CO. COURT ADJOURNS VERY BUSY SESSION

After one of the busiest sessions to be held for many months, the County Court adjourned last night, having completed the business for the term. Aside from the usual routine the chief matter of importance was roads and this question is one which caused a great deal of discussion and agitation. During the past few years, in which County Judge Marsters has been at the head of county affairs, more roads have been built and improved than ever before in the history of the county and if the policy of the present court is carried out, Douglas

County will have the best system of highways of any county in the state. So, judiciously has the court acted, that practically every cent spent by the county has been more than matched by the State or Government and millions of dollars have been spent in the past and will be spent in the future on the thoroughfares of the communities. The court has decided to advertise for sale, the remainder of the authorized road bonds and expects to spend the greater part of it during the coming season on construction, which has been ordered and which will become links in permanent highways. The policy is to build good lateral roads into each district of the county and build them in such a manner that they will not be a continuous expense and liability but an asset to the county.

Headache

Do you know that Nine Tenths of our headache troubles are caused by eyestrain, and can be relieved by a correct fitting pair of glasses. You may see perfectly though painfully, if so your eyes need attention and need it badly, if they are to last. So it would be wise to have them examined and glasses fitted, and the Best Place is

SENATOR B. L. EDDY HOME FOR WEEK END

Senator B. L. Eddy, returned this morning from Salem, where he has been attending the sessions of the State Legislature, and will spend the week-end with his family in the city. Senator Eddy says, that the Senate and House are working industriously and have disposed of a great quantity of work in the time they have been in session. At the present time many items of interest are pending before both houses and several bills of more than ordinary importance are under discussion. There is a great deal of interest in the Road Bond Issue Bill and the senators and representatives are acting very cautious.

BOLSHEVIKI AGENTS SPREAD PROPAGANDA

"Bolsheviki Men's Majority", "Who are the majority?" "The Workers", "Let the Workers rule this nation", "Join the I. W. W.", Such is the propaganda being scattered broadcast throughout the country by the agents of the "Red Terror", who are even now baring their fangs in an attempt to paralyze the industry of the Pacific Coast. No community is immune from them and they have even resorted to the spreading of inflammatory literature, such as the above through the cities of the coast. The card with the above words was taken from a transient this morning by Chief of Police Shambrook who immediately told the individual that his class was not desired in Roseburg, and conducted him out of the city limits. The wanderer stated that the cards were being used freely among the strikers of Seattle, where he has been located and that every member of the organization carries them. After questioning the fellow about his destination and examining him as a suspect of a recent burglary, he was sent out of town with an admonition to "stay out".

MARSHFIELD MILL TO RESUME WORK

MARSHFIELD, Ore., Feb. 8.—Reports about the city that all operations of the C. A. Smith Co., had been ordered closed in this district, were emphatically denied by General Manager A. G. Stearns. The Eastside mill, said Mr. Stearns, was closed because of the lack of oil for fuel, due to the impossibility of the oil tanker, Whittier, crossing the 'disturbed bar'. That the plant will run as soon as the Whittier delivers her cargo, was the assertion of Mr. Stearns. Concerning the large mill, a telegram was received from Messrs. Bole and Denman last night, said Mr. Stearns, order in the reconstruction work going on in that plant stopped until their arrival which is expected tomorrow. This, in Mr. Stearns' belief, is due to the fact that the receivers wish to overlook and supervise the work themselves.

INCORPORATE LIGHT AND POWER PLANT

Incorporation of the Reedsport Light and Power Company to supply power to Reedsport, was announced yesterday by C. McC Johnson, prominent mill man of the thriving Umpqua town, who arrived on the Bay for a day of business, says the Coos Bay Times. C. McC Johnson, Warren Reed and Isaac Staples, the latter a Portland man, who is president of the new Reedsport Bank, are the incorporators and the sum named is \$10,000. Within 60 days the plant will be in operation, according to present expectations.

GOLD BEACH HAS DISASTROUS FIRE

GOLD BEACH, Ore., Feb. 8.—In the most destructive fire in the history of the town, the business center of Gold Beach was wiped out with a loss of between \$20,000 and \$40,000. The Gold Beach Hotel, the Wedderburn Trading Company store, the Drug store, the Hardware store and the Curry County Bank were all burned, these buildings containing the offices of County Judge W. A. Wood and District Attorney C. H. Baflington and the Coos-Curry County telephone exchange. Fire originated in the Hotel and was fanned beyond control by the strong wind. All destroyed houses were good, substantial buildings the most of them being of recent construction. There was very little insurance on any of the buildings.

