SERVICE

is the only sure foundation on which to build any business. Service consists in offering for sale only articles of proven reliability and the proper maintenance after you have purchased. In our business this is impossible without a thorough knowledge of electrical appliances, the sale of which is distinctly separate from any other branch of electrical work. You will find that we possess this knowledge, and that every purchase you make in this store will be guaranteed by our determination to render you the highest type of SERVICE.

UHLIG SAYS:

Many a man is willing to do the right thing but lacks the knowledge of how to do it.

APRIL PROVED A BAD MONTH FOR ALL CROPS

From the monthly meteorological summary supplied this office by Observer Wm. Bell, of the local United States weather bureau, we glean that April just past was the coldest period for that month in 40 years. There were some quite hot days along about the 19th to 23rd, but the nights were cool. On the 3rd occurred the freeze that damaged the fruit more or less. April 13 was frosty, and also April 26 and 27. Highest temperature during the month was 85 on April 19, the lowest 25 on April 3. In the matter of rainfall, the past month was noted for drought. In fact only five other seasons since 1878 have any near approached the record of last month in this respect. The least rain in any one April was .27 inches in 1909. This year we had 31 of an inch. The most rain for the month was in 1882, when 5.14 inches fell. The average for April since the weather bureau was established is 2.43. The average hourly velocity of wind was 3.2 miles. The greatest velocity for the month was 20 miles on April 7. Killing frosts occurred on April 3 and 4, and light frosts on April 5, 13, 18, 22, 27, 30.

PRESIDENT WILSON MAKES DIRECT APPEAL

President Wilson has made a direct appeal to the American people, asking one million to join him in purchasing one million fifty dollar liberty bonds immediately. The war situation is more desperate than some of us think, the crying need just at this time is for a united effort. This cannot be done simply by declaring our patriotism, but by doing something definite. The campaign in Douglas county is not over by any means, hundreds of our people have not invested a single dollar in the third liberty loan. The excuse is offered that we have over subscribed our quota, and there will be another call later on. This excuse no one, the instant call has been that we over subscribed many times, for the reason that conditions on the western battle front are vastly different than when the amount called for in the third liberty loan was agreed upon. There should be no less than one thousand people in Douglas county, who will gladly invest in another fifty dollar bond, and those who have not made any move yet to back up their government, will be expected to invest their full share in this bond issue.

The drive in Portland continues, and the committee is calling citizens of that city into headquarters, and demanding a reason for their failure to subscribe. There are just three classes of people in the United States today: Those who do; those who would, but cannot, and those who can, but will not. To which class do you belong? Any one who tries to hide behind the excuse that we have over-subscribed our allotment, is not a true supporter of our soldier boys overseas, that is simply allowing the other fellow to fight your battle, while you sit idly by and enjoy the victory.

For the love of humanity, for the sake of Douglas county boys who have offered themselves as the supreme sacrifice, don't be a "slacker" with your dollars. Remember that a \$50 bond can be purchased by paying \$2.50 cash, \$11 May 28, \$17.50 July 28, and \$20 August 15. Buy it today. The drive ends May 6.
LIBERTY LOAN COMMITTEE,
By J. E. McClintock.

GLIDE GLIDINGS.

Mrs. Hugh McDonald was a Roseburg visitor Friday.

SAYS ROADS ARE GOOD.

John C. Signor returned last evening from Portland where he had gone some days previous to bring to this city a Saxon Six car. Mr. Signor made the trip down in 10 1/2 hours and states that the roads are in very good condition for this time of year, and judging from the time he made in his new car this statement concerning the roads is perfectly correct. He will have the agency for this machine for Douglas county.

JUST ARRIVED.

The public library, previously located at the corner of Jackson and Washington street has been moved to the high school building.

One of a Series of Information Articles on Dental Hygiene—No. 3

Increase Children's Efficiency 99.8%

An investigation in the Marion School, Cleveland, Ohio, showed that 97% of the school enrollment had decayed or irregular teeth. Twenty seven of these, from one to four years behind in their grade, were organized into a dental squad. At the end of the year there had been a 99.8% increase in working efficiency of this class.

A similar experiment in the Buckman School, Portland, Oregon, showed great results. The new Prophylactic or Preventive Dentistry has for its principle—KEEP THE MOUTH AND TEETH CLEAN! This doesn't mean that people should merely keep their teeth clean and white on the outside. It means that all the teeth must be kept clean on all their surfaces, front, back, sides, and down to the gums, and below the gums. To make this state of cleanliness possible to a very high degree, teeth must first be made smooth, and then highly polished.

After this work has been done—if properly attention is given to the teeth by the individual—they may be easily kept clean and healthy.

Stenographers and Typewriters Wanted

MEN **WOMEN**

"The United States Government is in urgent need of thousands of typewriter operators and stenographers and typewriters. All who pass examinations for the departments and offices at Washington, D. C., are assured of certification for appointments at salaries ranging from \$1000 to \$1200 a year. Advancement of capable employees to higher salaries is reasonably rapid.
"It is the manifest duty of citizens with this special knowledge to use it at this time where it will be of most value to the government. Women, who are not prepared to take up arms in defense of the country may find in the office work an opportunity to help the government in a practical way.
"Persons who have not the required training are urged to undergo instruction at once, for the prospect is that the demand will continue indefinitely."—John A. McElhenny, president U. S. civil service commission, Washington, D. C.
