A Billion to Help Business and Farming

The funds gathered into the Federal Reserve Banks now aggregate over \$1,000,000,000. This vast sum was not accumulated to earn profits for private interests, nor can it be controlled by private interests. Its purpose is to assist its member banks, of which we are one, in helping the farmers and business men and to make general banking conditions as sound as possible.

If you are not yet one of our depositors and getting its benefits and protection, drop in and talk it over with us.

APPLY FOR YOUR FARM LOAN NOW

TO PROSPECTIVE FARM BORROWERS:

We have received the following letter from the Agricultural Cooperative Company, whom we represent in Douglas county. "The letter should be of interest to every farmer who expects to make a farm loan.

"Recent developments with reference to the war and the offering for sale by our government of unprecedented amounts of bonds, has no doubt caused you to think quite seriously about the possibility of an advance in farm loan rates in the near future. There is and can be no question as to the success of the present and future government bond issues. It is our privilege and patriotic duty to absorb these issues as fast as offered. Patriotic impulses should not, however, entirely blind us to our own conditions and the effect of that issuance and sale of such enormous quantities of bonds will have on interest rates. It will undoubtedly create a shortage, and a very large one, in funds which would otherwise seek investment in farm loans.

"Money is the only commodity today that is cheap. A substantial raise in interest rates sooner or later is as inevitable as that the sun will rise and set tomorrow."

So it behooves you then to have your arrangements made to take care of your loan on your farm if it is about to mature. We have made arrangements whereby we can take your application now and give you the advantage of the present low rate on our twenty year plan of lending money.

NOW IS THE TIME for you to finance your farm loan and get it on a long time basis. Our twenty year plan will tide you over any period of high interest rates likely to occur.

WRITE US TODAY. for information concerning our twenty year plan of lending money. We will take your application now and agree to furnish you the money any time within the next six months at present rates of interest. Write today. Don't postpone it.
