## YOUTHFUL BANDIT ATTEMPTS ESCAPE

### Makes A Second Attempt To Break Jail By Trying To Go Through Skylight.

## HIS BODY IS BRUISED

### Willis Carter, Auto Robber, Is Determined To Get Away From Authorities but Is Foiled in Latest Attempt.

Willis E. Carter, the youthful auto bandit captured in this city last week and later taken to Medford to answer larceny charges there, made a desperate attempt to escape from the Jackson county jail Monday night according to information brought to this city today by Frank Rogers, special agent for the Southern Pacific company. Carter attempted to escape from the city jail here the first night he was incarcerated there and when taken to the county jail was searched and a rough key he had made during the night was found on his person along with a file, screw-driver and a pair of pliers. However, his crude attempts to escape here do not compare in any particular with his latest break at Jacksonville, and the details of it would make thrillers for any scenario writer.

### Goed Thru Skylight.

According to the story brought here, Carter succeeded in tearing his way to the ceiling of the jail and loosening the skylight. The opening, however, was too small to allow him to crawl through although he squeezed in a desperate struggle to make it. Finding that it would be impossible to crawl through the small opening with his clothes on, he stripped his raiment, and wearing the uniform of Adam he made a second attempt. During his attempt, a jail break he was being watched by Sheriff Terrill and two nightwatchmen, who did not interfere with his efforts and decided to wait and see the fun. Without his clothes he was able to squeeze part way through the opening, but in so doing tore the skin loose from his shoulders and back, showing conclusively that the clearance in the skylight was a little less than nothing.

### Pulled Back to Cell.

He had succeeded in getting his shoulders up above the skylight when the sheriff entered the jail fearing that the nightwatchmen outside, who had their guns leveled on him, would shoot him to bits. The sheriff grabbed him by the legs, shoved a revolver against him and said, "You'd better come out this way, Carter." Poor old Willis, evidently disgusted with the failure of his attempt, squeezed back down into the cell and fainted. It was with some difficulty that he was revived.

### Hearing Held Today.

City Marshal Shambrook left today for Medford, where he will testify in the hearing of Carter. An indictment against the youth will probably be returned this afternoon. The officers of Jackson county are keeping a close watch on Carter and will prevent his escape if possible. The sheriff from southern California should arrive here today with the extradition papers.

### Took a Chance.

The Medford Tribune gives the following concerning the jail break of Carter: "You can't win unless you take a chance," said Carter in an interview today. "If you can't win you might as well quit." The prisoner was in a jovial mood and laughingly discussed with the sheriff and a reporter his frustrated plan to escape. "Why, those fellows in the yard nearly fell over themselves in getting into position to shoot at me," he said, "and quickly started to crawl back down through the skylight into the jail when the sheriff appeared below me with his gun pointed at me. There I was between the devil and the deep sea. I was mighty glad to come down into the jail again."

Carter was arraigned in Justice Taylor's court this noon but the arraignment was continued over until Wednesday afternoon because Prosecutor Roberts desired to have Chief of Police Shambrook of Roseburg subpoenaed as a witness. In the meantime the prisoner is held in \$1500 preliminary bail.

In the informal discussion with Prosecutor Roberts of his case, Carter showed exceptional shrewdness and familiarity with the criminal laws, especially of California. Prosecutor Roberts is undecided yet whether to hold him to answer to the Medford charge against him, or give him up to the Los Angeles police who are expected to arrive here tomorrow, to be prosecuted in that city on the serious charges against him. The prosecutor feels that he has a sure case against Carter here, and will not probably give him up unless he is convinced that the Los Angeles police have a sure case.

It is no doubt fortunate in more ways than one that Carter's attempted escape last night was frustrated, as with his leg shattered by a Los Angeles policeman's bullet five weeks ago, if he had dropped from the jail roof to the ground he would have doubtless been seriously crippled. His nerve and daring are remarkable. Carter claims to be but 19 years old.

## COUNTY COURT MEETS.

### The Douglas county court met this morning and allowed the bills for the past month. At the session tomorrow a great deal of business will probably be transacted. The suit in the court against the county officials in the Riddle cut-off road and the Roseburg-Myrtle Point highway work, which will probably be started soon, will be two propositions to be considered by the judge and the commissioners.

## QUINE GOES SOUTH.

### Sheriff George K. Quine will leave this evening for Redding, California, to get two men captured there Monday, charged with the theft of the auto from the Glendale garage. The Roseburg and will make the trip in the captured auto. There has been considerable speculation here today as to whether the sheriff can handle a Chevrolet and a couple of crooks at the same time, but he is of the firm belief that such a feat is possible.

