TERM THREE SAYS "YES".

The attitude of the Toy Manu-
 facturers of the United States, who are
 holding a conference in New York,
 toward the shipment of 4,000 cases
 of German toys recently arrived at
 that port is indicative of the public
 feeling against German importations
 in general. Some of the dealers to
 whom the shipment is consigned have
 signified their intention not to accept
 the toys. The conference has adopted
 resolutions "with the hope that all
 loyal Americans will emulate the
 splendid example of those dealers
 and steadfastly refuse to accept,
 distribute or use toys made by a
 nation of fiends."

Yet the German trade with this
 country in toys and other products
 is precisely what the President
 wishes to perpetuate. That is the
 official interpretation placed on his
 Peace Term No. 3, in which he favors
 the elimination of all economic bar-
 riers among nations. Senator Hitch-
 cock of Nebraska, democratic chair-
 man of the Foreign Relations Com-
 mittee, has declared the President's
 language to mean that if Term No.
 3 becomes a part of the treaty of
 peace "it would be then improper
 for the United States to adopt a tariff
 discriminating between nations." In
 other words German toys would
 come into this country on precisely
 the same terms as similar importations
 from France or England, and
 other products would receive the
 same generous treatment.

The American people see a differ-
 ence between toys made by a nation
 whose soldiers find pleasure in en-
 ticing off the hands of children and
 impaling babies on their bayonets,
 and those manufactured by the
 peasants of a country that has en-
 dured the trials and sacrifices of
 France. As indicated by the action
 of the association of toy manufactur-
 ers in New York the people will de-
 mand that the German products be
 kept from their markets, in spite of
 the attempt of the President to bring
 them in on an equal footing with the
 manufacturers of other countries.
 If Mr. Wilson wishes to avoid an
 overwhelming storm of disapproval,
 he will do well to put the soft pedal
 on all further mention of Term
 No. 3.

It will be remembered that not
 many months ago the Shipping Board
 had in charge of its design of wooden
 ships one Mr. Ferris, a man of large
 experience and ability in his profes-
 sion. Difficulties arose between Mr.
 Ferris and the officials of the Board
 with the result that he was forced
 to sever his connection with the gov-
 ernment. But some of his ships
 were built and placed in service. The
 Coyote, one of the first of the Ferris
 type ships, has recently completed
 a voyage to a North Atlantic island
 with a cargo of coal weighing 3,022
 tons. During the trip she passed
 unscathed through the worst hurri-
 cane that has visited those waters
 since 1899. The Coyote bears several
 distinctions. She is the first wooden
 ship to be turned out at an Atlantic
 yard, the first to make a voyage with
 cargo, and the deepest draft vessel
 ever taken into the harbor of the port
 she visited. Naturally Mr. Ferris,
 her designer, must feel a certain
 amount of satisfaction that his ideas
 have been so thoroughly proven.
 Those responsible for his separation
 from the service would have done
 well had they ignored the comparat-
 ively inconsequential causes that
 brought about that action, and re-
 tained in the personnel of the Ship-
 ping Board an expert of such demon-
 strated ability.

**SURVEY OF CITY FINDS
 44 NURSES ENROLLED**

As a result of the recent survey
 for nurses in the city made by the
 teachers of this district, it was found
 that Roseburg has four graduate
 nurses, five undergraduate nurses,
 four midwives, 15 practical nurses
 and 16 women who have taken the
 Red Cross course offered from time
 to time. This makes a total of 44
 who have become enrolled in the cen-
 sus for nurses being taken in this
 town for the information of the gov-
 ernment. This does not mean that
 those who have filled out the blanks
 have in any way bound themselves
 subject to call from the government,
 although it is possible that some of
 them will be asked, not compelled,
 to offer their services. In an article
 in the Portland Telegram Tuesday
 it was stated that 10,000 nurses were
 now needed by the government for
 the various hospitals and reconstruc-
 tion camps at home and abroad.
 Should the war continue until spring,
 25,000 will be needed and it is ob-

vious that the need for care for the
 sick and wounded will be great and
 it is not anticipated that whenever
 it is possible, one woman who is able
 to give her services to this noble
 cause, will be found shirking her
 duty and responsibility.

**URGES SUPPORT OF
 UNITED WAR SERVICE**

The above statistics do not include
 the Fullerton and hospital districts
 as the reports for those sections have
 not yet been received by Superin-
 tendent Smith.

In a telegram just received we are
 advised that the executive committee
 of the United War Work Campaign
 has asked for a fifty per cent increase
 in the amount previously asked for,
 making the grand total approximately
 two hundred and fifty million dollars,
 of which Douglas county's quota will
 be \$30,000. Since the budget was
 agreed upon four months ago, the
 size of our army has almost doubled.
 The possibility of an early ending of
 the war increases the urgency for the
 greater work by the seven societies
 represented in the coming drive. Doc-
 tor Mott says that the things that
 weaken the morale are war-weari-
 ness, idleness and uncertainty. We
 must strengthen the morale by phys-
 ical comforts, contentment, enter-
 tainment, change and refreshment of
 mind, and above all the backing at
 home, and pure religion.
