

# MAZOLA

is the perfect oil for deep frying, sautéing, shortening, salad dressings—and the economical one.

PRESSED from the heart of golden American Corn, Mazola supplies the need for a vegetable oil which is pure and wholesome.

Fry any food in Mazola and you will find it retains more of the natural flavor.

Use Mazola over and over again—it does not transmit taste or odor from one food to another—the great factor in economy.

Mazola quickly crisps the surface and thus makes fried foods more digestible—free from greasiness or soggy.

And since Mazola is a vegetable oil it is an important factor in Mr. Hoover's campaign to save butter, lard and suet.

Imported oils are so scarce and high priced now-a-days that you will do well to use Mazola when you want a really delicious salad dressing.

You can get Mazola from your grocer in pint, quart, half-gallon, and gallon tins. The large sizes are most economical. Also ask your grocer for the free Mazola Book of Recipes, or write us direct. Your money refunded if Mazola does not give entire satisfaction.

## "A Military Necessity"

—General Dodge.

1864 1917

FROM its beginning, the Union Pacific has been "The National Railroad," a patriotic institution. Lincoln and other great men urged its construction for national protection and development.

The prophetic vision of those who founded this great railroad during a period of national stress is now apparent in these times of international conflict. Again the Union needs its Union Pacific.

The Union Pacific is doing its utmost to expedite the enormous war shipments from the Treasure States it serves. Grain, cattle, minerals, lumber, wool and oil are needed as never before.

For new equipment alone the Union Pacific is spending over \$10,000,000 to give American people and industries still better service.

This is aside from even greater sums necessary for double-tracking, additional yard and engine facilities and other improvements designed to add to the traffic carrying capacity of the property.

Just now some of our ordered equipment is unobtainable for immediate delivery because our Allies must be served first—so we will win. The Union Pacific and The Union Pacific States must use available equipment to its greatest efficiency.

The 41,000 employees of the Union Pacific and the 11,000,000 people of the western wealth-producing states now have an international obligation to fulfill.

Were Lincoln to speak today in behalf of the Union Pacific, as he urged its building, he would insist on those high service standards for which we are striving.

## TURKEY DAYS

Thursday, Friday, Saturday, of This Week  
NOVEMBER, 22, 23 and 24

We will buy and receive all the dressed Turkeys we can get. Guaranteeing to the Grower the highest and best price consistent with the best markets on the Pacific Coast.

### Growers Beware

Do not be misled by any statement or representation from outside parties as to any price that may be claimed to have been fixed or determined by the Federal Food Control. As we have a letter from the Oregon Committee stating that they have no authority to fix such prices and that no attempt will be made to do so, other than to advise what a reasonable price should be under present conditions.

We believe that the Grower is entitled to the highest price which conditions in any available market on this coast will justify.

### WE WANT YOUR BIRDS

Put only on condition that our price is equal to the best. Kill your birds at home before killing. Keeping all their feathers, pin feathers, in muslin or burlap bags. Be sure that your birds are not fed on at least 24 hours before killing. You will thereby make more money and help to keep up the price on the good birds.

It will all be before you can turn your back.
