(By Associated Press.)

Paris, June 13—The French struck a heavy blow against the German cast wing yesterday afteranoon, hurling the Hams back to the north bank of the Matz river. East of Laversine and north of Cutry, German forces have advanced as far as a big ravine which shelters them somewhat.

The sector between Boureches and Belleaut wood, held by United States troops, was the center of a victous attack yesterday, but the enemy was again thrown back with heavy losses by the marines and other American forces holding the sector. All gains made are being held by the Americans, who do not back up so easily as Hun officers pretended to believe earlier in the war.

as Inn orners preceded to believe earlier in the war.

The enemy has obtained a foot-hold in Coeuvrs and Stpierre Halgle. Violent combats are constantly oc-curring between the Aisne and Vil-lers-Cotterets forest, where the Ger-mans have entrenched themselves

in a ravine.

Reports say attack on the Marne sector held by Americans was violent, picked veterans of the Hun army were engaged, but when they tried to close in with the Yanks the attack was broken up and the enemy hurled from the field in great disorder.

MAKING SOME HEADWAY.

MAKING SOME HEADWAY.
London, June 13.—At a terrific
cost the German forces continue to
push down the Matz valley, where
there is an abundance of small timbered areas in which are concealed
French machine guns and artillery,
which keep up a constant rain of
shells on the enemy. While there
was plenty of fighting all along the
line yesterday, the general situation
remained unchanged. The Germans
are fighting against time in this district, and this fact is a distinct gain
to the ailles.

OREGON BOYS WOUNDED.

Washington, June 13—The department of justice has announced that Carl Swelgin, I. W. W., arrested last year at Klamath Falls, has been interned for the duration of the war. This is the first instance since the war of a German-American being deprived of his citizenship for fraud in naturalization proceedings.

LAND WILL BE OPENED. Washington, June 13.—That the 150,000 acres of public lands in the Pertland district will be opened for settlement in compliance with the recent congressional act, was an nounced by the general land office to day. This announcement was made day. This announcement was made necessary on account of recommendation by Governor Withycombe and others, who suggested that the lands be withdrawn from entry and held for returning soldiers. The department of the interior could not concur in the suggestion.

John Freeman, a well known resident of this city, night before last received the sad intelligence of the death of his brother, Roy L. Free-man, of Silver Lake, Oregon. The deceased was the victim of an auto accident near his home on June 6. ruil details of the accident have not yet been ascertained, but it is known that the deceased who just the day before the tragedy had purchased a fine new automobile, had started with four other passengers, two ladies, one man and a six months' lactes, one man and a six months old baby, for Lake View, and from the word received here it is presumed that the unfortunate young man who was driving, was speeding and ran over an embankment.

All of the occupants of the car with the exception of the baby, who was unburt, were very seriously in-jured, and one of the ladies is not expected to live. The car was com-pletely demolished. The unfortunate man was operated upon in the hope of saving his life, but he did not re-

passes Kufa, with its beautiful mosque, built upon the spot where, according to popular belief, Jonah was cast up by the whale. Half an hour later, the traveller comes upon another shrine, the tomb of Ezekiel, revered by Moslem and Jew alike.

The next relic one passes is Birs Nimrud, a huge mound of earth with a rock-like brick foundation surmounting it, which according to Arab tradition, is all that remains of the Tower of Babel. But here the scientist comes in with his disappointing researches and tells as that it is merely a piece of work dating no further back than Nebuehadnazar. The tower remains in view until one enters Hillah, Here science and local traditions agree, and one may look upon the identical chamber look upon the identical chambel where Belshazzar saw the handwrit-ing on the wall.

Those who survived the July of 1917 can easily believe the story of Shadrach. Meshach and Abednego, or, if there is any doubt in their minds, it will concern only the arti-

ficial origin of the very turnace.