ALEXANDER BRIDGE IN NEED OF REPAIR

It has been reported to the County Court, that the Alexander Bridge, in the southern part of the city, is in a very dangerous condition and badly in need of repair. On account of this bridge being private property, no action could be taken by the court to cause the needed repairs to be made. It was stated that the structure is badly out of line and is leaning to a very noticeable extent to the south and that the passage of a vehicle over it, causes it to vibrate dangerously. The bridge is situated at the City limits, across to the Alexander addition, which was opened only a few years ago. At the time the property was placed on the market, the bridge was built from private funds and an effort made to induce the city to purchase it together with a large and beautiful park site. The city, however, turned down the proposal and the bridge remained private property out of the jurisdiction of the court.

CAR LUMBER LEAVES RAILS AT RICE HILL

The derailment of a box car full of lumber, attached to a south bound freight, near Rice Hill early yesterday evening, resulted in the calling out of the local wrecking crew. An effort was made to replace the car on the rails, but failed on the first try and a message was sent to the city, calling for the crane. The wreck whistle was sounded and the crew responded promptly, but before leaving the city word was received that the train crew had replaced the car and the train was proceeding on its way.

Sutherland to Have Saw Mill. A saw mill with a capacity of 10,000 feet daily is to be established at Sutherland in the near future. The mill is being built by B. H. Lee, a recent arrival from Portland. The principal product will be railroad ties and bridge planks.

Returns from Portland. Mrs. C. H. Davies, of Vogue, has returned from Portland, where she has been attending the military openings and lectures given by Ora Cene, the noted man milliner. Mrs. Davies says these lectures were very interesting and instructive.

Examinations in Progress. Special 8th Grade examinations are being given this month, owing to the fact that the influenza quarantine, delayed the year's work to a great extent and hindered many pupils from taking the examinations when they were first given.

Pastor Receives Call. Rev. Paul J. Lux, who for many years was pastor of the local Presbyterian Church, has received a call from the Church at Ellensburg, Wash., where he is now situated with his family, according to word received in this city today.

Marshfield Elks Build. At a meeting of the Marshfield Lodge of Elks last evening, attended by over 150 members, a movement to build a lodge home in Marshfield was launched by Dr. Geo. E. Dix. A rising vote of the lodge was called for and it received almost unanimous endorsement. The Marshfield lodge has had the matter under consideration for the last few years, having postponed it owing to war conditions. With the ending of the war, condi-

Evergreen Grange Tonight. The Evergreen Grange will meet tonight at the hall at Myratt's Corner, an interesting program having been arranged for the evening's work. At a previous meeting sides were chosen for a debate on the subject, "Resolved that Art is more Beautiful Than Nature." The judges will be Earl Peary, County Fruit Inspector, C. J. Hurd, County Agricultural agent and C. H. Bailey, State Grange Deputy.

Roseburg Wins Game. In a one-sided game of basket ball the Roseburg High School defeated the Drain representatives by a score of 34 to 7 last evening. The locals kept the visitors guessing and it was only by "flukes" that the northern lads even got hold of the ball. The team work of the local team was startling and the Drain boys were outclassed from the start. In the girls' preliminary the juniors defeated the sophomores and seniors by a score of 19 to 8.

Buys Marshfield Home. G. W. Gage of the firm of Gage & Chaney, operating the Bunker Hill Jitney line, recently completed negotiations for the purchase of the home of Mrs. Ellen Snedden at 955 West Seventh street in Marshfield at a price between \$2,000 and \$3,000. The residence is an eight-room modern house on a 50x140 foot lot which has been well planted to a garden. Mr. Gage expects to move in by the end of the month, but interior improvements will first be made. Mr. Gage came from Roseburg several years ago and almost immediately engaged in the Jitney business.—Coos Bay Times.

Bliss Singleton Writes. Ed Singleton of Dole, has received a letter from his son, Bliss, in which is enclosed a newspaper clipping, telling of the Christmas Festivities at the hospital, where he has been stationed since being wounded. This hospital until recently was one of the largest in the world, being located at Allery where over 15,000 wounded soldiers were entertained Christmas Day. The hospital is one of the most efficient of all American institutions and the death rate has been exceedingly low. Twenty thousand men have been treated there at one time. Bliss, was wounded in the hand and arm at the Argonne Forest drive and has been in the hospital since that time. He says his arm is almost healed, but that his hand is still sore. They were notified that they would be sent home, but when the officer came to their ward to pick out the men he chose only two. It will be a month or more probably before he leaves France.
