VOLUMES SMOKE COURT HOUSE, CAUSE ALARM

Considerable excitement prevailed at the court house about 10 o'clock this morning when large volumes of smoke were discovered coming from a long crack in the wall on the east side of the building just above the vault room.

It was discovered that the smoke was coming from a defective flue leading from the county clerk's office and it was necessary for County Judge R. W. Marsters to have the fire in that office extinguished before the circuit court could proceed without fear of a conflagration, or a repetition of a number of years ago when the court house was ravaged by flames.

Hereafter, until the necessary repairs are made to the flue the force in the clerk's office will have to don "seal skins" to endure the mild winter climate. A fire would be utterly out of the question unless the inhabitants of that neighborhood were furnished with gas masks.

That some extensive repairs must be made on the present court structure seems inevitable. Otherwise the county records are in danger. This fact was brought forcibly to view this morning.

MONEY ACTION-BEFORE CIRCUIT COURT TODAY

A jury composed of Edward Hancock, M. F. Rice, J. M. Gross, Alva Manning, C. F. Flumdel, Henry Lander, R. L. Martindale, James Ewart, Henry Croucher, J. R. Throne, Joseph H. Brown, and L. J. Houser was this morning drawn in the circuit court to hear the case of the W. T. Raleigh Company vs. C. O. Critser, a well known Melrose rancher, et al, wherein the plaintiffs seek to collect the sum of \$175.00 alleged to be due on account.

Several witnesses have been summoned to give testimony and at a late hour this afternoon the trial was still in progress. Attorney B. L. Eddy has been retained as counsel for the plaintiffs while Neuner & Wimberly are looking after the interests of the defendants.

WHY GIVE PRESIDENT AUTOCRATIC POWERS

(By Associated Press.)
WASHINGTON, Feb. 18.—Senator Watson, of Indiana, republican, in supporting a draft of the administration railroad bill, denounced the provisions of the Overman bill, giving the president wide powers to reorganize the war branches of the government as unconstitutional and autocratic. Watson alleged that the measure confers unheard of powers on the president and provides that this autocratic control shall continue for a period of one year after the war. Why was the last provision tacked onto the measure, the Indianan wanted to know.

Your Watch

Do not allow it to run over two years without having it cleaned and overhauled. The tiny balance is making 18000 beats every hour, 157,000,000 beats a year. Such steady and continuous running will surely wear some of the delicate little parts unless they are cleaned and well oiled, or there may be a cracked jewel that is cutting the pivots which will in a short time ruin your watch.

So you had better drop in to your jeweler and have it examined, but do not under any circumstances allow it to run more than two years without cleaning.

Be good to it and it will never wear out. We are well prepared to handle your watch repairs, and they will be given our best and most careful attention.
