TAKE STEPS INCREASE MORE FOOD STUFFS

To the Douglas County Teachers: At this time, when it is our patriotic duty as Americans to be energetic food producers, we are asking you to emphasize for the next month the club projects of pigs, corn and potatoes.

Please take up this work with the boys and girls of your school at once, as this is a splendid time of the year to test your seed corn, select the potatoes for planting and select the pig for fattening or the brood sow.

We want one hundred boys or girls to plant one acre of corn. How many can you furnish? Our slogan is "four hundred pig club boys with one pig each." How many can you furnish us?

There never was a time when a boy or girl could expect greater returns than at the present time on all foods produced, as well as to show the true blue of the "soldiers of the commissary."

Write at once and give us the names of your boys, or girls, who want to get into this game to help win the war for democracy. We will then mail you our complete plan for the organization of Douglas county, which includes a scheme whereby the bankers of the county have offered financial aid to any boy who needs it. Very respectfully,
C. J. HUBB,
County Agricultural Agent.
O. C. BROWN,
County School Supt.

DR. STEWART EXAMINES 16 RECRUITS TODAY

According to information received this afternoon from Chief Clerk Rafferty of the local exemption board, 16 registrant recruits were examined by Dr. E. B. Stewart at the armory today. Four out of the 20 that had been summoned failed to appear, probably owing to the fact that they had been granted a transfer to other boards. Six first division men qualified, three were found to be physically unfit, four were held for special and limited service and the remaining three were referred to the medical advisory board. The following registrants will receive notification to appear to undergo the physical test Thursday, January 31:

NEW "HOME CARDS" ISSUED AT ONCE

PORTLAND, Or., Jan. 25.—More wheat, more sugar and more pork must be saved. This is the edict of the U. S. food administration, and the new "home card," which will be sent out from Washington within the next few days will outline a new schedule, with further restrictions on the use of these three staples. The new card is to replace, in some 13,000,000 kitchens of the United States, the original "home card," which was given out when 13,000,000 housewives signed the food administration's conservation pledge about two months ago.

W. B. Ayer, federal food administrator for Oregon, announces that these new "home cards" will be ready for distribution in this state next month, and that simultaneously with the adoption of the new schedule of wheatless and porkless days in the home, the new restrictions will apply to all hotels, restaurants, cafeterias and boarding houses.

OF INTEREST TO PRUNE GROWERS IN COUNTY

Of interest to the prune grower whose trees have been letting up in both growth and yield the experience of H. T. Westfall, of Yoncalla, with cover crops is interesting. He states that he has sown vetch and oats, for four seasons with added results each year. The first year the effect was not so apparent but since then soil has changed color considerably as the humus content has increased.

The soil does not puddle and wash in the winter, spring work is easier and its moisture retaining properties during the summer are much improved. As the nitrogen supply accumulates from plowing under the legume the trees noticeably improve in thrift and yield. Mr. Westfall states that during the extreme drought of last summer the foliage on his cover-cropped orchard was much greener than on others not so handled. For the benefit of those expecting

to purchase fruit trees the following list of Oregon nurseries is prepared. It does not pretend to be complete or to be a recommendation of any nursery mentioned.

LOCAL BOY HELD AT ASHLAND.

A wire was received in this city today from the chief of police at Ashland advising the local authorities that they were holding Donald Pearce, a 14-year-old boy, who claimed that he resided in Roseburg, under arrest on a vagrancy charge until they were notified whether or not he had run away from his home here. The lad stated to the Ashland officers that he had been living with his uncle in this city and was enroute to California points where his father was expecting him. Up to a late hour this afternoon no trace of the boy's relative could be found.

Live-wire Doings of City

Leaves Tonight.

Deputy Sheriff Rafferty, who was called as a government witness in the Floyd Ramp case, will leave tonight for Portland. The case is called for 10 o'clock tomorrow.

Visiting Schools.

County School Superintendent O. C. Brown is absent from his office today for the purpose of visiting schools under his supervision. It is understood that steps are now being taken to inaugurate vocational education in the local higher institutions.

County Court Adjourns.

The county court which met in special session for the purpose of drawing the juries, election boards and clerks for the coming year completed the task late yesterday afternoon and no further business being on hand to dispose of the court adjourned until the next regular term.

H. E. Burchfield Ill.

H. E. Burchfield, superintendent of the water and light plant at Winchester, who has been seriously ill at his home since the second of January, was in the city today for a few hours to consult his physician. Mr. Burchfield has been suffering from a severe attack of la grippe which almost developed into pneumonia.

To Reenter High School.

Elmo Henderson, a former student of the Roseburg high school and a star player on the champion basketball team of last year, has re-entered school and will take a business course beginning on February 4, at the opening of the new semester. Mr. Henderson will play on the R. H. S. basketball team in his old position as center, and will no doubt add a great deal of strength to the organization.
