## Live-wire Doings of City

**To Join Husband.**  
Mrs. Harry Grimm, eldest daughter of E. S. Cockletras, a well known resident of this city, left this morning for Portland to join her husband, who is employed in the ship yards there. Mrs. Grimm will remain at the metropolis permanently.

**To Reside at Spokane.**  
Mrs. H. C. Holiday, who has been making her home in this city for the past several months, left this morning for Spokane, Wash., to remain permanently. Mr. Holiday, her husband, a contractor who has been employed on the federal building which was recently completed, will join Mrs. Holiday later.

Moore, local southern Pacific agent, for a short time, left this morning for points north. Mr. Cornell, formerly worked in this city under Mr. Moore and is quite well known here.

**Houck in France.**  
Further confirmation that Dr. Geo. E. Houck has reached the shores of France safely were phoned to this office today by Mrs. Houck, who received a letter from her husband telling of his arrival across the water. The News announced the arrival of the 162nd infantry a week ago, and the supposition at the time was that Dr. Houck was with the contingent, he being a member of the 162nd infantry, 41st division.

**Seed Grain Too High.**  
J. M. and C. C. Weaver, who are extensive farmers in the Roberts creek country, were in town today for ranch supplies. They have quite a large acreage already sown to grain, but state that scarcity of seed is a great handicap. The prices of seed grain are almost prohibitive, they state, and will deter very many people from sowing as extensively as they otherwise might, because small farmers will not be able to pay the amounts asked.

**Young Peoples' Meeting.**  
There will be a meeting or a series of meetings at the Adventist church beginning tonight, and lasting until Thursday night, conducted under the auspices of the young peoples' society of missionary volunteers. **Kellogg Man Here.**  
S. F. Weatherly, of Kellogg, spent the day in town attending to business matters. The gentleman states that the mild winter has been a godsend to stockmen of the southern Oregon country, and a great saving has resulted. Quantities of hay that was held for \$25 to \$30 per ton is taking a rapid slump in price, and while it is a disappointment to the man who sells, it is an ill wind that blows nobody good, so the buyer is correspondingly happy.