## REPORT ON LEAGUE READY NEXT WEEK

### May Possibly Be Reported Back To The Senate By Friday Next.

## ADOPT RESERVATIONS

### McNary Group Suggestions Meet With Favor—Disque Alleges He Will Disprove Every Charge Against Him.

(By Associated Press.)  
WASHINGTON, Sept. 2.—According to reports from republican leaders today it is believed the foreign relations committee report on the league of nations covenant and German peace treaty will be ready for the senate probably Friday but at the latest will not be delayed longer than early next week, possibly Wednesday. Progress is reported by the republican members of the committee toward the "harmony program" on the reservations in connection with the peace treaty. Senator Lodge has reported that acceptance of three of the four reservations proposed by the McNary group of republicans.

## ALLIGES RECORD CLEAN.

### PORTLAND, Sept. 3.—Beginning with the preliminary declaration that he was prepared to disprove every charge against his administration of the spruce production division, Gen. Disque took the witness stand today in the hearing before the congressional sub-committee.

## FIRE ON AIRPLANE.

### LAREDO, Sept. 3.—Mexican federal soldiers made an attack yesterday on a United States army airplane, which they fired upon while the flyers were patrolling the border near here. The machine was over Mexican territory at the time, according to the Mexican consul, Garcia, of Laredo. The firing was unwarranted, Garcia stated, and was done in the absence of the detachment commander, but the matter has been reported to the superior authorities for instructions regarding the punishment for the offenders.

## NO MORE POWER.

### WASHINGTON, Sept. 3.—The senate today voted down the amendment by LaFollette to the land leasing bill, whereby the president would have been authorized to fix and control prices on oil, coal and numerous products derived from government lands leased under terms of the measure.

## ATTEMPT BOMB RULED.

### TOKIO, Sept. 3.—Advices from Seoul, the capital of Korea, state that a bomb was thrown at the Japanese governor general, Saito, and in the explosion following twenty persons were wounded, including an American woman named Harrison. The woman is believed to be a relative of Carter Harrison, former mayor of Chicago. The governor general escaped without injury. No particulars of the incident are obtainable.

## ULTIMATUM SENT.

### PARIS, Sept. 3.—The supreme peace council has definitely decided to send an ultimatum to Roumania regarding her course in Hungary. The ultimatum will be couched in drastic terms, and a time limit set for action. Should Roumania refuse to comply with demands within a given time, diplomatic relations will be broken, and the allied envoy will bring away with him from Bucharest all allied representatives there.

## GREAT FUTURE FOR UMPQUA FRUIT MEN

### Product is No Longer a Drug On The Markets—Buyers Are After Crops.

## OLD CONDITIONS PASS

### Big Packing Houses and Canneries Supply Facilities for Shipping—Opportunities Plentiful for Engagement in Work.

That the fruit industry is beginning to take its proper place in commercial transactions of the county, is shown by general activity of both growers and packers. So long as the output of orchards in the Umpqua Basin was light, buyers were not attracted to this locality. The thousands of acres planted to apples, pears and cherries within the last ten years are just commencing to make a showing, and in consequence fruit men are taking hold of a business that promises marvelous returns. The time is not so long ago but that it is yet a painful memory when a grower brought a couple of boxes of peaches to town he had the market glutted and the next progressive fruit enthusiast to come along with a few pounds was informed that the dealers were overstocked. Then, too, instead of cash for their product, growers most frequently would only take the fruit on a basis of trade, or if the fruit man did not need a few bars of soap or a dollar's worth of sugar just at that particular time, a fine bill was executed in favor of the affluent rancher, who was thereby permitted at some future time to take the amount in trade.

Those men and women who came into the valley within a ten years' period and planted extensively to fruit, were building wisely, and the wisdom of their vision is now clearly seen by every one. Today, in Roseburg, two monster packing houses are under construction for the sole purpose of handling Umpqua Valley fruit. Not only that, but the growers have organized for mutual protection from the greed of middlemen, and market conditions in the future are as firmly established as it is possible. Yields of orchards this season are flattering and the young trees are loaded down with fruit that has no superior on the coast, while buyers are plenty and seeking to get possession of the crop. The due bill era of the past has been swallowed up in the progressive present, and the toll and waiting of the years gone by are rewarded by the golden returns that are flowing into the pockets of the orchardists of today.

