The Family Cream Separator

Have you seen the New Sharples? The entire family will be delighted with this wonderful invention which we have received from the "world's largest separator factory." Your girl may turn slowly and make the work very easy. Your boy can readily fill the large low supply can.

THE NEW SHARPLES SUCTION-FEED

separator skims clean at any speed. Capacity increases as you turn faster so you can finish the job sooner when in a hurry. Delivers cream of the exact thickness desired no matter what the speed. No other separator has these important advantages.

The simple tubular bowl is a favorite with the women folk—it's so easy to clean. There are only three pieces—no discs to wash. The Suction-feed Separator has many other new and exclusive features. Bring in the whole family and let us show you just how it works. You'll all be interested and we'll be glad to see you.

LIFE INSURANCE SHOWS BIG INCREASE

(By Associated Press.)

SALEM, Or., March 22.—Insurance on the lives of Oregon citizens showed an increase of \$27,000,000 in 1917 over the previous year, according to a statement issued by Insurance Commissioner Wells, and the total amount of insurance held in the state is \$176,311,626. This figure is based on the reports of 48 companies for the year. Total premiums collected on insurance for the year is \$5,424,000 and dividends returned are estimated to be over one million dollars.

The amount paid in death claims last year was \$1,346,639 or less than one per cent of the total amount of insurance in force. The amount of new insurance written last year was \$44,913,000, which exceeds any other year.

SAY BOOTLEGGERS MAKE GOOD DRIVER

(By Associated Press.)

MARSHFIELD, Or., March 22.—If a place can be found in the army for Fred Neims, now serving a sentence in the county jail for bootlegging, the authorities here may arrange for the man's release. As a truck driver he would make good, Mayor Ferguson and council members believe and if he agrees to enlist, efforts will be made to give him a chance.

MUCH INTEREST MANIFEST.

At the Christian church revival last night the pastor spoke on the subject, "This Picture and That," and illustrated his sermon with a chart. He used for his thought the story of the rich man and Lazarus. He showed the picture of this life, and then of the next, drawing the contrast between the two men in this world, and showing the greater contrast between the two in the next world. The pastor showed that death was the great equalizer, that we brought nothing into the world, and that we can take nothing out. There was a good audience, and splendid interest manifest throughout the service. The children's smile chorus will sing at the meetings tonight, and the pastor has announced his theme as, "Toeing the Mark." There is a good interest being shown in the meetings and the attendance is increasing nightly.

CLOCKS TURNED FORWARD MARCH 31ST

Clocks of the United States will be turned forward at 2 a. m. Sunday, March 31, and for the following five months daylight will be saved. President Wilson signed the bill Tuesday that puts this law into effect, to continue until the last day in October, when they will be put back to run again on "sun time."

Saving daylight is a war measure, and its object is to give an additional hour in the morning. It brings the day's work well within the daylight period and saves eyes and artificial light. It gives the war gardener more time in the morning and afternoon in which to encourage his crop. Among other practical results it is estimated that it will save 1,000,000 tons of coal a year and will save gas and electric light bills to the tune of \$40,000,000 a year; it will increase foodstuffs production by giving more daylight hours for both recreation and work; it will speed up freight movements by giving an extra hour of daylight for overtime work at the docks and terminals; it will stimulate all athletic sports which can be started at a later hour; it will be special benefit to women in industry, as they will stop work at the time of day when their nervous strain is greatest.

The practicability and efficiency of the plan have been demonstrated in many European countries, and was invented by Benjamin Franklin, who published the idea in the Journal de Paris in 1784 in an article on "Economic Project for Diminishing the Cost of Light."

Building-up for the Spring Attack at the front is a good deal like putting the body in condition for an invasion of the germs of grip, pneumonia or "Spring fever" here at home.

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes "pimply" or pale skin and white lips. The reason for this is that during the wintertime, shut up within doors, eating too much meat and too little green vegetables, one heaped fuel into the system which is not burned up and the clinkers remain to poison the system—a clogging up of the circulation—with inactive liver and kidney. Time to put your house in order.

For an invigorating tonic which will clarify the blood, put new life in the body, sparkle to the eyes, and give wholesome skin, nothing does so well as a glyceric herb extract made from Golden Seal root, Blood and Stone root, Oregon grape root and Wild Cherry bark. This can be had in convenient, ready-to-use tablet form in all drug stores, sixty cents, and has been sold for the past fifty years as Dr. Pierce's Golden Medical Discovery. By reason of the nerves feeding of the blood, when the blood is pure the nerves feel the effect, and neuralgic or other nerve pains disappear. Cause such pain is the cry of the stricken nerves for food. When suffering from headache, frequent or scanty urination, rheumatic pains here or there, or the constant tired feeling, the simple way to overcome these disorders is merely to obtain Dr. Pierce's Auric from your druggist. In tablets, sixty cents.
