CHAUTAUQUA PRESENTS INSPIRING LECTURER

H. V. Adams Brings a Message of Constructive Power.

H. V. Adams, lecturer during Chautauqu week, is a man of varied life experience. He spent several years in newspaper work, working up from the bottom to the position of managing editor; has a degree as a lawyer and has been a member of the law faculty in one of the leading schools of the middle west, and has occupied a pulpit with unusual success for many years. His lecture reflects the broad sympathetic understanding of humanity which these various occupations bring to a man. With striking illustrations, illuminated by brilliant flashes of humor, Mr. Adams enforces the great truth that clean thoughts and a sound mind are the basis of all true manhood and womanhood and of all real success in life.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of inconsumable material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, forms toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin set clearer, and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
