FARM LOANS—Long time. Low rate. Repay all or part any time. I have a large amount of eastern insurance money to loan on good farms and can close loans quickly. You have 20 years' time and by paying a trifle more than interest each year your loan is paid in full, and you are out of debt. You can pay all or any part any time. No local organization required or the advertising of your business to your neighbor, or of going security for their loans to get yours. No red tape, delay or cash commission. Let me explain my plan to you. See M. F. Rice, of Rice and Rice.

THERE'S WORK EVERY DAY ON ANY FARM for the

Cutting Ensilage

Spreading Manure

Cultivating Corn

Mowing

Loading Hay

Digging Potatoes

Harvesting

MOLINE UNIVERSAL TRACTOR

It Solves The Farm Help Problem

You can make more money with the Moline-Universal than any other tractor because it can be kept at productive work more days a year—no matter how large or small your farm or what crops you grow. This is because the Moline-Universal is built to fit the farm and every operation on the farm. It is not limited to a few operations, nor to certain classes of work.

The Moline-Universal will do anything any other tractor will do and in addition an infinite variety of work impossible for any other tractor. You can find work for it every day in the year. If for no other reason than the fact that the Moline-Universal will do more and better work and can be kept busier than any other tractor, it is your best buy.

But the greatest advantage of the Moline-Universal is that one man controls both tractor and implement in all operations. You sit on the seat of the implement, where you must sit in order to do good work, and control the entire outfit. This means that you can farm more land than was ever before possible, with either horses or tractor.

The wonderful versatility and one-man control of the Moline-Universal are due to its two-wheel construction. It attaches direct to the implement and forms one compact unit with it—the tractor front wheels and the implement the rear wheels. Every control on both tractor and implement is within reach, making easy handling of the entire outfit, which can be turned in a 16-foot circle, and backs as readily as it goes forward. A boy or woman can handle it as well as a man.

Due to its two-wheel construction, which makes all its power available for pulling and greater speed, the Moline-Universal Tractor will do as much work in a day of ten hours with two 14-inch plow bottoms as the average three-plow tractor.

The high clearance of the Moline-Universal Tractor, as great as that of the average cultivator, and its light weight make it perfectly adapted for cultivating. With a two-row cultivator, it cultivates from 14 to 30 acres a day. There is hardly anything on the farm that it cannot do. For odd jobs it is converted into a four-wheel unit by means of a rear carrying truck, to which any implement on the farm may be attached in the ordinary way.

From a mechanical standpoint, the Moline-Universal Tractor measures up to the very limit of modern engineering knowledge. Perfected overhead-valve four-cylinder engine, complete enclosure of all working parts, electric starting and lighting system with electrical engine governor, and differential lock are only a few of the many improved features. It will pay you to stop and examine this latest and best of all tractors the next time you are in town.

What you pay out your good money for is cigarette satisfaction—and, my, how you do get it in every puff of Camels!

EXPERTLY blended choice Turkish and choice Domestic tobaccos in Camel cigarettes eliminate bite and free them from any unpleasant cigarette aftertaste or unpleasant cigarette odor.

Camels win instant and permanent success with smokers because the blend brings out to the limit the refreshing flavor and delightful mel-

low-mildness of the tobaccos yet retaining the desirable "body." Camels are simply a revelation! You may smoke them without tiring your taste!

For your own satisfaction you must compare Camels with any cigarette in the world at any price. Then, you'll best realize their superior quality and the rare enjoyment they provide.
