AUXILIARY FORMED ON LAST EVENING

Several of the parents of Roseburg soldier boys met at the Methodist church last evening, for the purpose of organizing an auxiliary, and the purpose and plan are to be announced by committee later on. The meeting was called to order by Rev. J. C. Spencer, and after a general discussion, the following officers were elected: Chairman, S. L. Dillard; secretary, J. E. McClintock; treasurer, A. S. Frey. On motion the chair was authorized to name a committee of three for the purpose of inquiring into the status of the Patriotic League, an organization which was formed about the time the 4th company left Roseburg, and the following committee was named: Mr. Frey, Mr. Markes and Mr. Dillard. A committee on rules and by-laws was named as follows: B. W. Bates, Mrs. Dillard and Mr. McClintock. It was definitely decided that this organization shall include all of the parents and relatives of soldier or sailor boys living in Douglas county, and it is very much desired that every person having a son, brother, husband or sweetheart in the service, will report the names, addresses if possible, department of the service they are connected with, and the name of the company, regiment or division, to the secretary immediately, so that a complete roster may be compiled. The meeting adjourned to meet again on call of the chairman, at which time the committees named will make their reports.

Your Watch

Do not allow it to run over two years without having it cleaned and overhauled. The tiny balance is making 18000 beats every hour, 157,000,000 beats a year. Such steady and continuous running will surely wear some of the delicate little parts unless they are cleaned and well oiled, or there may be a cracked jewel that is cutting the pivots which will in a short time ruin your watch.

So you had better drop in to your jeweler and have it examined, but do not under any circumstances allow it to run more than two years without cleaning.

Be good to it and it will never wear out. We are well prepared to handle your watch repairs, and they will be given our best and most careful attention.

I Had an Aunt

Who often went "Sightseeing," but who never "saw the sights." This statement may seem a paradox, and yet when I described To her the detailed magnificence Of an exquisite landscape She exclaimed in surprise that she Was unable to see this beauty Her vision was impaired By a myopic condition which is sometimes called "near-sightedness." And was easily corrected When we fitted her Eyes With the right kind of Glasses.
