IT IS A GREAT TEST.

America stands on the threshold of a great adventure and a great test. Adventure abroad—where our army is poised for a plunge into territory long held as German soil—through what must be the flower of Germany's troops. If the Kaiser is not at once to concede defeat, a scorching test abroad—since our first American army, released from the tutelage of French and British war experts, must pit its own newly acquired skill against the hoche-past-masters. Glorifying in the valor revealed at Cantigny and Chateau Thierry, secure in the strength of the millions of other Americans hurrying to the battle front, our army is impatiently and confidently awaiting the issue. America at home faces as great a challenge in the fourth liberty loan, and as great a test. The huge size of the loan—whether for six or eight billion dollars—it outstrips all precedent—thrills our imagination and rouses us to our most extreme efforts that it may be "put over" in the short time set. A searching test—since it will reveal inexorably just how much in earnest America-at-home is in its desire to crush autocracy into the mud of this winter's battlefields. Germany will laugh if more than the allotted three weeks is required to raise the minimum sum called for. Germany will tremble at the news of an oversubscription in less time. The loan is not a large one when the huge resources of the United States, \$250,000,000,000 are considered. The oversubscription of the fourth liberty loan will require less than a fifth of the annual income of the country, now estimated at \$50,000,000,000.

Workers at home have the responsibility of producing supplies for American soldiers now fighting in six countries—France, Germany, Russia, Austria, Italy, and Belgium. American artillery has been reported on the French line opposite Mulhausen, several miles inside the border of the German empire. The Yanks are supporting Italian sectors at the end of Lake Garda, and their flyers have maneuvered over the lowlands near Venice. In Belgium they are fighting with Australians, and they form an army corps engaged in France. They are at Vladivostok and on the Murman coast. Far-reaching in its responsibilities, labor is now put to a supreme test that will find it able to support the millions in the field.

HELEN GUEST, Leader.

A steady job at hard labor looks good to many a man now who before the recent draft was content to "let things slide." The work or fight slogan is not devoid of good results even in good old America.

Don't miss a good address this evening. Captain Seddon has a message that will encourage you to do your bit in helping to down Prussianism for all time to come.

If even an average of one-half teaspoonful of sugar is left undissolved at the bottom of the cup, the waste would amount to 1,700,000 pounds of sugar daily.

The boys at the front are getting about \$30 per—with a generous supply of Hun lead thrown in. They are giving their lives—what are you doing?

Canada has gone us one better on sugar conservation. The Canadians are down to a pound and a half per person per month.

Don't overlook the four-minute men when passing the bouquets around. They're on the job all the time.

It is getting to that point where we must give until it hurts.

It must be put over—and the "put over" must be prompt.
The Douglas county prune is now king of the Umpqua valley.

If It Paid to Wear "Cheap" Garments

wouldn't Uncle Sam provide his soldiers with the cheapest uniforms that could be purchased?

ISN'T it a fact that the better garments give you the most pleasure, the most service, and are the most inexpensive in the long run.

"The Palmer GARMENT"

s one that never fails you. Always right in style, it has an individuality of its own but at the same time renders service.

A Great Victory

The news flashed across the ocean that every person subscribed his quota in the 4th Liberty Loan IMMEDIATELY upon the opening of the drive—will do more to encourage our boys than a 10 mile advance on the line. They'd KNOW our patriotism is not the "Blank Cartridge" kind.
