NEXT SUMMER'S GARDEN.

This is the time to begin planning for next year's war garden. Though the war may not last through this year, there will be a much greater need in 1918 for these than there has been in 1917. Very likely the need will be greater, because of the additional men taken from the soil to fight.

War gardens have played a role in the season just ended, greater than most persons realize. The out put of back yards and vacant lots might appear unimportant when compared with the production of the farmers and professional gardeners. But it has provided a surplus, widely distributed, which has saved money for the amateur gardener, and accomplished good out of all proportion to its actual value in the crop reports.

There have been intangible returns to be calculated. Hundreds of thousands of city folk have learned for the first time the flavor of perfectly fresh vegetables, and the pleasure and health that come from delving in the soil and watching things grow.

PROTECT THE CHILDREN.

With the opening of school Johnny and Mary are exposed to all the contagious diseases of childhood.

Parents should do two things. First, keep every child with the suspicion of a snuffle at home until it disappears; second, protect Johnny and Mary from contagion by increasing their resistance to it.

If they haven't been to a dentist, take them at once. There may be trouble there that hurt their digestion and nerves.

And how about the "cough"? If there is an eye strain it will interfere with vision and digestion, produce headaches and irritability in the throat.

Take them to the family doctor. Every child is entitled to a strong, wholesome growing body. It doesn't cost much to do these things. Not half so much as one case of serious illness, and not one-fifth so much as the results of long neglect.

WORK FOR MR. HOOVER.

In most parts of the United States fourteen million dollars of bond are sold for ten cents. In Great Britain this is two cents; in France thirty-five cents are sold for one cent. In Germany, Belgium, thirty-five cents are sold for one cent. This is done with our United States—giving substantial return on the investment. Now, there's lots of work for Mr. Hoover and the people are waiting patiently.

Every day witnesses a man (dick) of one kind or another. You see and you think to help up with the price, when these men are in the line, who are doing the hard work of the world, who are doing the real work of the world.

A news dispatch says, "Efficiency will have to be increased in the number of men who are doing the hard work of the world, who are doing the real work of the world."

We have several readers who always are bleating about opportunities being scarce. There's a fortune in the inventor of a perfume for the small person who has to stand in the rear of a crowd to see a parade.

Most men who excuse spending their money foolishly by saying, "I earned it and I guess I can spend it," would be horrified if their wives took the same amount and went on a spree at once. And yet she has the same right, doesn't she?

When the live wires of Roseburg get together to accomplish a certain thing for the city they usually "bring home the bacon" all things to the contrary, notwithstanding.

Don't forget that you have signed a bond conservation pledge. It's up to you to keep good faith with the government. Be on the job at the time.

Russia has "dropped" again. The old girl is some athlete.

CHANGE IN THE TRAIN SERVICE ON S. P. HERE

Recent changes in the train schedule makes it necessary that parties traveling on highways and having occasion to cross the railway tracks be especially careful, as accidents may result. The Shasta Limited, which formerly arrived here at 7 a. m., now due at 2:45 p. m. No. 14 runs on the old schedule, reaching Roseburg at 3:45 p. m. The danger arises from the fact that persons traveling the highways, and attempting to cross No. 14 at its usual time will be on the lookout for it, and after that train has passed may not be so watchful, and are very apt to get caught by the Shasta Limited, which is only 25 minutes behind the first passenger train.

The railway people are very anxious to think every safeguard around the movement of all their trains, and agents all along the line have been instructed to warn the public of these changes in train service so that autoists and persons driving teams will constantly be on the lookout for oncoming trains.

ROSEBURG HAS \$199.75 FOR LIBRARY FUND

The chairman of the Oregon war library council has made a final report of its work.

The national fund asked for was \$1,000,000. This amounted to about one cent per capita, which would make Oregon's quota practically \$9,000,000. As a matter of fact a total of \$199,750 was raised in this state. The expenses for the Oregon campaign amounted to between \$200 and \$300, most all being for postage, printing and telegraphing.

Southern Oregon cities made the following contributions: Ashland, \$112.15; Cannon City, \$22.25; Grants Pass, \$22.75; Jacksonville, \$11.00; Klamath Falls, \$11.75; Lakeview, \$11.00; Medford, \$21.00; Marysville, \$22.00; Postville, \$11.00; Roseburg, \$11.00; Roseburg, \$11.00; Talent, \$11.00.

Dr. J. M. Woodcock, General Surgeon, U. S. Army, is in the city on a visit to the hospital at the University of Oregon.

Y. M. C. A. NEEDS YOUR COOPERATION

Great Work Being Done For the Men of Allied Armies.

\$35,000,000 REQUIRED

Secretaries of the Y at the Battle Front and All Contingents to Help and Protect Your Boy.

Every day in every city, town or village in this country there arrives a letter from a soldier boy written on the stationery supplied him without cost by the Army and Navy Y. M. C. A. In every home where this letter will be read with interest and sympathy there is joy. If it were not for the kindly attention of the Army and Navy Y. M. C. A. it would not be the building, care and love of this organization, there would be thousands of homes without word from their loved ones called into the service.

Every Y. M. C. A. center there is a sign that reads, "Have you written Mother today?" It is an appeal that the soldier boy cannot resist. His heart is with her and he goes to the counter, gets paper and pencil, and sits down beside another comrade who is writing and sets down his message. Hundreds of thousands of boys all over the world are writing letters home in Y. M. C. A. buildings every day and night.

To make it possible for these boys to have paper and envelopes and a place to write, organize their own campaign, double the number of men who write letters home, that 250,000,000 more letters be written, the Y. M. C. A. is making a national drive on Americans to contribute and extend the work among the American soldiers, at home and abroad. You may be getting a letter from your boy, but you don't know what it means to him. The Y. M. C. A. needs your support. It needs you and the soldier boys, the Army and Navy Y. M. C. A.

The necessity for such a drive is so plain that it needs no argument. It is a drive on every man, woman and child in America to contribute to the Y. M. C. A. drive. The Y. M. C. A. is the only organization that can help the soldier boys. It is the only organization that can help the soldier boys. It is the only organization that can help the soldier boys.

CITY NEWS

Rent latest books, 16c. Fiction library, 25c.

George Stearns and family spent Wednesday in this city from Oakland.

Mrs. G. W. Short, of Wilbur, is spending the day in this city visiting with friends.

STERLING CHARACTER

Upon the character and conservatism of your bank's officers and directors—to a great extent depends the safety of your funds.

If they are known as men of high integrity—if they have a record as successful men in business—if they are known as conservative men in all things then you may rest assured that their bank is governed in conformance with a policy of safety before everything else.

Such are the men who govern this bank—and your funds are absolutely secure in their care.

THE UMPQUA VALLEY BANK
