the cars had to cross alkali flats, which were cut into axle deep ruts and light their way up table lands and slopes covered with mesquite brush, boulders, grease wood and sage brush. Between Columbus, which has an elevation of 4,062 feet, and Casa Grande, whose elevation is 7,164 feet, there are numerous mountain ranges which had to be crossed.

Soon the roads became so badly cut that the drivers of the cars were forced to take to the brush and smooth their way through as best they could.

Now the Dodge Brothers motor car withstood the test and enabled the army to keep on the jump as indicated in a typical experience of Edward Roof, of Grand Rapids, Mich. Mr. Roof drove a Dodge Brothers car for Generals Kirk and Covill. In three days less than eight months the car covered 17,521 miles—more than the average car travels in two years' service. During the entire period the gasoline consumption averaged between 16 and 17 miles per gallon, while the repairs amounted to \$1.35. There are scores of instances even more unusual than this and as a whole the record of the Dodge Brothers motor car on the Mexican border is a noteworthy tribute to the builders.

COUNTY CLAIMS ALLOWED.

E. C. Herrick, election deputy \$ 6.00

APPLY FOR YOUR FARM LOAN NOW

TO PROSPECTIVE FARM BORROWERS:

We have received the following letter from the Agricultural Cooperative Company, whom we represent in Douglas county. The letter should be of interest to every farmer who expects to make a farm loan.

"Recent developments with reference to the war and the offering for sale by our government of unprecedented amounts of bonds, has no doubt caused you to think quite seriously about the possibility of an advance in farm loan rates in the near future. There is and can be no question as to the success of the present and future government bond issues. It is our privilege and patriotic duty to absorb these issues as fast as offered. Patriotic impulses should not, however, entirely blind us to our own conditions and the effect of that issuance and sale of such enormous quantities of bonds will have on interest rates. It will undoubtedly create a shortage, and a very large one, in funds which would otherwise seek investment in farm loans.

"Money is the only commodity today that is cheap. A substantial rise in interest rates sooner or later is as inevitable as that the sun will rise and set tomorrow."

So it behooves you then to have your arrangements made to take care of your loan on your farm if it is about to mature. We have made arrangements whereby we can take your application now and give you the advantage of the present low rate on our twenty-year plan of lending money.

NOW IS THE TIME

for you to finance your farm loan and get it on a long time basis. Our twenty-year plan will tide you over any period of high interest rates likely to occur.

WRITE US TODAY.

for information concerning our twenty-year plan of lending money. We will take your application now and agree to furnish you the money any time within the next six months at present rates of interest. Write today. Don't postpone it.
