**PROFESSIONAL TRAMP IS PUT OUT BY WAR**

ST. PAUL, Minn., July 29.—War has virtually blotted out the grimy trail of the professional tramp in the northwest, according to railroad officers and officials of states from Minnesota to the western coast.

The northwest tier of states, long the summer playground of the box car transient, have so rigorously enforced the "work or fight" order and other war measures, that the tramps, who formerly appeared in droves after having wintered in the cities, have been reduced to a few lonely stragglers.

"And the demand for labor is so keen that town policemen and village constables are quick to draft these stragglers and put them to work," declared an official of a railroad with headquarters here.

"The armed guards about railroad yards, bridges and tunnels have also been a thorn in the side of the care-free wanderer. He is in constant danger of becoming a target while loafing around his old haunts." In past years towns which were the headquarters of farm laborers were packed with professional gamblers, gun men and thugs who devised various schemes of fleecing the worker of his money. They mingled with the man, wore the clothes of the worker and could be weeded out by officers only with difficulty. The war has, in the opinion of the authorities, sounded the death knell of this small army which annually reaped a golden harvest.

**NOTICE**

The Rabekah lodge will hold a session Tuesday evening at 7 o'clock. Adjournment will be taken until 8 p. m., Wednesday evening, at which time Mrs. Jennie Burke, of Grants Pass, will be present to address the lodge. All members requested to be in attendance. 330

**VALUE OF WATER TO FRUIT.**

CORVALLIS, July 29.—Water plays an important part in the development of fruit. Few fruit raisers understand the effects of too much water, too little water or irregularity in the supply of moisture upon the activities of the tree, while most growers fail entirely to appreciate the relation of water supply to abnormalities in the development of the crop and to the occurrence of such so-called physiologic diseases as "bitter-pit" and "cork," points out H. P. Bars, of O. A. C., commissioner for the west, war emergency board of American plant pathologists. An article on "The Abuse of Water on Fruit Trees," by D. F. Fisher, may be had on request from the office of fruit disease investigations bureau of plant industry, Washington, D. C., or from Prof. Bars, who has a limited supply. past few weeks.

**MYRTLE CREEK NEWS.**

Mrs. I. V. Cozine and son, Glenn, are visiting the Campbells in Forest Grove, and will make a visit to Mr. Cozine in Bremerton before returning home.

Mrs. Hendry, of Eugene, is visiting here with her daughter, Mrs. Bisbee.

Dr. Forbes' sales on Saturday afternoon was well attended and almost everything was sold at a good figure. H. J. Bailey went to Canyonville Sunday to attend the funeral of his sister, Mrs. Harriet Jackson, who died there Friday night. The funeral which was held Monday at two p. m., was attended by quite a large number of relatives and friends from Myrtle Creek.

Paul Froehlich and Paul Jr., expect to start for Portland this week, and enroute will visit with friends in Albany.

Mr. and Mrs. Beckley visited friends in Gazley last Sunday.

R. H. Wakeman visited here with his family the first of this week.

Mr. and Mrs. L. E. Russell and Mrs. Walter Russell expect to start soon on a motor trip through the Willamette valley, having Portland as their destination. Their journey will be made in a leisurely way, however, as they will do a good deal of visiting in various places. X

**GLIDE MAKING PLANS FOR COMMUNITY FAIR**

John Alexander was in the city from Glide yesterday conferring with Superintendent O. C. Brown and County Agricultural Agent C. J. Hurd, regarding the big community fair to be held at Glide, August 30. Mr. Alexander states that a committee has been appointed at Glide, and the community is being well organized for this fair which they hope to make a splendid success. It is expected that the neighboring communities to Glide will organize for co-operation with that community in this excellent movement. The exhibits will be placed in the Glide church, and a basket dinner will be given in the grove next to the church. Yoncalla has also accepted the invitation of the county committee for a fair there. Details as to the arrangements made for the Yoncalla fair have not yet been received.

**Hot Water Each Morning Puts Roses in Your Cheeks**

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, forms toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

**Profits and Prices**

Profits may be considered from two angles:

- 1st—Their effect on prices;
- 2nd—As a return to investors.

When profits are small as compared with sales, they have little effect on prices.

Swift & Company's profits are only a fraction of a cent per pound on all products sold, and if eliminated entirely would have practically no effect on prices.

Swift & Company paid 10 per cent dividends to over 20,000 stockholders out of its 1917 profits. It also had to build extensions and improvements out of profits; to finance large stocks of goods made necessary by unprecedented requirements of the United States and Allied Governments; and to provide protection against the day of declining markets.

Is it fair to call this profiteering?

Swift & Company, U. S. A.
