The 1917 Christmas Spirit

THE CHRISTMAS SPIRIT OF GIVING has never been so manifest as this year, and there has never been a time when it was so much needed. Do you realize how much a small gift means to the boy at the front? A military watch with luminous dial, a safety razor set, a trench mirror or a pocket containing a picture of loved ones at home will do much to brighten the lonely hours of that Christmas spent so far from home. And do not forget Mother and the folks at home. Make this a Merry Christmas for them. A piece of Hand Painted China or Cut Glass to brighten up the table or some new Silverware. Mother will appreciate it.

Those who have never given will now give, and those who have always given will give no more.
