NEW LAW RELATING TO SELLING MILK

Full Text of the Measure is Passed by the Last Legislature.

COWS MUST BE TESTED

If Not Tuberculin Tested Then Dealers Selling Milk Must Pasteurize Product—Penalty For Violations.

The following is the full text of the dairy law enacted by the last legislature. The measure becomes effective September 1:

Section 1. That for the purpose of this act, milk shall be construed to include cream; and milk products shall include butter, cheese, ice milk, skim milk, buttermilk and whey.

Sec. 2. That from and after September 1, 1917, it shall be unlawful for any person, firm, company, corporation or association, to sell or exchange or offer or expose for sale or exchange, for human consumption any milk from cows that have not passed the tuberculin test, unless such milk shall have been pasteurized as hereinafter provided. It is understood and hereby expressly stated that nothing in this section shall ap-

ply to the delivery of milk or cream to creameries or cheese or condensed milk factories by the producer of such milk or cream, or in bulk to the wholesale trade.

Sec. 3. It shall be unlawful for any person, firm, company, corporation or association to deliver, exchange, sell, or offer or expose for delivery, exchange or sale any milk product made from milk except cheese, from cows that have not passed the tuberculin test, unless such milk product, before, during or subsequent to any manufacture process used to produce such milk product shall have been pasteurized as provided in this act.

Sec. 4. The process of pasteurization as applied to milk, and milk products, is hereby defined to be a thermal process for the elimination therefrom of bacteria or germ life, which process shall consist of uniformly heating such milk or milk products to a temperature of not less than 140 degrees F., and of holding the same at the same temperature for a period of not less than 30 minutes, and immediately thereafter of cooling the same to a temperature of not above 50 degrees F.; or by heating said milk, or milk products, as the case may be, to a temperature of not less than 180 degrees F. and immediately thereafter cooling the same to a temperature of not above 50 degrees F.; provided, however, that when cream is pasteurized to be used and is used in the manufacture of butter, or when milk is pasteurized to be used and is used in the manufacture of a milk product, and where the process of manufacture, in either case, is to begin immediately, then it shall not be required that such cream or milk be cooled to a lower temperature than is necessary for such manufacturing process.

Section 5. All pasteurized cream or milk used in the manufacture of pasteurized butter or milk products, shall be pasteurized in and in the plant where such butter or milk product as the case may be, is manufactured therefrom. Repasteurization of milk is hereby expressly forbidden.

Sec. 6. It shall be unlawful for any person, company, corporation or association, to sell, exchange or deliver or have in his or its possession for sale, exchange or delivery, any milk product or any by product from the manufacture of such milk product, that such cream or milk has not been pasteurized as hereinbefore specified.

Sec. 7. It shall be the duty of the dairy and food commissioner to provide such rules and regulations as may be necessary to carry the provisions of this act into effect; and it shall be unlawful to violate any such rule or regulation.

Sec. 8. Milk from any cow or cows whose owner or lessee shall apply to the state livestock sanitary board to have such cow or cows tuberculin tested, shall be exempt from all of the provisions of this act until such cows shall have been so tested.

Sec. 9. Any person who shall violate any of the provisions of this act, upon conviction thereof, shall be fined not less than \$10, nor more than \$100 for each violation thereof. Any company, corporation or association violating any of the provisions of this act shall be liable to a penalty of not less than \$10 nor more than \$100 for each violation, and any officer or agent who shall direct, incite, induce, perform or omit to perform such act in violation of any of the provisions of this act, upon conviction thereof, shall be fined not less than \$10 nor more than \$100 for each violation thereof. All penalties imposed for violation of shall be recovered by an action at any of the provisions of this act law by the state.

Sec. 10. Justice court, district courts and municipal courts sitting as justice court shall have concurrent jurisdiction with the circuit courts of all prosecutions arising under this act. The district attorney or county attorney is authorized to institute prosecutions for violations of this act by information or the same may be instituted by indictment or by complaint verified before any magistrate.

Two Ice Wagons.

The Roseburg Ice Delivery desired to inform its patrons that on Saturday, July 28, they will have two ice delivery wagons and plenty of ice. Prices the same to all our customers. a3-p. G. A. BRYAN, Manager.

PERSHING VISITS TRAINING CAMPS

General Pershing gave the American expeditionary force an example of the strenuous life Wednesday by sweeping through nearly a dozen villages where United States soldiers are living in France and visiting nearly all training centers, which have been established from America's first great contribution for the war for democracy.

It was not a cursory inspection. He went into minute details all along the line, questioned private soldiers, company cooks and various other ranks as to how things were going and what, if anything, could be done to improve the situation.

The general also is inspecting various places suggested for his field headquarters, for he expects before

very long to remove from Paris to be near the troops in training. At the end of the first day's inspection, General Pershing said: "Our principal concern just now, of course, is to perfect the army organization. This is a big task, but it is moving along smoothly and in a most satisfactory manner."

The work at certain ports of disembarkation is well started. Railroad material is coming over as rapidly as can be arranged. The progress we have made thus far with the assistance of the French is a source of great satisfaction to me. Billets and training ground for men are as well located as could be expected at this time of the year when space is limited by crops in the fields.

"After these are moved we will have plenty of space for lodging and training the divisions that are to come. Some of the places where men are now sleeping are not all that could be desired, but this soon will be remedied by the construction of portable barracks. Training is progressing very well with the assistance of the French."

MOTOR VEHICLES PAY LARGE SUM

Figures compiled by Secretary of State Olcott show that, from January 1 to August 1 of this year, the fees collected by the motor vehicle department reached a total of \$176,129, an increase of \$29,885 over the whole of last year. For the corresponding period last year the fees aggregated \$132,044.50.

The records show that the number of automobiles registered last year, between January 1 and August 1, totaled 30,584, while for the corresponding period this year they aggregate 43,866. During the same period the number of motorcycles decreased, the total this year being 3158, as compared with 3297 last year. Chauffeur registrations also decreased, the total thus far this year being 2849, while during the corresponding period last year the total was 3,323.

The drought still continues. John Krohn commenced threshing Thursday afternoon.

H. D. Graves and wife, of Roseburg, was motoring on our streets and calling on friends Wednesday.

Adam Doerner had a narrow escape from serious injury Tuesday by a bull.

G. W. Alderson butchered a fine beef Wednesday and sold it out to his neighbors.

Lee Maddox's fingers that he got crushed in Coos county while doing some road work some time ago, are healing up in good shape.

David Good has been hauling lumber for their new pine dryer, which he will need this fall, from the way his trees are loaded. X

Jess Shambrook, who owns a large prune orchard in the vicinity of Umpqua, was a business visitor in the city today. Mr. Shambrook reports about one-half a crop of Italians and a full crop of French.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
