Who Buys?

The Western Electric Washer & Wringer

Checking up the purchasers of two hundred Western Electric Washers in Portland showed that:

- 21 per cent had incomes of more than \$3000 yearly.
- 27 per cent had incomes of more than \$2000 yearly.

52 Per Cent

or 104 of these 200 washing machines are owned by families with incomes of less than \$2000.

This shows that the rich can afford to do without this machine. It is the family in medium circumstances that appreciates the saving in money, clothes, time and labor made possible by the Western Electric Washer and Wringer.

SAD STORY OF BELGIAN CHILD.
(Continued from page 1.)

make it possible for him to meet his departed relatives who had previously been slaughtered and tortured by the damnable and cowardly German soldiers. After I had questioned him to some length about his life during the six months he was in the hands of the cowardly Hunns he told me of being captured by French soldiers and how happy he was to get warm food and be taken away from the firing line. Cases like this more child are very numerous, and then some people are still ignorant enough to ask "what are we fighting for." We are fighting for humanity's sake and to destroy the demon monsters that delight in placing a mere child in such hazardous positions in order to shield themselves. Thank God the women and children of America do not have to undergo these crimes and come in contact with the low-born criminals of the German empire. It is such acts as these and others more horrible that fairly makes the blood of young America reach the boiling point and puts in our men that strong determination to carry on the fight with every spark of their energy until Germany has been made to pay the price for her degrading atrocities practiced on the Belgian, French and English people, and probably many Americans who have unfortunately fell into their hands.

"PRUNELLA" AT THE ANTLERS.
A treat for "movie" lovers is in store at the Antlers theatre Sunday and Monday when dainty Marguerite Clark will appear in a Paramount screen version of "Prunella" which will be remembered as her greatest stage success some years ago. A story of "love in a Dutch

garden" as its authors, Granville Barker and Laurence Housman, called it, the picture is even more beautiful than the stage version and under the expert direction of Maurice Tourneur, has become a most unusual production.

LOOKING GLASS MAN DIES.

Flury Williams, a well known and highly respected resident of Looking Glass, passed away at 8 o'clock this morning at the family home, death resulting from heart failure. Mr. Williams, who was 64 years of age, had been in poor health for the past eight years, and death came as a relief from long suffering. He leaves two children, Lee, who is now stationed at Puget Sound in the service of his country, and a daughter, Jessie, residing at home. The funeral arrangements at the present time are incomplete.

BARTLETT PEARS TO BE HIGH.

That Bartlett pears will bring prices this season is the opinion of all fruit authorities. It is stated the Umpqua Valley Fruit Union has refused an offer of \$38 per ton for Bartlett pears for cannin. Manager Wood says he is in close touch with the situation and will be able to get a better price than \$38 per ton. The pears will not be ready for picking for two months yet.

FIRE WAS NOT SERIOUS.

The fire alarm sounded today in such a vehement manner that considerable excitement was caused, but the fire proved to be nothing more than the chimney burning out in the house of Robert Kidd, on Mill street.

A splendid account of the meeting held at Oelker's packing house at Garden Valley last night, reached this office too late for publication in today's News, but will appear in full in Monday's issue.
