When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs; produces a free expectoration, and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by Hamilton Drug Co.

Prunegrowers Meet.

A meeting of that portion of the members of the Umpqua Valley Prune Association who have their fruit in their packing house here was held in Roseburg last Saturday for the purpose of devising plans whereby more active markets in the east for the Oregon product could be created. There is very little demand for Oregon prunes in eastern markets just now. In places where the demand was very great last season, there is little or no call for them at the present time. This is not due to any inferiority in quality but to the preference created for California prunes by judicious advertising and extensive canvassing. It was decided at the meeting Saturday to formulate general plans for advertising the Oregon prunes and to send canvassers east to stimulate the demand for them in the markets. These plans will be definitely outlined and the appointments of canvassers made at a meeting of the directors of the association next Saturday. This association will act in conjunction with the Willamette Valley Association, which decided upon similar plans several days ago and which is connected with the local organization by reason of holding stock therein.
