CUT OFF TO BE BUILT

From East Side of S. P. Line to Point Near Eugene.

PORTLAND, Or., July 13.—What is known as the Springfield-Henderson cut-off-a project which has been under consideration for several years by the Southern Pacific—is to be built. A decision to that effect has been arrived at this week, and work is to start immediately. It is estimated the undertaking will entail an expense of approximately \$150,000.

The cut-off will connect the East Side divisions of the Southern Pacific system at a point a short distance south of Eugene. The new line will be but a mile and twelve hundredths in length, but the Willamette River must be bridged, and this will prove decidedly expensive. The main line passes through Henderson, and the branch from the Woodburn extends south through Springfield to Natron. The cut-off will enable passengers from points between Woodburn and Natron to reach Eugene and other main line points without difficulty, and will generally facilitate the company business in the handling of trains.

Patent Medicines.

A man that compounds or invents something that is just a little better than the next best thing, is certainly entitled to the best share of the profits to be derived from the sale of the article. So he patents or copyrights to protect his interests. Patented goods are good goods, poor goods are never patented. We have 20 years of trial behind us to give us the assurance that we have the best medicine compounded for the cure of dyspepsia, sick-headache, biliousness, indigestion and all stomach disorders. We protect the public as well as ourselves by keeping the formula a secret, as long as we make it we know it is made right and it cures these diseases. Druggists tell us that it is the one medicine that the sale is ever on the increase. To get the best remedy for dyspepsia or indigestion ask the druggists for Dr. Gunn's Improved Liver Pills, price 25c. per box, only one for a dose. For sale by A. C. Marsters & Co.
