Hayard Veiller's phenomenal story shows that ten to sixteen months in Broadway.

It has even greater power and interest than the production, tense with the thrill of progress, and the story of the struggle against the snags of the city, the story of the very roots of the tangled web of the city's life.

## TO DETERMINE AMOUNT OF MONEY AVAILABLE

(By Associated Press.)  
SALISBURY, Sept. 18.—Governor Witherspoon has announced that he intends to start an investigation for the purpose of determining just how much money the state can use for adding dependents of soldiers in the service. The executive stated that the problems in this connection may require an extra session of the legislature within a few months, but the situation would not require such a move at present.

## DRAFTED MEN WILL BE EXAMINED SOON

(By Associated Press.)  
SALISBURY, Ore., Sept. 18.—All Oregon men on the draft list may soon have to undergo physical examination to determine their fitness for service in the army. Governor Witherspoon has announced that he favors the suggestion of the war department that all of the men registered since the examination at once, instead of waiting until called to the cantonments. This plan will save much time in getting the men ready for service. The executive expects to have examination of Oregon men started soon.

## FUNERAL WAS HELD THIS AFTERNOON

The funeral of the late William Arnold, who was accidentally shot by his brother while hunting on Sugar Pine mountain Sunday morning, was held at Looking Glass this afternoon and was attended by a very large crowd of sorrowing relatives and friends.

The floral offerings were many and beautiful. Rev. Blackwell of the M. E. church of Looking Glass, officiated at the services, which were conducted by M. E. Ritter, of the Roseburg. Undertaking Parlor. Interment took place in the Looking Glass cemetery.

## CO-OPERATION HELPS TO BUILD UP TRADE

Did you ever hear the story of the negroes who went out to hoe cotton? Well, the Oregon farmer. Nine of them started to work in one field, while the tenth darkey commenced in a field all by himself just over the fence in the next field. He hoed down one row and back on another. Then he looked over the fence and saw the swath of nine clean rows made by the other workers.

"Huh," he said, "nine niggers, nine rows, one nigger, one row. Draft one nigger."

And he climbed over the fence and joined the other nine. This is a pretty good illustration of the difference between community team work and trying to rely altogether on one's individual strength. Where a whole neighborhood is pulling together to accomplish certain things you usually find that success comes out of the united effort. If you, personally, have joined in the community effort, you have not only gained your share of the good accomplished, but you have the satisfaction of knowing that your work has helped all the others. After all, you are being actively interested in the welfare of your community. It is something to yourself a share of the advantages coming from the efforts of all those who have helped make these advantages possible.

Do you fully realize what the community in which you live means to you individually? If you are in a live, progressive community, it's ten to one the town that is your trade center is an "up-and-coming" place with good stores, good streets, good schools, good churches, and good places of amusement.

If your community is the other kind, then naturally there is lacking the spirit of community co-operation and your town is lagging behind. Helpless, unprogressive.

At present your local stores may not be as large or as handsomely equipped as some of the big city stores, but you will agree with us that some home merchants can not possibly enhance or improve their businesses if they are not patronized by you. If you are interested in business about here, local shopping facilities are seriously up to you, and other residents of your community, to get some home merchants, thus keeping your money where it will circulate in various channels for the improvement of the community.

There are only two possible reasons why a person should remain in any certain town or community. One, duty demands it, or they really like to live there. But this is true in your case? In other words, it is to your distinct advantage to do everything in your power to assist in improving local conditions. The community belongs to you, and your neighbors, and you are necessarily concerned by conditions as they exist.

A progressive community is in every instance a desirable place in which to live as it affords its residents advantages which invariably are limited to and controlled by the amount of local commercial activity.

## MENTAL CULTURE CLUB HOLDS MEETING

The Mental Culture club held its regular meeting this afternoon at the parish house of the Episcopal church. Mrs. S. D. Evans, president of the club, opened the meeting with a few remarks and was followed by Dr. Lucetta Smith, who gave an interesting talk on "The Crippled Children Law." Dr. Smith stated that too few people know of this law and that various organizations such as the Parent-Teachers Association, W. C. T. U., Granges, Federation of Clubs, etc., should co-operate with the state so that the people may become familiar with the law, which, briefly stated is "that any child under sixteen years of age needing medical attention whose parents are unable to provide such care, may be sent to the hospital under the control of the medical hospital of the University of Oregon and receive treatment at no expense to the parents." Dr. Smith concluded her address with a few remarks telling of the benefits derived from this law.

Mrs. A. J. Lilburn then read a diverting paper on "Oriental and Domestic Eggs." Mrs. Lilburn was followed by Mrs. Elmer Vincent who concluded the program with an address on American Indian rugs. The next meeting of the club will be on September 25.

## STRIKE CIRCLE IS BROADENING DAILY

(By Associated Press.)  
PORTLAND, Sept. 18.—A special train has been scheduled for carrying troops to Astoria tonight to guard the Hammond Lumber Company from I. A. W., who, according to A. B. Hammond, president of the company, are threatening employees with violence if they continue work. He stated that street disturbances were frequent, and that about 75 men working for the company struck today, and are apparently in sympathy with the Seattle strikers in their demands against ten-hour lumber. The ship yards strike along the Columbia and Willamette rivers is unchanged. The steel shipyards are still operating.

## GERMANY TO ABANDON ALL CLAIMS TO BELGIUM

(By Associated Press.)  
AMSTERDAM, Sept. 18.—Indication of the policy that may be openly avowed in the near future, the Berlin Zeitung published a report, to the effect that Germany has decided to abandon all claim to Belgium. In connection with the published report of the probable course to be pursued by Germany, the Volks Zeitung says: "We, too, have received similar information, from which it may be concluded that a decision was reached last week to consider the Belgium question in conformity with English views." Belgian newspapers say that Dr. Van Sluut, civil governor of Belgium, and Herr von Litz, assistant civil governor under German domination, have resigned. No successor has been appointed. German newspapers allege that the resignations are in harmony with German plans regarding the future course of the imperial government concerning Belgium.
