Silver Steel

War in past and government has allowed the manufacturers to resume their commercial business.

We have the first shipment in that we have had for three years.

Remember SILVER STEEL is the very best grade of American Enameled Cooking Ware

If you doubt it, all we ask is that you give it a good fair trial. It is made over a heavier plate than most other enameled wares, and the enamel is of a tougher texture.

We have a good stock of all the cooking utensils usually needed. Sauce pans and kettles from 2 quart size down. Dish-pans from 21 quarts to 10 quarts.

Baby baths, pails, steamers, fruit jar fillers, and—O, well, just drop in and look it over.

WHY MANY BOYS LEAVE THE FARM

(By Associated Press.)
CORVALLIS, July 15.—"One young fellow who applied for work when men were not to be had was asked if he had ever lived on a farm," writes C. C. Calkins, county agent of Sherman county in the June Oregon Countryman.
"O yes, all my life," he said.
"A farmer out here wants someone to drive six horses; can you do it?" he was told.
"Don't know; I could harness them, but never drove a horse in my life."
"What! Didn't your father have any horses on the farm?"
"We had horses all right but dad would never let me drive; he always held the lines."
Further questioning revealed the fact that dad still owns the farm but hires some other father's son to run it while George is away in a state that is not his home, looking for work because dad just has to hold the lines.
Other boys tell the same story in different words. "It's all dad's farm," sighed one young lad. "It was my calf but dad's cow, said another.
"It isn't enough to give the boy nine months of schooling; give him a chance at the farm business; even if he doesn't want it, it's up to dad to create and fill the want.
Experience shows us that if you want the child at home this has got to come. The letter head that used to read "J. C. Brown, Shorthorn Breeder," must be changed to read "Brown & Sons."
And then dad has got to play the game.

FIND OUT WHAT YOU ARE GETTING

When about to buy land, ascertain first of all, what you are getting. Since the tract of land was first granted by the Government, it has probably passed through many hands, there have probably been many opportunities for flaws in the title to appear.

If such a title is imperfect, good business judgment will tell you to have it corrected before you buy. The only way is to demand an abstract made by a reliable abstracter. By a reliable abstracter, is meant a searcher with his own plant, containing all records carefully indexed and recorded in such a way that it is practically impossible to permit an error. The added value of an abstract made by a searcher having his own plant results, from the fact that he has an immense sum of money invested, which together with his business reputation is at stake.

Such a searcher's abstract passes muster everywhere. Douglas County Abstract Company, Incorporated. Only complete set of abstract records in Douglas County. 1-19