While apples and pears are the principal fruits grown in the valley, in many localities pears are becoming very profitable, and in some instances growers have planned their faith almost exclusively to this fruit. Winter varieties of apples are in greatest favor, since they are not so perishable, and this year hundreds of carloads will be shipped out of this county.

In addition to this branch of the fruit industry, the canneries are filling a great need by creating a market for perishable fruits of all sorts, and the demand in this connection is really greater than the supply, although another year will see adequate supplies grown, as orchards are constantly increasing their output. The demand for Logans and blackberries is far in excess of the available supply, and will doubtless remain so for an indefinite period, despite the fact that plantings of these small fruits have been extensive the past season. The thriving returns from small fruit culture is attracting many people, and within a year or two the acreage in these profitable lines will be immensely increased.

Considering the fruit business from all angles there is no more certain way for men and women to make themselves independent than to engage in this industry in this valley. Lands are comparatively cheap now to what they will be in the next two or three years, and those who go into the work at this eleventh hour do not have to face an uncertainty, but with markets established may do so with perfect confidence in the success of their efforts when judicious care is given their orchards and vines.

## COUNCIL MEETS IN VERY QUIET SESSION

### Everything was quiet on the city council front last evening and the "city dads" met in one of the most quiet sessions for some time with nothing to disturb the silence but the regular routine business. J. E.

## COMMUNITY FAIRS ARE A WONDER

### One Held At Wilbur Was Well Attended And Grand Exhibit Made.

## COAST TRIP SATURDAY

### Superintendent O. C. Brown Enthusiastic Over Flattering Showing Made in Each Community In The County.

From County Superintendent O. C. Brown The News is informed that the community fair held at Wilbur yesterday was a decided success in every particular and the display of produce, stock and fancy work far surpassed the expectations of the many people who had congregated to participate in the event which was held at the beautiful Lallauro grove near the rock quarry, which had been gaily decorated for the occasion. The exhibit of old books was extremely interesting, one in particular giving letters written by George Washington to a friend in Scotland was a relic highly prized by the possessor. The book was printed in 1690 and was exhibited by H. Irving, whose home is near Wilbur.

Another feature of the day's fair was the excellent musical program rendered, which consisted of an instrumental duet by Mrs. Nicholas and Miss Katherine LaRaut; solos, beautifully rendered by Mrs. G. W. Short and Miss LaRaut. There was a fine exhibit of fancy work by the ladies of that vicinity which showed exceptional ability along this line. Among the lot shown was a linen table cloth with a hunter and deer design woven in the fabric, this work being executed over a hundred years ago, having been made in the year 1741. From the standpoint of rare exhibits, Wilbur made a fine showing. Mr. Brown states, while the general display was fully up to that made in other communities.

Interesting talks were made during the day by a number of fair enthusiasts among whom was Mrs. Miller, formerly associated with school work at Wilbur, all of which proved decidedly interesting and instructive to the large number of people present at the community fair. Mr. Brown states that it is now planned to leave Saturday for the coast end of the county and that a good sized party is being assembled to make the trip to Gardiner, and he would be glad to see a large delegation from Roseburg, but if this be accomplished, plans for their transportation and connection at Scottsburg must be made before Saturday. This occasion would be an excellent opportunity for local people to visit the thriving coast section and it is hoped many will take advantage of the opportunity. According to present plans, Sunday will be enjoyed by the visitors on the beach and a general inspection of activities at Reedsport and Gardiner. The community fair will fall on Monday and this will be a banner day for all who participate.

Mr. Brown states that these community fairs are proving a wonder wherever held and that the interest shown by each individual section surpasses anything in the line so far witnessed by him. He is very enthusiastic over the results and close interest given the fairs by all concerned. Today a fair was held at Sutherlin, and like all others, was fully up to the standard.

## SOME CHANGE HERE FOR DISSAPPOINTMENT

### (By Associated Press.) WASHINGTON, Sept. 3.—President Wilson, in a final conference with Senator Hitchcock, democrat, before his departure on a speaking tour to the Pacific coast, expressed confidence that the treaty would be ratified without amendments or destructive reservations. In his speeches the president will emphasize that delay in ratification was obstructive of legislation on the cost of living and the railroad question, as well as on reconstruction problems. Hitchcock is positive the amendments to the peace treaty and league covenant will be defeated.

