The best kodak finishing. Clark's Photo & Kodak Shop.

**DRINK HOT WATER AND RID  
JOINTS OF RHEUMATIC RUST**

Why rheumatism and lumbago sufferers should drink phosphated hot water each morning before breakfast

Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste material, toxins and ptomaine-like poisons, called uric acid, is formed and then sucked into the blood where it continues to circulate, collecting much like rust collects on the hinge as shown above.  
Men and women who suffer from lumbago, rheumatism or sore, stiff, aching joints should begin drinking phosphated hot water, not as a means to magic relief from pain, but to prevent more uric acid forming in the system. Before eating breakfast each morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This will first neutralize and then wash out of

the stomach, liver, kidneys and bowels the previous day's accumulation of toxins and poisons; thus cleaning, sweetening and freshening the entire alimentary canal, each morning, before putting more food into the stomach.  
A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to make any rheumatic or lumbago sufferer an enthusiast on the morning inside bath.  
Millions of people keep their joints free from these rheumatic acids by practicing this daily internal sanitation. A glass of hot water with a teaspoonful of limestone phosphate, drank before breakfast, is wonderfully invigorating; besides, it is an excellent health measure because it cleanses the alimentary organs of all the waste, gases and sour fermentations, making one look and feel clean, sweet and fresh all day.  
Those who try this for one week may find themselves free from sick headaches, constipation, bilious attacks, allowness, nasty breath and stomach acidity.

**CHANGING OF TIRES  
SAVING AUTO OWNERS**

Do you know that your right rear tire wears faster than the other three. Well, it does. Have you ever stopped to think of the reason for it? The answer is furnished here by the B. F. Goodrich Rubber Company, together with some timely advice on interchanging tires to realize maximum wear from your entire set.  
Since your power and traction come from the rear wheels your rear tires get the hardest wear. You drive on the right side of the road and roads are crowded—your car, nearly always, is slightly tilted—more weight being on that side—therefore your right rear tire takes hold, first and bears more traction than the left rear.  
When in motion the left rear tire rolls along comfortably on the smooth middle portion of the road, while the right rear gets the rough going on the off-side—the sharp edges of the asphalt, the rocks and ruts and is more likely to encounter objects thrown on the side of the road. Then again the rear tire bears the brunt of the stopping, sometimes sliding—a majority of the wear falling on the right rear.  
The tire receiving the next hardest usage is the left rear, then the right front and last the left front. So when your right rear begins to show signs of wear, and you wish to spare it, put it on the left front wheel. And likewise change your left rear to the right front.

On Mondays, Wednesdays and Fridays of each week Oregon grown strawberries will be on sale at our store until further notice. Neely & Neely, the grocers.

W. F. BOGGS, Roseburg, Or.

**LITTLE GIRL HURT WHEN  
AUTO BOLTS FROM ROAD**

While operating an auto on the west side Sunday afternoon, T. E. Gill, in endeavoring to avoid running down an old soldier, who was walking in the middle of the road, permitted the machine to get away from control, and the thing broke through the Bellows pasture fence, and in careening down over the hill threw out two of the Gill children, both of whom were badly hurt. Irma, the little daughter, suffered three fractures of the right arm, while a small son had his face badly peeled and disfigured. The injured children were taken to their home and Dr. Shoemaker called, who did everything possible to alleviate their suffering. By some miraculous manner the machine did not overturn, and Mr. Gill and the oldest boy were not thrown out. Where the auto went through the pasture fence several rods of the wire were torn out.

**MONDAY IS BARGAIN DAY.**

Monday is bargain day at the Roseburg Cleaning and Pressing Works. Men's suits, French Dry cleaned and pressed for \$1.00. All work given prompt attention. Bargain day prices do not include calling for clothes or making deliveries. Bring your clothes in.

**SUTHERLIN HAPPENINGS.**

Supt. H. Omer Bennett and family are now comfortably settled in one of Kirkland Bros' new residences on Uniqua street.  
Ernest Umath and Miss Elsie Wettstein were in Sutherland last Thursday from Roseburg in the interest of the Roseburg Soda Works. This popular concern is doing a good business, and it is deserving it, for its products are strictly pure and of the highest quality.  
Russell Richardson, son of Mr. and Mrs. D. F. Richardson, who is in the U. S. navy, and at present stationed at Mare Island, Calif., enjoyed a ten-day furlough with his parents recently.

ly. Russell says the navy life is all right—it puts vigor into a fellow.  
F. B. Waite received a letter last Saturday from his son, Fen, who is now with the American expeditionary force in France. In alluding to some French locomotives which he saw recently, Fen states that they are small and wheezy and have a close resemblance to an overworked peanut roaster.

Mrs. W. J. Phillips and children, of North Bend, accompanied by Miss Margaret Newman, arrived here last Friday evening and will spend a few weeks with Mr. and Mrs. W. E. St. John at Forest Lodge. Mrs. Phillips has many friends in Sutherland who are always pleased to welcome her to this valley.

While Theodore Anderson was temporarily absent from his place of business on Calapooia street one day last week, some sneak thief entered the front door and walked away with a five-pound jar of candy which was sitting on a show case. A knife belonging to Ed Garvatis which was picked up in another portion of the building about the same time was recovered. Ed. went after the suspect and made him "dig up."

Prune now for Better Fruit next year. Product the Terminal shoot. Work done by one who knows how. Prices right and reasonable, write Louisa H. Borgold, Roseburg, Oregon.

**MITCHELL**

**The Greatest Six!**  
40 horsepower motor, 120 inch wheel base, uniquely distinctive in its long, low lines, new enduring finish, shock-absorbing springs, extra complete equipment, uncommon luxury, unexcelled, strong and sturdy—most economical! You are welcome to a demonstration.