Babel, the mixing of the tongues and tanguages, is still in progress in Mesopotamia. Moreover, a new tongue is arising to increase the original confusion, a compact of English, Arabic and French. In the new tongue, railroad is called "shommin-duffer," a corruption of the French "chemin-de-fer". An automobile is called "stronbill" which is as near as the Arab can get to the English pronun cintion

The British soldier, too, is broadening his vocabulary. Two of the commonest Arab words, "imshi," or go, and "makoo," or there is none, have been adopted into army parlance. In Basrah one may hear the soldiers calling out for a "bill-bellam." Bellam in Arabic is a boat, and "bill" is the preposition "in," but and "bill" is the preposition "in," but Tommy Atkins is never a purest even in his own language.

Last October congress passed act known as the "trading with the enemy act," which provides that all property in the United States, need by allen enemies shall be confiscat-ed by the government and use the same to help our country instead of its being allowed to be used against her, making one of the most powerful war measures yet to be passed. Today the alien property custodian is seeking the aid of the legal forces of the nation to assist in carrying out

OFTRUE PATRIOTISM

Some People Not Yet Aware We Are Engaged In Cruel and Destructive War.

WE SHOULD WORRY"

While Blood of Others is Spilled on the Western Battle Front Seems to Be the Slogan Boldly Displayed Locally.

Chairman W. S. S. Committee.)

June 28 will mark another blg day June 28 will mark another blg day in the history of the United States, for on that day more than two billion dollars will be invested in war savings and tarift stamps. The quota allotted to Douglas county is \$480,-000, of this amount less than \$100,-000 have been purchased up to this date. This suggests that we have made this important war measure one for children only, while our poople of means have not made investments in those stamps, but the time has come now when every American citizen must get back of this drive, and put it over the top.

The fact of the matter is, we still have a bunch of people who do not

The fact of the matter is, we still have a bunch of people who do not know we are engaged in the most destructive and cruel war ever known to history. They have no sons or brothers in the service. Why should they worry—their attitude would acen to say: "Eat, (wheat flour), drink, (beverages made from food stuffs) and be merry (joy riding in machines which use the steel and from needed to equip more ships), for tomorrow toe other fellow's son or brother will die on the western battle front, that we may continue to eat, drink and be merry."

We have absolute proof that the

eat, drink and be merry."

We have absolute proof that the above selfishness is boldly exhibited right in the city of Roseburg and other places in Douglas county. The report is that certain peeple have been known to buy wheat flour substitutes in order to secure another sack of white flour, then deliberately waste the substitutes, refusing to become just common folk. Such cod fish aristocracy should be deported over to Berlin. Then we hear of over to Berlin. Then we hear of others who object seriously to this government interfering in any way with the German browers (for it is a well known fact that possibly 90 per cent of all browery stock is owned by the Huns), yet these patriotic peo-ple would not interfere with the dirty bunch, even though they do use large amounts of food stuffs in this large amounts of food stuffs in this way. Another report coming to the attention of this committee is of a certain party, not many miles away, who had invested several hundred dollars in war saving stamps, but just to gratify personal pleasure, withdrew this money from the treasary of the United States—money needed to carry on this war to a successful final, and invested in an automobile. We make this as a prediction, that before this war is ended there will not be an automobile manufactured for pleasure purposes, and the people who have nothing else to do but pleasure ride, will be forced into some industrial service, which will aid the government.

It is not right or just that our

It is not right or just that our boys should sacrifice all that is dear to them and lay themselves upon the altar of their country, and that a few confidently believed that at least as much more is still unreported. The duty of locating and reporting such property is placed by law not upon this office but upon the individual citizen at the more that I need your control to the country, and refuse to observe the demands made by our goverthe country, and refuse to observe the demands made by our government. ernment during these critical times There is more than one way to be

on June 28 in every school district in Douglas county there will be held a war saving stamp rally, and in this connection we wish to say that your real patriotism will be tested on that day. Every person in the county will be expected to attend these meetings. In Rossburg the meeting will be held in the new high meeting will be held in the new high school auditorium.