## RAIN GOOD FOR FIRES.

The rains of last night and today will assist a great deal in quenching the fires in the national forests, according to an announcement made today by the local forest service. The smoke cloud which has been hanging very heavy in this section for the past few days is hardly noticeable today and many of the smaller fires which have been started by campers will probably be stopped by the rainfall. The large fire reported in the Leon Lake country has been placed under control.

## MONEY FOR PRIZES.

The county court today appropriated \$1200 from the county fair fund to be paid as premiums in the community fairs for the best livestock, horticultural and agricultural exhibits. This money is set aside for the purpose of giving prizes to the best fair being held this year. It was thought best to distribute the cash among the several community fairs.

## PERFORMS MANY OPERATIONS.

Dr. A. C. Seely, local eye, ear, nose and throat specialist today performed three throat operations at the Mercy hospital. Those who underwent the operations are Merrill Henderson, Leona, Morris Madison, Elton, and Myrtle Block, Romea. All of the patients are doing nicely.

## GETS FINE BUCK.

Bob Bushnell, well known local boy, returned this morning from the coast range mountains, where he has been on a hunting trip. He brought back a fine deer, which he killed yesterday afternoon. The buck was one of the finest specimens yet brought in. The party in which Bushnell was a member killed three deer.

## SUTHERLIN PRESENTS COMMUNITY FAIR

Sutherlin, not to be beaten in community fairs, went "over the top" today in top notch exhibits, and people from this city returning from there this afternoon say that the fair was a "gippin'." All of the dis-

He is very enthusiastic over the results and close interest given the fairs by all concerned. Today a fair was held at Sutherlin, and like all others, was fully up to the standard.

## PACKING COMPANIES READY.

The H. S. Gile Packing company, the Drager Packing company and the J. K. Arnsby company new plant will be ready for the prime packing season, which is about the last of this month. The Gile plant and the Drager plant are this week getting everything in readiness and will be ready to handle all of the crop. The Arnsby plant which is nearing completion is a fine structure and will be ready for operation within the near future.

## GETS FINE BUCK.

Bob Bushnell, well known local boy, returned this morning from the coast range mountains, where he has been on a hunting trip. He brought back a fine deer, which he killed yesterday afternoon. The buck was one of the finest specimens yet brought in. The party in which Bushnell was a member killed three deer.

## SUTHERLIN PRESENTS COMMUNITY FAIR

Sutherlin, not to be beaten in community fairs, went "over the top" today in top notch exhibits, and people from this city returning from there this afternoon say that the fair was a "gippin'." All of the dis-

## TWO MARRIAGES LAST NIGHT.

### County Judge D. J. Stewart co-operated with Cupid last evening and pointed two couples in marriage in his offices at the court house. Lucius Kincaid, of Roseburg, and Alta Burch, of Canas Valley, were married and the other couple embarking on the matrimonial sea were A. R. Salle, of Yoncalla and Leona Merk, of Spokane.

## JUVICH TO SALEM.

### Joe Juvich, who was last week sentenced to serve eight years in the penitentiary for his connection with the Scottsburg robbery, was taken to Salem this morning by Constable Dillard. Juvich was rather reticent upon his departure here but stated that he was glad to get out of the county jail even though he was going to the pen.

## VERY FEW FIRES.

The local forest service office yesterday announced that the forest fire situation at the present time is not very serious and that with the exception of a few small fires near Tiller and Buck Fork no large conflagrations have been reported. The fire fighting force employed at the present time has all the fires in control.

## AMERICAN LEGION TO MEET FRIDAY

### Permanent Organization To Be Perfected—Ex-Service Men Should Attend.

## POLICIES—NOT POLITICS

### Wonderful Organization Is Benefiting Men Who Served Uncle Sam and Is Combating the "Yellow-Backed" Slackers.

According to an announcement made today, the local post of the American Legion, the organization for ex-service men of the world's war, will meet in the Roseburg council chambers on Friday evening. At that time a permanent organization will be formed and officers elected. An effort is being made at the present time by the executive committee and the temporary officers to secure the names of all the ex-soldiers, sailors and marines in Douglas county and to boost the membership of the Douglas county post to the limit. The American Legion stands for Americanism first, and all the time, and is for the express purpose of benefitting those who served in Uncle Sam's forces during the last war. The Legion takes care of all the soldiers' affairs and paper work and handles the insurance, allotments, back-pay, etc. He sure and be "on deck" Friday night and have a voice in the local organization. During the winter months the Legion will give smokers and other social affairs and will be very active in all lines.

