

TURNED DOWN

Another Effort to Investigate
Postal Frauds.

BY A STRICT PARTY VOTE

Republican Senators Vote Solidly
Against Taking Any Action
in the Matter.

WASHINGTON, April 12.—By a strict party vote of 40 to 19 the senate today laid on the table Gorman's amendment to the postoffice appropriation bill, providing for the appointment of a joint congressional committee of eight members to investigate the postoffice department frauds.

WASHINGTON, April 12.—In the senate this afternoon Teller offered an amendment to the postoffice appropriation bill for the appointment of a committee of five to investigate the postoffice department. Like the Gorman resolution, it was defeated, 35 to 15.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Heals burns, cuts, bruises, sprains. Instant relief.

Resolution of Condolence.

To the officers and members of Roseburg Lodge No. 326, Benevolent and Protective Order of Elks:

Our Brother, William Faber, is no more.

Resolved, That in the death of Brother Faber, Roseburg Lodge, 326, Benevolent and Protective Order of Elks, has suffered a serious and irredeemable loss.

Resolved, That our heartfelt sympathies are herewith extended to the family of our late brother, in their

hour of sorrow. May they be consoled in the thought that the life that has departed has left its impression upon those in the circle of his brothers and acquaintances with whom there will always remain a pleasant memory.

Resolved, That we realize that a true and good brother has fallen, but how consoling the divine assurance that, that which we call death, only opens to the freed spirit of the just and the good the highway to life immortal. Fruits fall to the earth and decay, but never a fruit that did not leave its seed, and never a life that did not leave its example.

Resolved, That an engrossed copy of these resolutions be given to the relatives of our deceased brother, and a copy be furnished to the city papers for publication, and that they be spread upon the Records of Roseburg Lodge No. 326, Benevolent and Protective Order of Elks. ROY MCALLISTEN, C. B. BAXTER, C. F. CATHART, Committee.

Quite a number of people, mostly from the state of Washington, are here looking for timber land locations, so the Cobb Real Estate Co. reports.

Mr. D. Asher, who lives on a portion of the Wiles fruit tract, west of town, has sold his place to a Mr. McMurphy, recently of Nebraska.

Two more cars of prunes were loaded this afternoon for shipment to eastern points by the Umpqua Valley Prune Association. They still have about eleven cars of fruit on hand but expect to dispose of all of it soon. Mr. H. S. Gile, who is now in the east, writes that the packing done in Roseburg is unexcelled anywhere. The prune market continues very unsettled, so he writes.

To The Ladies.

You are invited to suggest a name for the Roseburg Baseball Club of the State League. Write whatever name you may propose, enclose it in a sealed envelope, bearing your name, and leave it at the Review office. Names will be received up to 5 o'clock p. m., on April 23. A committee consisting of Jas. Hainsbrough, W. H. Fisher and W. T. Wright will then look over the names submitted and select the one they consider to be the most suitable. The lady who proposes the name selected will receive a season's free pass to the baseball games. The name selected will be announced April 25th. Send in your choice. a-w-tf.

tragedy, of which they have been witnesses—how thrilling and fascinating would be the reminiscence.

How desolate and uninviting would be the world were it not for the trees. Lands denuded of their forests become subjects to the greater extremes of summer heat and the cold winter. The fields and hillsides freed from the roots of trees and shrubs are exposed to the erosive power of rains and floods. Rob the country of its trees and it has been robbed of many charming features, for it is changed into a solitude unenlivened by the songs of the wild birds, and the rollicking creatures of the wood. Destroy the forests, and the parching drouth, and the pinch of cold and poverty must soon be felt.

How delightful is a holiday in the woods in early autumn, when the ground is strewn with richly tinted leaves. The sighing in the tree-tops and the rustle of the dead leaves bring back the memories of childhood. But how important is the office of the dead leaves. They spread like a thick matting over the roots of the trees, retaining the moisture, shutting out the frost or excessive heat, and so promote growth by preserving an even temperature. Surely wisdom is displayed in all of Nature's ways. How refreshing is the shade of a leafy tree in the mid-day heat of a summer sun; how comforting is the protection of a barrier of trees against the wintry winds; and so in the kingdom of plant life has Nature ministered to our wants by supplying food and clothing and shelter, and medicine and beauty and perfume, to fill our days with health and gladness. Every highway should be graced with thrifty trees; the waste places of our domain should be covered with the native trees of the forest; every home should be within an encircling grove; and every little child should be taught to venerate the tree which stands as a mediator between him and the crude elements of the world, and is typical of that higher mediation of Christ between man and God. There are many analogies between a treeless country and a Christless life.

The spring-time has its inspiration. The grass spreads its velvet of bright green over the dark uneven ground, and softens every hard and unkind feature; above the carpet of green the flowers lift their smiling faces to the sun, and fill every breeze with fragrance; shrubs rich with bloom dot the fields; and beyond, the hills are crown-

BOILS

PYRAMIDS OF PAIN

Most Plentiful and Troublesome
During Spring and Summer.

It takes warm weather to bring out the hidden impurities, humors and poisons in the system and stir up the sluggish blood, and this is why boils are so common in Spring and Summer. They sometimes come singly, but oftener in pairs and triplets, and even in bunches and clusters, and generally upon the tenderest part of the body. They are the most painful of all skin eruptions, and the blood is in a turmoil, and the system in a feverish commotion from the time these volcanoes of misery begin to form until they burst and the matter is all discharged. But lucky is the unfortunate sufferer who gets off with only one boil, for even if another does not follow immediately, the poison that is left in the blood is bound to collect somewhere else and break through the skin, and these pyramids of pain may be coming and going all through the Spring and Summer.

Some people have an idea that boils are good for the health, that they are evidences that the blood is too rich, but nobody's blood ever gets too rich; neither are boils conducive to health. Impoverished or polluted blood, or a riotous, feverish condition of this vital fluid causes boils, carbuncles, and other dangerous skin eruptions.

Long-continued sickness leaves the blood too weak and sluggish to throw off the bodily impurities and relieve the system of the waste and refuse, which then concentrates at some spot and a carbuncle or boil is the result. To one already enfeebled by disease boils seem to come with more frequency, causing the intensest pain and greatest danger to the already weak and debilitated sufferer.

All skin eruptions, from the sometimes fatal carbuncle to the spiteful little cat-boil, are caused by bad blood, and the only way to avoid or get permanently rid of them is to purify and build up the deteriorated, polluted blood, and counteract the humors and poisons, and nothing will do this so quickly and thoroughly as S. S. S., which is the acknowledged king of blood purifiers and greatest of all tonics.

Where the blood has become impoverished and is poor and thin no medicine acts so promptly in building it up and restoring its richness, purity and strength. The time to cure a boil is before it develops, when it is in a state of incubation or formation in the blood, for boils are, after all, only the impurities and poisons bubbling up through the skin, and this will continue in spite of poulticing and lancing till the blood gets rid of its accumulated poison. The way to stop boils is to attack them in the blood, and this is what S. S. S. does. All danger of boils is past when the blood has been thoroughly purified and the system cleansed of all morbid, impure matter. If you are subject to boils, then the same causes that produced them last season will do so this, and the sooner you begin to put your blood and system in good order the better the chance of going through the spring and summer season without boils or other painful and irritating skin eruptions.

S. S. S. is guaranteed purely vegetable, and can be taken with perfect safety by old and young, and without harm to the most delicate constitution. It is mild and pleasant in its action, and unequalled as a cure for boils and kindred eruptions.
