Most people forget that the kidneys, like the bowels, get sluggish and elogged and need a flushing occasionally, else we have backache and dull misery in the kindey region, severe headaches, rheumatic twinges, torpid liver, acid stomach, steeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and elean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jail Saits from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. COMB SAGE TEA INTO GRAY HAIR | Heinline Piano School

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair hecomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful tollet requisits. It is not intended for the cure, migitation or prevention of disease.