## Farms for Soldiers.

The question of soldier settlement shortly will come to an issue before congress. The fundamentals of the problem so far as they effect the interests of the country are that soldier non-employment shall be reduced and soil production increased. That by government aid given to men who were soldiers and now wish to be farmers. The issue no matter how broad and well considered, will not solve the problem of soldier readjustment nor will it bring the monster of high living cost to its knees. But it will be a firm well defined step in that direction. The American Legion is at the helm and is making progress along that line.

## May Have Auxiliary.

A women's auxiliary to the local post of the American Legion may be formed in this county later. The formation of auxiliaries to the American Legion by the mothers, wives and sisters of the men who were in service is being encouraged in this state. The movement ought to become general. No one is closer to an appreciation of the horrors of the House of Arzonne than the wives and mothers of the men who battled there. No one suffered more sharply, made a greater sacrifice. And it is only natural that when the soldiers unite to perpetuate their associations, and the ideals for which they fought, that the women folk should feel the same urge.

## W. S. HOWARD BADLY BURNED BY GASOLINE

W. S. Howard, the local shoeman, was badly burned last evening when the motorcycle which he had just mounted caught fire from an overflow of gasoline from the tank. Mr. Howard just recently installed a spark intensifier on his machine, a contrivance which was demonstrated on the streets of this city Saturday. He stopped in front of the Roseburg Garage last evening to get a supply of gasoline and in doing so the tank was filled to overflowing, the gasoline spreading over the machine as well as over the right rouser leg of Mr. Howard. When he "kicked" the motorcycle off a spark from the intensifier ignited the surplus gasoline with the result that the machine caught fire and spread to Mr. Howard's trousers and before he was able to extinguish the flames the flesh of the right leg was severely burned, as well as his right hand. Mr. Parker of the garage, immediately rendered assistance and soon had the injured man free from his perilous position. Mr. Howard will be confined to his home for sometime as the burns on his right leg are quite severe.

## BROCKWAY TO HONOR RETURNED SOLDIERS

An ice cream social will be held tomorrow evening at the Brockway school house for the returned soldiers of that section and the reception promises to be an event of the district. Brockway boasts of having a great number of young men in the service and most of them have now returned, some from overseas and others from camps in the states. The students of that section have planned this reception for some time and tomorrow evening will show the boys their extreme appreciation for the services they have rendered their country. Bert G. Bates of this city has been asked to attend and address the assemblage explaining the ideas and purpose of the American Legion.

## HITCHCOCK FEARS JAPANESE WRATH

### In Order To Prevent Invasion He Urges That Shantung Steal Be Approved.

## IS PURE PACIFIST BUNK

### Alleges Japs Will Not Submit to "Humiliation in Eyes of World" President Calls for a Conference.

(By the Associated Press.)  
WASHINGTON, Sept. 3.—Passionately declaring that the purpose of the senate foreign relations committee majority, in amending the peace treaty, was nothing less than an effort to kill the treaty entirely and that such a course would be suicidal to the United States, Senator Hitchcock, democratic leader, alleged today that a majority of the senate would never accept any of the committee changes. Hitchcock took a doleful view of the situation, pessimistically portraying dire calamity in event the senate fails to ratify the treaty, and said in conclusion: "Suppose the senate should vote for the Shantung amendment, does any one believe that Japan would submit to this humiliation before the eyes of the world?"

## WANT PEACE TERMS.

BERNE, Sept. 3.—Russian Bolshevik forces on the Lithuanian front, when routed and afterward surrounded, immediately proposed that peace negotiations be entered into.

## NEW ZEALAND RATIFIES.

WELLINGTON, Sept. 3.—The peace treaty with Germany was unanimously ratified today after members of the labor party had criticized the pact.

## PROPOSES CONFERENCE.

WASHINGTON, Sept. 3.—Hoping to get at the seat of nation-wide perplexity in relation to general conditions, a conference between labor, capital and the agricultural interests of the country has been called by the president and the present economic conditions will be probed. The conference will be held in Washington between October 5 and 10.

## ROYALTY COMING.

WASHINGTON, Sept. 3.—King Albert and Queen Elizabeth of Belgium will arrive in America about October 1. While in Washington they will be the guests of President and Mrs. Wilson for their three days' stay in Washington.

## W. S. HOWARD BADLY BURNED BY GASOLINE

W. S. Howard, the local shoeman, was badly burned last evening when the motorcycle which he had just mounted caught fire from an overflow of gasoline from the tank.
