SATURDAY, MARCH 15, 1919.

ALIEN COLONIES.

The big majority of the foreigners who come to this country show an eager desire to Americanize themselves. They are pathetically anxious to acquire knowledge of English.

The president of the United States Food Administration Grain Corporation protests that America shall not place the power to name the value of its products in the hands of any concentrated buying agency.

The socialists swear Eugene Debs will be liberated from jail. Why not? The administration has seen fit to give the conscientious objector a fine "handy-dandy" and a nice, snug little bonus.

No sooner is one vice disposed of than another elms the ladder to take its place. John Barleycorn is breathing his last and the latest wrinkle among some of Roseburg's fair sex is the clever manipulation of cigarettes.

A man over at Marshfield has paid a fine of thirty bucks for stealing a pair of shoes. A few years ago he would have paid only half of this amount for stealing a whole calf.

Sunday, March 30, the daylight savings law goes into effect again all over the nation. This is only an "eyepopper" for the tardy snoozer.

Since the first of the present year there has been an excess of six inches in the annual rainfall. This ought to be enough to satisfy most people.

A local teacher said she always liked the children in her room to "appear fresh in the morning." Some we know are that way all the time.

The exact date when spring plowing will commence is still quite indefinite—but it is not too early to polish the plow share.

Yes, all Douglas county needs a co-operative cannery—with a solid foundation under the co-operative.

The only person who seems to worry much about his future is one who is never going to have any.

The only trouble with folks is that they don't have common sense. But who is going to be the judge?

And the poet is silent on March weather—but the weather man is on the job all the time.

A modiste is so-called because her prices never and styles seldom are.

Self-praise not only is half scandal but sometimes is wholly an untruth.

A WOMAN'S SLIPPER or shoe is the most difficult job a shoe repairer has to face. Besides the actual repairing and reconstructing of the sole, heel, instep and upper, women demand that their worn slippers and shoes be reshaped—restyled, if you please—which is the work of a shoe manufacturer. But we do it, and successfully, too. W. S. HOWARD 214 N. JACKSON ST.
