There appears to have been some misunderstanding as to whether "Barney," a Kentucky saddle, ridden in the parade last week, was really entitled to that name, or whether the animal was owned by Mr. Dixon, along with four other horses that attracted attention of everybody. "Barney" may not be feminine, but the name answered very well, it being written so instead of "Bonnie." Mrs. Helen B. Harrison, also, should have been given credit with ownership of the horse, as it later developed, although this information was not given out to the reporter at the time.

BEST IN THE LONG RUN

The World's First Torpedo Failed

ITS inventor, David Bushnell, an American, in 1776 attempted to sink the British warship, Eagle. Bushnell towing his torpedo, charged with powder, by means of a hand-power semi-submersible, plunger to the hull of the attacked ship with a steel plunger; then explode it by clock work.

His torpedo—too much of an experiment—failed. Safeguarding the user against failure, Goodrich never markets an experiment, tires or anything else. Goodrich Tires, though built with the experience and skill of the oldest and largest rubber factory, are proved out by the practical road travel of Goodrich Test Car Fleets to make them in word and deed—

GOODRICH SERVICE VALUE TIRES

For Goodrich recognizes but one value in tires— their SERVICE VALUE on your car and on the road; one tire value—SERVICE VALUE. Whatever pounds of rubber and other material go in tires; whatever hours of work and skill, their VALUE to motorists is their SERVICE, in comfort, dependability and durability. And you are sure to get it if your tires are GOODRICH SILVERTOWN CORDS, or BLACK SAFETY TREADS. Make sure of economy and security in tires by demanding big, masterful SERVICE VALUE TIRES.
