Handling Strawberries For Export.
In picking fruit for St. Louis the best picker should be assigned to this work and should go over the patch or field ahead of the others. In picking strawberries each berry should be wrapped separately and laid in the box carefully placed so that all will be close enough so that they cannot move, but not tight enough to mash or bruise. Flat boxes should be used, but if not obtainable place a layer of cotton in the bottom of the box, a layer between each layer of berries and more on top of the box. Crates should be marked so that expressmen may know what each contains. The fruit should be picked green enough to be firm, even if it is still inclined to be white on top. So advises G. L. Holsinger of the Kansas State Horticultural society.

ECZEMA SETS THE SKIN ON FIRE

No disease causes so much bodily discomfort, or itches, and burns like Eczema. Beginning often with a slight redness of the skin it gradually spreads, followed by pustules or blisters from which a gummy, sticky fluid oozes which dries and scales off or forms hard looking scabs and sores. It appears on different parts of the body but oftenest upon the back, arms, hands, legs and face, and is a veritable torment at times, especially at night or when overheated.

In 1899 I experienced at times patches on the inside of my hands that itched and burned, causing much discomfort. As time went by it grew worse and I was convinced that I was afflicted with Eczema. I consulted several physicians and used several external applications, receiving but slight temporary relief. In February I decided to try Dr. S. S. S. and in less than a month I experienced a change for the better, and by May all symptoms had disappeared, and I found myself entirely cured, and have had no return of the disease since. W. F. DUESS, Manager Stockman's Advertising Agency, Station A, Kansas City, Mo.

SSS
The cause of Eczema is a too acid and general unhealthy condition of the blood. The terrifying itching and burning is produced by the overflow through the glands and pores of the skin of the fiery poisons with which the blood-current is overloaded. While external applications, such as washes, soaps, salves and powders arrest itching and cooling they do not enter into the blood itself or touch the real cause of the disease, but S. S. S. does, and purifies, enriches, and strengthens the thin acid blood and cleanses and builds up the general system, when the skin clears off and Eczema with all its terrifying symptoms disappears.

Good Roads Needed.
The subject of good roads cannot be much longer kept in the background, says Farm and Ranch. Trolley cars from one town to another, rural telephones and free rural mail delivery are good enough in their way, but paved country roads are necessary to the well being and happiness of the rural districts. When this is accomplished then will the best elements of city life seek country homes for comfort, escape from the evils of city life to evade the heavy taxation necessary to support urban population, and to enjoy the freedom of the country without the smoke and din of the city streets.
